

specified by the whistleblower provisions. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on December 4, 2023 (88 FR 84174).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL–OSHA.

Title of Collection: Regulations Containing Procedures for Handling of Retaliation Complaints.

OMB Control Number: 1218–0236.

Affected Public: Individuals or Households.

Total Estimated Number of Respondents: 17,387.

Total Estimated Number of Responses: 17,387.

Total Estimated Annual Time Burden: 17,387 hours.

Total Estimated Annual Other Costs Burden: \$0.

(Authority: 44 U.S.C. 3507(a)(1)(D))

Nicole Bouchet,

Certifying Official.

BILLING CODE 4510–26–P

DEPARTMENT OF LABOR

Agency Information Collection Activities; Submission for OMB Review; Comment Request; Refuse Piles and Impoundment Structures, Recordkeeping and Reporting Requirements

ACTION: Notice of availability; request for comments.

SUMMARY: The Department of Labor (DOL) is submitting this Mine Safety and Health Administration (MSHA)-sponsored information collection request (ICR) to the Office of

Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before March 15, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

FOR FURTHER INFORMATION CONTACT: Michael Howell by telephone at 202–693–6782, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: Requires coal mine operators to submit to MSHA annual reports and certification on refuse piles and impoundments and to keep records of the results of weekly examinations and instrumentation monitoring. Impoundments are structures that can impound water, sediment, or slurry or any combination of materials; and refuse piles are deposits of coal mine waste (other than overburden or spoil) that are removed during mining operations or separated from mined coal and deposited on the surface. The failure of these structures can have a devastating effect on a community. To avoid or minimize such disasters, standards have been promulgated for the design, construction, and maintenance of these structures; for annual certifications; for certification for hazardous refuse piles; for the frequency of inspections; and the methods of abandonment for impoundments and impounding structures. For additional substantive information about this ICR, see the related notice published in the **Federal**

Register on August 16, 2023 (88 FR 55728).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.

Agency: DOL–MSHA.

Title of Collection: Refuse Piles and Impoundment Structures, Recordkeeping and Reporting Requirements.

OMB Control Number: 1219–0015.

Affected Public: Businesses or other for-profits.

Total Estimated Number of Respondents: 907.

Total Estimated Number of Responses: 22,533.

Total Estimated Annual Time Burden: 55,933 hours.

Total Estimated Annual Other Costs Burden: \$1,155,051.

BILLING CODE 4510–43–P

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Information Collection Activities; Comment Request

AGENCY: Bureau of Labor Statistics, Department of Labor.

ACTION: Notice of information collection; request for comment.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the

Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the “National Longitudinal Survey of Youth 1979.” A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before April 15, 2024.

ADDRESSES: Send comments to Nora Kincaid, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room G225, 2 Massachusetts Avenue NE, Washington, DC 20212. Written comments also may be transmitted by email to BLS_PRA_Public@bls.gov.

FOR FURTHER INFORMATION CONTACT: Nora Kincaid, BLS Clearance Officer, 202–691–7628 (this is not a toll-free number). (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION:

I. Background

The National Longitudinal Survey of Youth 1979 (NLSY79) is a representative national sample of persons who were born in the years 1957 to 1964 and lived in the U.S. in 1978. These respondents were ages 14 to 22 when the first round of interviews began in 1979; they were ages 59 to 66 as of December 31, 2023. The NLSY79 was conducted annually from 1979 to 1994 and has been conducted biennially since 1994. The longitudinal focus of this survey requires information to be collected from the same individuals over many years in order to trace their education, training, work experience, fertility, income, and program participation, and to continue tracing their interactions with the labor market as they experience changes in health, family situations, and other environmental contexts.

In addition to the main NLSY79, the biological children of female NLSY79 respondents have been surveyed since

1986. A battery of child cognitive, socio-emotional, and physiological assessments was administered biennially from 1986 until 2012 to NLSY79 mothers and their children. Starting in 1994 through 2018, children who had reached age 15 by December 31 of the survey year (the Young Adults) were interviewed about their work experiences, training, schooling, health, fertility, self-esteem, and other topics.

One of the goals of the Department of Labor (DOL) is to produce and disseminate timely, accurate, and relevant information about the U.S. labor force. The BLS contributes to this goal by gathering information about the labor force and labor market and disseminating it to policymakers and the public so that participants in those markets can make more informed, and thus more efficient, choices. Research based on the NLSY79 contributes to the formation of national policy in the areas of education, training, employment programs, school-to-work transitions, and preparations for retirement. In addition to the reports that the BLS produces based on data from the NLSY79, members of the academic community publish articles and reports based on NLSY79 data for the DOL and other funding agencies. To date, more than 3,000 articles examining NLSY79 data have been published in scholarly journals. The survey design provides data gathered from the same respondents over time to form the only data set that contains this type of information for this important population group. Without the collection of these data, an accurate longitudinal data set could not be provided to researchers and policymakers, thus adversely affecting the DOL’s ability to perform its policy- and report-making activities.

II. Current Action

The BLS seeks approval to conduct Round 31 of the NLSY79. Respondents of the NLSY79 will undergo an interview of approximately 73 minutes during which they will answer questions about schooling and training, employment and labor market experiences, family relationships, wealth, and expectations about the future.

During the field period, about 100 NLSY79 interviews will be validated to

ascertain whether the interview took place as the interviewer reported and whether the interview was done in a polite and professional manner.

BLS has undertaken a continuing redesign effort to examine the current content of the NLSY79 and provide direction for changes that may be appropriate as the respondents age. The 2024 instrument reflects a number of changes recommended by experts in various fields of social science and by our own internal review of the survey’s content.

The Round 31 questionnaire includes new questions on the location of work that will empower research examining how the growth of remote work arrangements may affect the labor market experiences of people in this age cohort. It also asks about the respondents’ assets and assesses their cognitive ability—both areas that have appeared in previous rounds of the NLSY79 but not in Round 30.

III. Desired Focus of Comments

The BLS is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Title of Collection: National Longitudinal Survey of Youth 1979.

OMB Number: 1220–0109.

Type of Review: Revision of a previously approved collection.

Affected Public: Individuals or households.

Form	Total respondents	Frequency	Total responses	Average time per response (minutes)	Estimated total burden
NLSY79 Round 31 Main Survey	6,353	1	6,353	73	7,730 hours.

Form	Total respondents	Frequency	Total responses	Average time per response (minutes)	Estimated total burden
Round 31 Validation Interviews	100	1	100	6	10 hours.
Totals ¹	6,353	6,453	7,740 (rounded).

¹ The difference between the total number of respondents (6,353) and the total number of responses (6,453) reflects the fact that about 100 respondents will be interviewed twice, once in the main survey and a second time in the 6-minute validation interview.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, on February 8, 2024.

Eric Molina,

Chief, Division of Management Systems, Branch of Policy Analysis.

BILLING CODE 4510-24-P

DEPARTMENT OF LABOR

Wage and Hour Division

Agency Information Collection Activities: Comment Request; Information Collections: Application for a Farm Labor Contractor or Farm Labor Contractor Employee Certificate of Registration

AGENCY: Wage and Hour Division, Department of Labor.

ACTION: Notice.

SUMMARY: The Department of Labor (Department), is soliciting comments concerning an extension of the information collection request (ICR) titled “Application for a Farm Labor Contractor or Farm Labor Contractor Employee Certificate of Registration.” This comment request is part of continuing Departmental efforts to reduce paperwork and respondent burden in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. A copy of the proposed information collection request can be obtained by contacting the office listed below in the **FOR FURTHER INFORMATION CONTACT** section of this Notice.

DATES: Written comments must be submitted to the office listed in the

addresses section below on or before April 15, 2024.

ADDRESSES: You may submit comments, identified by Control Number 1235-0016, by either one of the following methods: *Email: WHDPRAComments@dol.gov. Mail, Hand Delivery, Courier:* Division of Regulations, Legislation, and Interpretation, Wage and Hour Division, U.S. Department of Labor, Room S-3502, 200 Constitution Avenue NW, Washington, DC 20210.

Instructions: Please submit one copy of your comments by only one method. All submissions received must include the agency name and Control Number identified above for this information collection. Commenters are encouraged to transmit their comments electronically via email or to submit them by mail early. Comments, including any personal information provided, become a matter of public record. They will also be summarized and/or included in the request for Office of Management and Budget (OMB) approval of the information collection request.

FOR FURTHER INFORMATION CONTACT: Robert Waterman, Division of Regulations, Legislation, and Interpretation, Wage and Hour Division, U.S. Department of Labor, Room S-3502, 200 Constitution Avenue NW, Washington, DC 20210; telephone: (202) 693-0406 (this is not a toll-free number). Alternative formats are available upon request by calling 1-866-487-9243. If you are deaf, hard of hearing, or have a speech disability, please dial 7-1-1 to access telecommunications relay services.

SUPPLEMENTARY INFORMATION:

I. Background: The Migrant and Seasonal Agricultural Worker Protection Act (MSPA) provides that no person will engage in any farm labor contracting activity for any money or valuable consideration paid or promised to be paid, unless such person has a certificate of registration from the Secretary of Labor specifying which farm labor contracting activities such person is authorized to perform. *See* 29 U.S.C. 1802(7), 1811(a); 29 CFR 500.1(c), 500.20(i), 500.40. MSPA also provides that a Farm Labor Contractor (FLC) will

not hire, employ, or use any individual to perform farm labor contracting activities unless such individual has a certificate of registration as a FLC or a certificate of registration as a Farm Labor Contractor Employee (FLCE) of the FLC that authorizes the activity for which such individual is hired, employed, or used. 29 U.S.C. 1811(b); 29 CFR 500.1(c). Form WH-530 provides the means for a FLC applicant to obtain a certificate of registration. Form WH-535 provides the means for a FLCE applicant to obtain a certificate of registration. Form WH-540 allows registered FLCs and FLCEs to amend a currently existing certificate.

MSPA section 401 (29 U.S.C. 1841) requires all FLCs, agricultural employers, and agricultural associations, subject to certain exceptions, to ensure that any vehicle they use or cause to be used to transport or drive any migrant or seasonal agricultural worker conforms to safety and health standards prescribed by the Secretary of Labor under MSPA and with other applicable federal and state safety standards. These MSPA safety standards address the vehicle, the driver, and insurance. The Wage and Hour Division (WHD) has created forms WH-514, WH-514a, and WH-515, which allow FLC applicants to verify to WHD that the vehicles used to transport migrant/seasonal agricultural workers meet the MSPA vehicle safety standards and that anyone who drives such workers meets the Act’s minimum physical requirements. WHD uses the information collected on the forms in deciding whether to authorize the FLC/FLCE applicant to transport/drive any migrant/seasonal agricultural worker(s) or to cause such transportation. Form WH-514 is used to verify that any vehicle used or caused to be used to transport any migrant/seasonal agricultural worker(s) meets the Department of Transportation (DOT) safety standards. When the adopted DOT rules do not apply, FLC applicants seeking authorization to transport any migrant/seasonal agricultural workers use form WH-514a to verify that the vehicles meet the DOL safety standards. The form is completed when the
