

importer-specific assessment rate calculated is above *de minimis* (i.e., 0.50 percent). To determine whether the duty assessment rates are *de minimis*, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), we calculate importer- (or customer-) specific *ad valorem* ratios based on the estimated entered value. Where an importer-specific per-unit assessment rate is zero or *de minimis*, Commerce will instruct CBP to liquidate appropriate entries without regard to antidumping duties.⁹ For U.S. entries that were not reported in the U.S. sales data submitted by Shanghai Yueda, but that entered under Shanghai Yueda's case number (i.e., at its cash deposit rate), Commerce will instruct CBP to liquidate such entries at the cash deposit rate for the China-wide entity (i.e., 118.04 percent).

We will instruct CBP to apply an *ad valorem* assessment rate of 118.04 percent to all POR entries of subject merchandise which were exported by the companies in the China-wide entity, including Dezhou Hualude Hardware Products Co., Ltd. and S-Mart (Tianjin) Technology Development Co., Ltd. In addition, we will instruct CBP to assess any suspended entries of subject merchandise associated with the companies listed in the "Final Determination of No Shipments" section above at the China-wide rate.¹⁰

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (i.e., within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of these final results for all shipments of the subject merchandise from China entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) for Shanghai Yueda, the cash deposit rate will be equal to the weighted-average dumping margin listed in the table above; (2) for previously examined Chinese and non-Chinese exporters not listed above that received a separate rate in a prior completed segment of this

proceeding, the cash deposit rate will continue to be the existing exporter-specific cash deposit rate; (3) for all Chinese exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be the rate for the China-wide entity (i.e., 118.04 percent); and (4) for all non-Chinese exporters of subject merchandise which have not received their own separate rate, the cash deposit rate will be the rate applicable to the Chinese exporter that supplied that non-Chinese exporter. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers Regarding the Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order (APO)

This notice also serves as a reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

We are issuing and publishing these final results of administrative review and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: February 21, 2024.

Ryan Majerus,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

Appendix

List of Topics Discussed in the Issues and Decision Memorandum

- I. Summary
- II. Background
- III. Scope of the Order

IV. Changes Since the *Preliminary Results*

V. Discussion of the Issues

Comment 1: Surrogate Financial Statements

Comment 2: Calculation of Financial Ratios

Comment 3: Inclusion of Non-Participating Companies in Customs Instructions

Comment 4: Surrogate Value for Steel Scrap

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Science Advisory Board

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

ACTION: Notice of public meetings.

SUMMARY: This notice sets forth the schedule and proposed agenda for a meeting of the Science Advisory Board (SAB). The members will discuss issues outlined in the section on Matters to be considered.

DATES: The meeting is scheduled for March 19, 2024 from 8:30 a.m. to 5 p.m. Eastern Standard Time (EST) and March 20, 2023 from 8:30 a.m. to 5 p.m. EST. These times and the agenda topics described below are subject to change. For the latest agenda please refer to the SAB website: <https://sab.noaa.gov/SABMeetings/>.

ADDRESSES: The meeting location is at the Westin Center City, Washington, DC, 1400 M Street NW, Washington, DC 20005. The exact meeting location and a link for the webinar registration will be posted, when available, on the SAB website: <https://sab.noaa.gov/current-meetings/>.

FOR FURTHER INFORMATION CONTACT:

Casey Stewart, Executive Director, SSMC3, Room 11360, 1315 East-West Hwy., Silver Spring, MD 20910; Phone Number: 240-381-0833; Email: noaa.scienceadvisoryboard@noaa.gov; or visit the SAB website at <https://sab.noaa.gov/current-meetings/>.

SUPPLEMENTARY INFORMATION: The NOAA Science Advisory Board (SAB) was established by a Decision Memorandum dated September 25, 1997, and is the only Federal Advisory Committee with responsibility to advise the Under Secretary of Commerce for Oceans and Atmosphere on strategies for research, education, and application of science to operations and information services. SAB activities and advice provide necessary input to ensure that National Oceanic and Atmospheric

⁹ See 19 CFR 351.106(c)(2).

¹⁰ For a full discussion of this practice, see *Assessment Practice Refinement*, 76 FR at 65694.

Administration (NOAA) science programs are of the highest quality and provide optimal support to resource management.

Status: The March 19–20, 2024 meeting will be open to public participation with a 15-minute public comment period at 4:45 p.m. EST on March 20, 2024. The SAB expects that public statements presented at its meetings will not be repetitive of previously submitted verbal or written statements. In general, each individual or group making a verbal presentation will be limited to a total time of three minutes. Written comments for the March 19 and 20, 2024 meeting should be received by the SAB Executive Director's Office (noaa.scienceadvisoryboard@noaa.gov) by March 12, 2024 to provide sufficient time for SAB review. Written comments received by the SAB Executive Director after these dates will be distributed to the SAB, but may not be reviewed prior to the meeting date.

Special Accommodations: These meetings are physically accessible to people with disabilities. Requests for special accommodations may be directed to the Executive Director no later than 12 p.m. on March 12, 2024.

Matters to be Considered: The meeting on March 19–20, 2024 will include the following topics: (1) the NOAA Update, (2) NOAA Science Update, (3) Presentation on the EISWG Annual Report to Congress, (6) TSTAP Annual Report and white paper on complicated water ways, (7) NOAA DEIA Report Response, (8) Presentation on NOAA Report Response for Rapidly Changing Marine Environment Report, (9) Presentation on NOAA Response to White Paper on Air Quality in a Changing Climate, and (10) NOAA Response to DAARWG Report on the NESDIS Common Cloud Framework. Meeting materials, including work products, will also be available on the SAB website: <https://sab.noaa.gov/current-meetings/current-meeting-documents/>.

David Holst,

Chief Financial Officer/Administrative Officer, Office of Oceanic and Atmospheric Research, National Oceanic and Atmospheric Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648–XD747]

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of an enhancement of survival permit, including an associated hatchery and genetic management plan.

SUMMARY: This notice announces the availability of the Final Environmental Assessment (EA) on the issuance of an Endangered Species Act (ESA) Enhancement of Survival Permit to the California Department of Fish and Wildlife (CDFW) for the operation of the Fall Creek Hatchery coho salmon program. The Fall Creek Hatchery coho salmon program is operated under an associated Hatchery Genetic Management Plan (HGMP). This notice also announces that NMFS has decided to issue a permit (15755–2M) to CDFW for activities described in their HGMP, and has authorized the HGMP for the Fall Creek Hatchery coho salmon program in the Klamath River watershed in California.

ADDRESSES: The application, permit, final HGMP, Final EA, and related documents are available for review by appointment at: California Coastal Area Office, 1655 Heindon Rd, Arcata, California 95521.

FOR FURTHER INFORMATION CONTACT: Jeff Abrams; phone: (707) 825–5186; fax: (707) 825–4840; email: Jeff.Abrams@noaa.gov (include the permit number in the subject line of the fax or email).

SUPPLEMENTARY INFORMATION:

Species Covered in This Notice

The following ESA-listed species are covered in this notice:

Coho salmon (*Oncorhynchus kisutch*): threatened Southern Oregon/Northern California Coast (SONCC) Evolutionarily Significant Unit.

Background

On March 27, 2023, NMFS announced in the **Federal Register** a notice of receipt of a permit application (15755–2M) to enhance the propagation and survival of species listed under the ESA of 1973, as amended, from CDFW (88 FR 18123). Under permit application 15755–2M, CDFW requested to implement, for the next 8 years,

hatchery and monitoring activities associated with the Fall Creek Hatchery coho salmon program, under an associated HGMP. The HGMP is an update to the 2014 HGMP developed for the coho salmon hatchery program at Iron Gate Hatchery that was submitted by CDFW and PacifiCorp (permit 15755). Under permit application 15755–2M, CDFW proposed to continue to collect SONCC coho salmon for hatchery purposes. The draft HGMP specified methods of operation for the Fall Creek hatchery coho salmon program located along the Fall Creek, a tributary to the Klamath River, within the State of California. NMFS also announced the availability of the permit application and associated HGMP for public review and comment. The public review and comment period ended on April 26, 2023. NMFS did not receive any public comments on the permit application or draft HGMP during the public review period. Permit 15755–2M received final signature on August 22, 2023.

The HGMP covers activities related to the artificial production of coho salmon at Fall Creek Hatchery during the transition of the hatchery coho salmon program from Iron Gate Hatchery, and for 8 years after dam removal. NMFS will use the information in this HGMP to evaluate hatchery impacts on salmon listed under the ESA. Monitoring and in-river research activities, also included in the application, could result in take of SONCC coho salmon. The primary goal of an HGMP is to devise biologically based hatchery management strategies that ensure the conservation and recovery of salmon and steelhead species. Through implementation of this HGMP, and compliance with the ESA section 10(a)(1)(A) permit, the Fall Creek Hatchery coho salmon program will operate to conserve ESA-listed SONCC coho salmon.

The Fall Creek Hatchery coho salmon program will culture coho salmon of the Upper Klamath Population Unit. This unit is part of the SONCC Evolutionarily Significant Unit that is listed as threatened under ESA. The HGMP incorporates principles of hatchery operations developed by the Hatchery Scientific Review Groups of the Columbia River and California. The primary purpose of the Fall Creek Hatchery coho salmon program is to protect the genetic resources of the Upper Klamath Population Unit and reduce extinction risks prior to and 8 years after the removal of the four Klamath River dams. The purpose would be achieved by integrating natural origin adults into broodstock and using a genetically based spawning
