

period differences, the agency must either take steps to improve the accuracy of preliminary estimates or delay the release of estimates until a reliable estimate can be made.

(d) If preliminary estimates show signs of a consistent bias (for example, if revisions are consistently in the same direction), the agency shall take steps to correct this bias.

(e) Revisions occurring for routine reasons, such as benchmarking and updating of seasonality factors, shall be consolidated and released simultaneously.

(f) Revisions occurring for other than routine reasons shall be fully explained and shall be released as soon as corrections can be completed.

7. *Granting of Exceptions.* Prior to taking any action that may violate the provisions of this directive, the head of a releasing agency shall consult with the Administrator for Information and Regulatory Affairs. If the Administrator determines that the action is in violation of the provisions of this directive, the head of the releasing agency may apply for an exception. The Administrator may authorize exceptions to the provisions in sections 2, 3, 4, 5, and 6 of this Directive. Any agency requesting an exception must demonstrate to the satisfaction of the Administrator that the proposed exception is necessary and is consistent with the purposes of the Directive.

8. *Performance Evaluation.* Each agency that issues a principal Federal economic indicator shall submit a performance evaluation of that indicator to the Statistical Policy Office, Office of Information and Regulatory Affairs, every three years. A schedule for the performance evaluation of data series or estimates designated as principal Federal economic indicators will be prepared by the Statistical Policy Office. The evaluation shall address the following issues:

(a) the accuracy and reliability of the series, *e.g.*, the magnitude and direction of all revisions, the performance of the series relative to established benchmarks, and the proportion and effect of nonresponses or responses received after the publication of preliminary estimates;

(b) the accuracy, completeness, and accessibility of documentation describing the methods used in compiling and revising the indicator;

(c) the agency's performance in meeting the designated release schedule and the prompt release objective of this directive;

(d) the agency's ability to avoid disclosure prior to the scheduled release time;

(e) any additional issues that the Administrator for Information and Regulatory Affairs specifies in writing to the agency at least 6 months in advance of the scheduled submission date.

The evaluation will be reviewed by the Administrator to determine whether the indicator is prepared and published in conformity with all OMB statistical policies, standards, and guidelines. A summary of the year's evaluations and their reviews will be included in the annual report to Congress required by section 3514 of the Paperwork Reduction Act of 1980 (Pub. L. 96–511).
