SUPPLEMENTARY INFORMATION:

I. Abstract

The Economic Development Administration (EDA) leads the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. Guided by the basic principle that sustainable economic development should be driven locally, EDA works directly with communities and regions to help them build the capacity for economic development based on local business conditions and needs. The Public Works and Economic Development Act of 1965 (PWEDA) (42 U.S.C. 3121 *et seq.*) is EDA's organic authority and is the primary legal authority under which EDA awards financial assistance. Under PWEDA, EDA provides financial assistance to both rural and urban distressed communities by fostering entrepreneurship, innovation, and productivity through investments in infrastructure development, capacity building, and business development to attract private capital investments and

new and better jobs to regions experiencing economic distress. Further information on EDA programs and financial assistance opportunities can be found at www.eda.gov.

To effectively administer and monitor its economic development assistance programs, EDA collects certain information from applications for, and recipients of, EDA investment assistance. The purpose of this notice is to seek comments from the public and other Federal agencies on a request for a revision to the information collected from recipients of awards under the EDA American Rescue Plan Act (ARPA) Good Jobs Challenge. This is aligned with ensuring that Federal workforce investments are evidence-based and data-driven, and accountable to participants and the public. The original data collection instrument was filed under OMB 0610-0109. This request is to revise an existing question and add a new question to the current data collection instrument. The revised question will ask grantees to report participants' training status instead of asking if they have completed training, this will provide further disaggregated data. The new question will be asked of training providers to provide the total number of participants that completed the training program and have no plans to re-enroll in further training.
