

preemption pertaining to locomotives within section 209(e)(1)(B).¹⁵ The action taken in the rulemaking was to align the scope of preemption applicable to new locomotives and new engines used in locomotives to be the same as the scope of preemption for other new nonroad engines and vehicles preempted within section 209(e)(1)(A). The scope of preemption applicable to new locomotives can be found at 40 CFR 1074.10, and the criteria for granting California authorization requests can be found at 40 CFR 1074.105. Provisions pertaining to the adoption of California nonroad standards by other states can be found at 40 CFR 1074.110.

In order to be consistent with section 209(a), California's nonroad standards and enforcement procedures must not apply to new motor vehicles or new motor vehicle engines. To be consistent with section 209(e)(1), California's nonroad standards and enforcement procedures must not attempt to regulate engine categories that are permanently preempted from state regulation (such as ". . . any standard or other requirement relation to the control of emissions from . . . (B) New locomotives or new engines used in locomotives."). To determine consistency with section 209(b)(1)(C), EPA typically reviews nonroad authorization requests under the same "consistency" criteria that are applied to motor vehicle waiver requests. Pursuant to section 209(b)(1)(C), the Administrator shall not grant California a motor vehicle waiver if she finds that California "standards and accompanying enforcement procedures are not consistent with section 202(a)" of the Act. Previous decisions granting waivers and authorizations have noted that state standards and enforcement procedures are inconsistent with section 202(a) if: (1) there is inadequate lead time to permit the development of the necessary technology giving appropriate consideration to the cost of compliance within that time, or (2) the federal and state testing procedures impose inconsistent certification requirements.¹⁶

III. EPA's Request for Comments

We request comment on whether California's In-Use Locomotive Regulation meets the criteria for an EPA authorization. Specifically, we request

¹⁵ 88 FR 77004 (November 8, 2023). In this authorization action, the EPA is not reopening the locomotive preemption rulemaking from November 8, 2023. Any public comments on the rulemaking that are not germane to this authorization action may not be addressed in the EPA's final decision regarding CARB's authorization request.

¹⁶ 78 FR 58090, 58092 (September 20, 2013).

comment on: (a) whether CARB's determination that its standards, in the aggregate, are at least as protective of public health and welfare as applicable federal standards is arbitrary and capricious, (b) whether California needs such standards to meet compelling and extraordinary conditions, and (c) whether California's standards and accompanying enforcement procedures are consistent with section 209 of the Act. As explained above, the EPA considers several provisions with regard to the consistency with section 209 of the Act criterion.

IV. Procedures for Public Participation

The virtual public hearing will be held on March 20, 2024. The hearing will begin at 10 a.m. eastern daylight time. All hearing attendees (including those who do not intend to provide testimony and merely listen) should register for the public hearing at: <https://www.epa.gov/regulations-emissions-vehicles-and-engines/virtual-public-hearing-californias-use-locomotive>.

Those seeking to register should do so by March 13, 2024. If you require the services of a translator or special accommodations such as American Sign Language, please pre-register for the hearing and describe your needs by March 13, 2024. The EPA may not be able to arrange accommodations without advance notice. Please note that any updates made to any aspect of the hearing will be posted online at: <https://www.epa.gov/regulations-emissions-vehicles-and-engines/virtual-public-hearing-californias-use-locomotive>. While the EPA expects the hearing to go forward as set forth above, please monitor the website or contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to determine if there are any updates. The EPA does not intend to publish a document in the **Federal Register** announcing updates.

Each commenter will have 3 minutes to provide oral testimony. The EPA may ask clarifying questions during the oral presentations but will not respond to the presentations at that time. The EPA recommends submitting the text of your oral comments as written comments to the docket for this action. Written statements and supporting information submitted during the comment period will be considered with the same weight as oral comments and supporting information presented at the public hearing. The Agency will make a verbatim record of the proceedings at the hearing that will be placed in the docket. The EPA will keep the record open until April 22, 2024. After expiration of the comment period, the

Administrator will render a decision on CARB's request based on the record of the public hearing, relevant written submissions, and other information that he deems pertinent.

Clean Air Act Operating Permit Program; Order on Petition for Objection to State Operating Permit for Covanta Delaware Valley LP, Delaware Valley Resource Recovery

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of final order on petition.

SUMMARY: The Environmental Protection Agency (EPA) Administrator signed an order dated November 2, 2023 granting in part and denying in part a petition dated June 23, 2023 from the Environmental Integrity Project, Clean Air Council, and Sierra Club. The petition requested that the EPA object to a Clean Air Act (CAA) title V operating permit issued by the Pennsylvania Department of Environmental Protection (PADEP) to Covanta Delaware Valley LP, Delaware Valley Resource Recovery for its waste-to-energy plant located in the City of Chester, Delaware County, Pennsylvania.

FOR FURTHER INFORMATION CONTACT: Paul Entwistle, Permits Branch, Air & Radiation Division, U.S. Environmental Protection Agency, Region III, 1600 John F. Kennedy Boulevard, Philadelphia, Pennsylvania 19103. The telephone number is (215) 814-2343. Mr. Entwistle can also be reached via electronic mail at entwistle.paul@epa.gov. The final order and petition are available electronically at: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

SUPPLEMENTARY INFORMATION: The EPA received a petition from the Environmental Integrity Project, Clean Air Council, and Sierra Club dated June 23, 2023, requesting that the EPA object to the issuance of operating permit no. 23-00004, issued by PADEP to Covanta Delaware Valley LP, Delaware Valley Resource Recovery in the City of Chester, Delaware County, Pennsylvania. On November 2, 2023, the EPA Administrator issued an order granting in part and denying in part the

petition. The order itself explains the bases for the EPA's decision.

Sections 307(b) and 505(b)(2) of the CAA provide that a petitioner may request judicial review of those portions of an order that deny issues in a petition. Any petition for review shall be filed in the United States Court of Appeals for the appropriate circuit no later than April 29, 2024.

Cristina Fernández,

Air & Radiation Division Director, Region III.
