

Coast Guard, Office of Port and Facility Compliance; telephone 202-372-1107, email Brandon.M.Link@uscg.mil.

SUPPLEMENTARY INFORMATION:

Background and Purpose

MARSEC Directive 105-4 provides cyber risk management actions for owners or operators of PRC-manufactured STS cranes. Owners or operators of PRC-manufactured STS cranes should immediately contact their local COTP or cognizant District Commander for a copy of MARSEC Directive 105-4.

The Maritime Transportation Security Act's implementing regulations in 33 CFR parts 101-105 are designed to protect the maritime elements of the national transportation system. Under 33 CFR 101.405, the Coast Guard may set forth additional security measures to respond to a threat assessment or to a specific threat against those maritime elements. In addition, per 33 CFR 6.14-1, the Commandant "may prescribe such conditions and restrictions relating to the safety of waterfront facilities and vessels in port as the Commandant finds to be necessary under existing circumstances."

PRC-manufactured STS cranes make up the largest share of the global ship-to-shore crane market and account for nearly 80% of the STS cranes at U.S. ports. By design, these cranes may be controlled, serviced, and programmed from remote locations, and those features potentially leave PRC-manufactured STS cranes vulnerable to exploitation, threatening the maritime elements of the national transportation system.

As such, additional measures are necessary to prevent a Transportation Security Incident in the national transportation system due to the prevalence of PRC-manufactured STS cranes in the U.S., threat intelligence related to the PRC's interest in disrupting U.S. critical infrastructure, and the built-in vulnerabilities for remote access and control of these STS cranes.

Procedural

COTPs and District Commanders can access all MARSEC directives on Homeport by logging in and going to Missions > Maritime Security > Domestic Ports and Waterway Security > Policy. Owners and operators of PRC-manufactured cranes must contact their local COTP or cognizant District Commander to acquire a copy of MARSEC Directive 105-4. COTPs or cognizant District Commanders may provide this MARSEC Directive to appropriate owners and operators in

accordance with SSI handling procedures.

Pursuant to 33 CFR 101.405, we consulted with the Department of State, Department of Defense, Department of Transportation/Maritime Administration, Department of Homeland Security, Transportation Security Administration, Cybersecurity and Infrastructure Security Agency, and National Maritime Intelligence-Integration Office.

All MARSEC Directives issued pursuant to 33 CFR 101.405 are marked as SSI in accordance with 49 CFR part 1520. COTPs and District Commanders will require individuals requesting a MARSEC Directive to prove that they meet the standards for a "covered person" under 49 CFR 1520.7, have a "need to know" the information, as defined in 49 CFR 1520.11, and that they will safeguard the SSI in MARSEC Directive 105-4 as required in 49 CFR 1520.9.

This notice is issued under authority of 33 CFR 6.14-1 and 101.405(a)(2) and 5 U.S.C. 552(a).

Dated: February 21, 2024.

Amy M. Beach,

Captain, U.S. Coast Guard, Director of Inspections and Compliance.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2024-0002; Internal Agency Docket No. FEMA-B-2412]

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency

(FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before May 23, 2024.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

You may submit comments, identified by Docket No. FEMA-B-2412, to Rick Sacbabit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbabit@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Rick Sacbabit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbabit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are

provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide

recommendations for resolution. Use of the SRP only may be exercised after FEMA and local communities have been engaged in a collaborative consultation process for at least 60 days without a mutually acceptable resolution of an appeal. Additional information regarding the SRP process can be found online at https://www.floodsrp.org/pdfs/srp_overview.pdf.

The watersheds and/or communities affected are listed in the tables below. The Preliminary FIRM, and where applicable, FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective

Community Map Repository address listed in the tables. For communities with multiple ongoing Preliminary studies, the studies can be identified by the unique project number and Preliminary FIRM date listed in the tables. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.
