BILLING CODE 4331–27–P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[Docket No. BOEM–2023–0065]

Notice of Intent To Prepare an Environmental Assessment for Commercial Wind Leasing and Site Assessment Activities on the U.S. Outer Continental Shelf Offshore Oregon

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice of intent; request for comments.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) intends to prepare an environmental assessment (EA) to consider the potential environmental impacts associated with possible wind energy-related leasing, site assessment, and site characterization activities on the U.S. Outer Continental Shelf (OCS) offshore Oregon. BOEM seeks public input regarding important environmental issues and the identification of reasonable alternatives that should be considered in the EA. BOEM will assess the environmental impacts of any proposed wind energy projects after a lease is issued and before deciding whether or not to approve any lessee's construction and operations plan.

DATES: BOEM must receive your comments no later than 11:59 p.m. eastern time on March 15, 2024.

ADDRESSES: You may submit comments by either of the following methods:

- *Through the regulations.gov web portal:* Navigate to <https://www.regulations.gov> and search for Docket No. BOEM–2023–0065 to submit public comments and view supporting and related materials available for this notice. Click on the “Comment” button below the document link. Enter your information and comment, then click “Submit Comment”; or

- *By U.S. Postal Service or other delivery service:* Send your comments and information to: “OREGON Environmental Assessment” addressed

to Chief, Environmental Assessment Section, Office of Environment, Bureau of Ocean Energy Management, 760 Paseo Camarillo, Suite 102, Camarillo, California 93010.

FOR FURTHER INFORMATION CONTACT: Lisa Gilbane, BOEM Pacific Region Office of Environment, 760 Paseo Camarillo, Suite 102, Camarillo, California 93010, (805) 384–6387 or lisa.gilbane@boem.gov.

SUPPLEMENTARY INFORMATION:

Background: On August 15, 2023, BOEM announced two draft wind energy areas (WEAs) on the U.S. OCS offshore Oregon for public review and comment. BOEM has now finalized the WEAs. The final WEAs offshore Oregon cover approximately 195,000 acres, an 11 percent reduction from the draft WEAs. Before finalizing the WEAs, BOEM considered feedback from Tribes, government partners, ocean users, and stakeholders, and potential conflicts with commercial and recreational fishing, seafloor habitat, marine mammals, sea turtles, and the National Oceanic and Atmospheric Administration's (NOAA) scientific survey locations.

Proposed Action and Scope of Analysis: The EA's proposed action is issuing wind energy leases in the WEAs offshore Oregon. The EA will consider project easements and grants for subsea cable corridors associated with leasing. The EA also will consider the potential environmental impacts associated with site characterization surveys (biological, archeological, geological, and geophysical surveys and core samples) and site assessment activities (*e.g.*, installation of meteorological buoys) that are expected to take place following leasing. The EA's proposed action does not include the installation of meteorological towers because buoys have become the preferred meteorological and oceanographic data collection platforms for developers. In addition to the no-action alternative, other alternatives may be considered, such as exclusion of certain areas.

BOEM is preparing an EA for this proposed action to assist its planning and decision-making (40 CFR 1501.3). This notice starts the scoping process for the EA and solicits information regarding additional important environmental issues and alternatives that should be considered (43 CFR 46.305). Additionally, BOEM will use the scoping process to identify and eliminate from detailed analysis issues that are not significant or that have been analyzed by prior environmental reviews (40 CFR 1501.9(f)(1)).

BOEM will use responses to this notice and the EA public input process to satisfy the public involvement requirements of the National Historic Preservation Act (NHPA) (36 CFR 800.2(d)(3)). Specific to NHPA, BOEM seeks information from the public on the identification and assessment of potential impacts to cultural resources and historic properties that might be impacted by possible wind energy-related leasing, site characterization, and site assessment activities in the WEAs.

The EA analyses will also support compliance with other environmental statutes (*e.g.*, Coastal Zone Management Act, Endangered Species Act, Magnuson-Stevens Fishery Conservation and Management Act, and Marine Mammal Protection Act).

Wind energy leases do not authorize any activities on the OCS. Instead, leases grant lessees the exclusive right to submit plans for BOEM approval. Prior to deciding whether to approve any construction and operation plan for commercial wind energy facilities, BOEM will prepare a plan-specific environmental analysis and will comply with all consultation requirements. Therefore, this EA will not consider the construction and operation of any commercial wind energy facilities in the WEAs.

Cooperating Agencies: BOEM invites Tribal governments and Federal, State, and local government agencies to consider becoming cooperating agencies in the preparation of this EA. Council on Environmental Quality (CEQ) regulations implementing the National Environmental Policy Act (NEPA) define cooperating agencies as those with “jurisdiction by law or special expertise with respect to any environmental impact involved in a proposal (or a reasonable alternative)” (40 CFR 1508.1(e)). Potential cooperating agencies should consider their authority and capacity to assume the responsibilities of a cooperating agency. A cooperating agency's role in the environmental analysis neither enlarges nor diminishes the final decision-making authority of any other agency involved in the NEPA process.

Upon request, BOEM will provide potential cooperating Tribal governments and agencies with a draft memorandum of agreement that includes a schedule with critical action dates and milestones, mutual responsibilities, designated points of contact, and expectations for handling pre-decisional information. Agencies should also consider the “Factors for Determining Whether to Invite, Decline or End Cooperating Agency Status” in

CEQ's memo "Cooperating Agencies in Implementing the Procedural Requirements of [NEPA]" dated January 30, 2002.

BOEM, as the lead agency, will not provide financial assistance to cooperating agencies. Even if an organization is not a cooperating agency, opportunities will exist to provide information and comments to BOEM during the normal public input phases of the NEPA process.

Comments: Federal agencies; Tribal, State, and local governments; and other interested parties are requested to comment on the important issues to be considered in the EA. For information on how to submit comments and the submission deadline, see the **DATES** and **ADDRESSES** sections above.

Privileged and Confidential Information: BOEM will protect privileged and confidential information in your comment under the Freedom of Information Act (FOIA). Exemption 4 of FOIA applies to trade secrets and commercial and financial information that is privileged or confidential. If you wish to protect the confidentiality of such information, clearly label it and request that BOEM treat it as confidential. BOEM will not disclose such information if BOEM determines under 30 CFR 585.114(b) that the information qualifies for a FOIA exemption. Please label privileged or confidential information "Contains Confidential Information" and consider submitting such information as a separate attachment.

BOEM will not treat as confidential any aggregate summaries of such information or comments not containing such privileged or confidential information. Information that is not labeled as privileged or confidential may be regarded by BOEM as suitable for public release.

Personally Identifiable Information (PII): BOEM encourages you to not submit anonymous comments. Please include your name with your comment. You should be aware that your entire comment, including your name and any other PII included in your comment, may be made publicly available. All submissions from identified individuals, businesses, and organizations will be available for public viewing on [regulations.gov](https://www.regulations.gov). Except for clearly identified privileged and confidential information, BOEM will make available for public inspection all comments, in their entirety, submitted by organizations and businesses, or by individuals identifying themselves as representatives of organizations or businesses.

For BOEM to consider withholding your PII from disclosure, you must identify any information contained in your comments that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm. Even if BOEM withholds your information in the context of this notice, your submission is subject to FOIA, and if your submission is requested under FOIA, your information will only be withheld if a determination is made that one of FOIA's exemptions to disclosure applies. Such a determination will be made in accordance with the Department's FOIA regulations and applicable law.

Section 304 of the National Historic Preservation Act (54 U.S.C. 307103(a)): After consultation with the Secretary of the Interior, BOEM is required to withhold the location, character, or ownership of historic resources if it determines that disclosure may, among other things, cause a significant invasion of privacy, risk harm to the historic resources, or impede the use of a traditional religious site by practitioners. Tribal entities and other parties providing information on historic resources should designate information that they wish to be held as confidential and provide the reasons why BOEM should do so.

Authority: National Environmental Policy Act, 43 U.S.C. 4321 *et seq.*; 43 CFR 46.305.

Douglas P. Boren,

Pacific Regional Director, Bureau of Ocean Energy Management.

BILLING CODE 4340-98-P

INTERNATIONAL TRADE COMMISSION

[Investigation No. 337-TA-1390]

Certain Capacitive Discharge Ignition Systems, Components Thereof, and Products Containing the Same; Institution of Investigation

AGENCY: U.S. International Trade Commission.

ACTION: Notice.

SUMMARY: Notice is hereby given that a complaint was filed with the U.S. International Trade Commission on January 10, 2024, under section 337 of the Tariff Act of 1930, as amended, on behalf of Altronic, LLC of Girard, Ohio. A supplement was filed on January 30,

2024. The complaint alleges violations of section 337 based upon the importation into the United States, the sale for importation, and the sale within the United States after importation of certain capacitive discharge ignition systems, components thereof, and products containing the same by reason of the infringement of certain claims of U.S. Patent No. 7,401,603 ("the '603 patent"). The complaint further alleges that an industry in the United States exists as required by the applicable Federal Statute. The complainant requests that the Commission institute an investigation and, after the investigation, issue a limited exclusion order and cease and desist orders.

ADDRESSES: The complaint, except for any confidential information contained therein, may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>. For help accessing EDIS, please email EDIS3Help@usitc.gov. Hearing impaired individuals are advised that information on this matter can be obtained by contacting the Commission's TDD terminal on (202) 205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at (202) 205-2000. General information concerning the Commission may also be obtained by accessing its internet server at <https://www.usitc.gov>.

FOR FURTHER INFORMATION CONTACT: Katherine Hiner, The Office of the Secretary, Dockets Services Division, U.S. International Trade Commission, telephone (202) 205-1802.

SUPPLEMENTARY INFORMATION:

Authority: The authority for this investigation is contained in section 337 of the Tariff Act of 1930, as amended, 19 U.S.C. 1337, and in section 210.10 of the Commission's Rules of Practice and Procedure, 19 CFR 210.10 (2023).

Scope of Investigation: Having considered the complaint, the U.S. International Trade Commission, on February 8, 2024, *Ordered that—*

(1) Pursuant to subsection (b) of section 337 of the Tariff Act of 1930, as amended, an investigation be instituted to determine whether there is a violation of subsection (a)(1)(B) of section 337 in the importation into the United States, the sale for importation, or the sale within the United States after importation of certain products identified in paragraph (2) by reason of infringement of one or more of claims 1, 6, 8-13, 15, and 16 of the '603 patent, and whether an industry in the United
