Notice of Withdrawal Extension Application and Opportunity for Public Meeting, Chief Joseph Dam Additional Units Project, Washington

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of withdrawal extension.

SUMMARY: The United States Department of the Army, Corps of Engineers (USACE), has filed an application with the Bureau of Land Management (BLM) requesting that the Secretary of the Interior extend Public Land Order (PLO) No. 7608 for an additional 20-year term. Subject to valid existing rights, PLO No. 7608 withdrew 400.27 acres of public lands from settlement, sale, location, or entry under the general land laws, including the United States mining laws, and transferred jurisdiction over those lands to the Department of the Army for the Chief Joseph Dam Additional Units Project for a period of 20 years. This notice advises the public of a 90-day opportunity to comment on the withdrawal extension application and to request a public meeting.

DATES: Comments and requests for a public meeting must be received by May 15, 2024.

ADDRESSES: All comments and meeting requests should be sent to the BLM Oregon/Washington State Office, P.O. Box 2965, Portland, Oregon 97208. The application and case file are available for public examination by interested persons by appointment at the BLM Public Room, 1220 SW 3rd Ave., 11th Floor, Portland, Oregon 97208 during regular business hours 8:00 a.m. to 4:30 p.m., Monday through Friday except holidays. Please call 503-808-6001 to make an appointment.

FOR FURTHER INFORMATION CONTACT:

Luke Poff, Realty Specialist, BLM Oregon/Washington State Office, (503) 808-6249, by email at lpoff@blm.gov, or at the address noted earlier, or Cindy Luciano, Civil Works Program Manager, USACE Seattle District, (206) 316-4376, or by email at Cindy.L.Luciano@usace.army.mil. Individuals in the United States who are deaf, blind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The USACE filed an application requesting extension of the withdrawal created by PLO No. 7608 (69 FR 48253), which will expire August 8, 2024, unless extended. The following lands are affected by this notice:

Willamette Meridian, Washington

T. 29 N., R. 26 E.,
Sec. 9, SW $\frac{1}{4}$ SW $\frac{1}{4}$;
Sec. 30, lot 2.

T. 30 N., R. 26 E.,
Sec. 25, NW $\frac{1}{4}$ NE $\frac{1}{4}$;
Sec. 35, SW $\frac{1}{4}$ SE $\frac{1}{4}$.

T. 30 N., R. 27 E.,
Sec. 28, SE $\frac{1}{4}$ SE $\frac{1}{4}$;
Sec. 29, NE $\frac{1}{4}$ NW $\frac{1}{4}$;
Sec. 34, SW $\frac{1}{4}$ NW $\frac{1}{4}$ and NE $\frac{1}{4}$ SW $\frac{1}{4}$.

T. 30 N., R. 28 E.,
Sec. 9, SE $\frac{1}{4}$ SE $\frac{1}{4}$;
Sec. 14, NE $\frac{1}{4}$ SW $\frac{1}{4}$.

The areas described aggregate 400.27 acres.

The use of a right-of-way, interagency agreement, or cooperative agreement would not adequately constrain non-discretionary uses, which could impede USACE's management of the Dam and reservoir. There are no suitable alternative sites since the requested withdrawal extension is associated with the Chief Joseph Dam Project.

Comments will be available for public review. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personally identifying information—may be made publicly available at any time. While you may ask the BLM in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

An opportunity for a public meeting may be afforded in connection with the application for withdrawal extension. All interested persons who desire a public meeting for the purpose of being heard on the application for this withdrawal extension must submit a

written request to the State Director, BLM Oregon/Washington State Office at the address in the **ADDRESSES** section, within 90 days from the date of publication of this notice. If the authorized officer determines that a public meeting will be held, a notice of the date, time, and place will be published in the **Federal Register** and local newspapers and posted on the BLM website at: www.blm.gov at least 30 days before the scheduled date of the meeting.

Description

Human remains representing, at minimum, one individual were removed from an unknown site, likely in northwestern Tennessee. Mollie Hall, a resident of Hopkinsville KY, transferred the human remains, representing one adult male, age 35 to 37, to the Robert S. Peabody Institute of Archaeology (then called the Department of Archaeology, Phillips Academy) in 1903. No associated funerary objects are present.

Human remains representing, at minimum, one individual were removed from historic Cherokee town sites in Monroe County, TN. In 1942, prior to inundation by the TVA, George Sherwood removed cultural items and Native American ancestral remains from several historic Cherokee town sites along the Little Tennessee River above Fort Loudoun. Sherwood transferred the human remains, representing one adult male, to the Robert S. Peabody Institute of Archaeology (then called the Department of Archaeology, Phillips Academy) in 1981. The eight associated funerary objects are three ceramic fragments, one lithic flake, two chipped bifaces, and two projectile points.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more

Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: archeological information, geographical information, historical information, oral tradition, and the expert opinion of Tribal representatives.

- The eight objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects described in this notice and the Cherokee Nation; Eastern Band of Cherokee Indians; and the United Keetoowah Band of Cherokee Indians in Oklahoma.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after March 18, 2024. If competing requests for repatriation are received, the Robert S. Peabody Institute of Archaeology must determine the most appropriate requestor prior to repatriation.
