Abstract: Capital punishment information is collected by the Bureau of Justice Statistics (BJS) annually as part of the National Prisoner Statistics data series (NPS–8). These establishment surveys provide BJS with the capacity to report annually on changes in the size and composition of persons under State or Federal sentence of death and changes to the laws regulating the imposition and implementation of death sentences in the United States. The NPS–8 covers all persons held in a State or Federal

correctional facility under sentence of death at any time during the calendar year. The coverage includes capital prisoners transferred from death row to non-correctional institutions, such as mental hospitals, and prisoners who may have escaped custody. Excluded are capital prisoners who for any reason remain in local correctional institutions outside the jurisdiction of State or Federal correctional authorities from whom data are collected for this series. NPS–8 also excludes persons who were convicted and sentenced to death under the Uniform Code of Military Justice. Information such as statutory, demographic, and criminal history data collected through NPS–8 is not attainable from any other single data source.

For each data collection cycle, we estimate an average burden of 30 minutes for the NPA–8, 30 minutes for the NPS–8A, 15 minutes for the NPS–8B, and 15 minutes to complete the NPS–8C.
