Cold-Drawn Mechanical Tubing From China, Germany, India, Italy, South Korea, and Switzerland

Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the countervailing duty orders on certain cold-drawn mechanical tubing of carbon and alloy steel ("cold-drawn mechanical tubing") from China and India and the antidumping duty orders on cold-drawn mechanical tubing from China, Germany, India, Italy, South Korea, and Switzerland would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission instituted these reviews on January 3, 2023 (88 FR 114) and determined on April 10, 2023 that it would conduct a full review (88 FR 24442, April 20, 2023). ACTION: Notice.

SUMMARY: The Department of Labor's (DOL) Employment and Training Administration (ETA) is soliciting comments concerning a proposed extension for the authority to conduct the information collection request (ICR) titled, "Experience Rating Report." This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995 (PRA).

DATES: Consideration will be given to all written comments received by April 15, 2024.

Dullaghan by telephone at (202) 693-2927 (this is not a toll-free number), or by email at dullaghan.edward@dol.gov.

Submit written comments about, or requests for a copy of, this ICR by mail or courier to the U.S. Department of Labor, Employment and Training Administration, Office of Unemployment Insurance, 200 Constitution Avenue NW, Frances Perkins Building, Room S-4524, Washington, DC 20210; by email: dullaghan.edward@dol.gov; or by fax (202) 696-3229.

SUPPLEMENTARY INFORMATION: DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the Office of Management and Budget (OMB) for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

The data submitted annually on the ETA 204 report enables ETA to project revenues for the Unemployment Insurance (UI) program on a state-by-state basis and to measure the variations in assigned contribution rates that result from different experience rating systems. Used in conjunction with other data, the ETA 204 report assists in determining the effects of certain factors (e.g., stabilization, expansion, or contraction in employment, etc.) on the unemployment experience of various groups of employers. The data also provide an early signal for potential solvency problems and are useful in analyzing factors that give rise to these potential problems and permit an evaluation of the effectiveness of the various approaches available to correct the detected problems. The report collects annual information about the taxation efforts in states relative to both taxable and total wages and allows comparison between states. Further, the data are key components to the Significant Tax Measures Report. The Significant Tax Measures Report provides the information necessary to evaluate and compare state UI tax systems. 44 U.S.C. 3506(c)(2)(A) authorizes this information collection.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be

summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB control number 1205–0164.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).
