**IV. Request for Comments**

The USPTO is soliciting public comments to:

(a) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the Agency’s estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected; and

(d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

All comments submitted in response to this notice are a matter of public record. USPTO will include or summarize each comment in the request to OMB to approve this information collection. Before including an address, phone number, email address, or other personally identifiable information (PII) in a comment, be aware that the entire comment—including PII—may be made publicly available at any time. While you may ask in your comment to withhold PII from public view, USPTO cannot guarantee that it will be able to do so.

## CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

### Agency Information Collection Activities; Comment Request; Application Package for Renewal of Generic Information Collection for Pilot and Test Data

**AGENCY:** Corporation for National and Community Service.

**ACTION:** Notice of information collection; request for comment.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, the Corporation for National and Community Service (operating as AmeriCorps) is proposing to revise an information collection.

**DATES:** Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by April 29, 2024.

**ADDRESSES:** You may submit comments, identified by the title of the information collection activity, by any of the following methods:

(1) Electronically through [www.regulations.gov](http://www.regulations.gov) (preferred method).

(2) By mail sent to: AmeriCorps, Attention Amy Borgstrom, 250 E Street SW, Washington, DC 20525.

(3) By hand delivery or by courier to the AmeriCorps mailroom at the mail address given in paragraph (2) above, between 9 a.m. and 4 p.m. eastern time, Monday through Friday, except Federal holidays.

Comments submitted in response to this notice may be made available to the public through [regulations.gov](http://regulations.gov). For this reason, please do not include in your comments information of a confidential nature, such as sensitive personal information or proprietary information. If you send an email comment, your email address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the internet. Please note that responses to this public comment request containing any routine notice about the confidentiality of the communication will be treated as public comment that may be made available to the public, notwithstanding the inclusion of the routine notice.

**FOR FURTHER INFORMATION CONTACT:** Andrea Robles, Office of Research and

Evaluation, AmeriCorps, (202) 606-6687, [arobles@americorps.gov](mailto:arobles@americorps.gov).

#### SUPPLEMENTARY INFORMATION:

*Title of Collection:* Generic Clearance for the Collection of Pilot and Test Data.

*OMB Control Number:* 3045-0163.

Type of Review: Revision.

*Respondents/Affected Public:*

Individuals and Households.

*Total Estimated Number of Annual*

*Responses:* 21,910.

*Total Estimated Number of Annual*

*Burden Hours:* 2,064.

*Abstract:* This information collection will enable pilot testing of survey instruments in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By pilot testing we mean information that provides useful insights on how respondents interact with the instrument, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations regarding prospective studies. It will also allow feedback to contribute directly to the improvement of research program management.

The Agency will only submit a collection for approval under this generic clearance if it meets the following conditions:

- The collections are voluntary;
- The collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government;
- The collections are non-controversial and do not raise issues of concern to other Federal agencies;
- Any collection is targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future;
- Personally identifiable information (PII) is collected only to the extent necessary and is not retained;
- Information gathered will be used only internally for general service improvement and program management purposes and is not intended for release outside of the agency;
- Information gathered will not be used for the purpose of substantially informing influential policy decisions; and
- Information gathered will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used

as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private. The information collection will be used in the same manner as the existing application; however, a revision is being sought to accommodate increased pilot testing. AmeriCorps also seeks to continue using the current generic clearance until the revised collection is approved by OMB. The current expiration of the OMB Control Number is April 30, 2024.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. Comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services
