#### SUPPLEMENTARY INFORMATION:

#### I. General Information

##### A. What action is the Agency taking?

The Agency is seeking public comments on scientific and technical experts that EPA is considering for service as *ad hoc* peer reviewers assisting the SACC with the peer review of the Agency's evaluation of the risks from formaldehyde being conducted to inform risk management decisions under TSCA. The Office of Pollution Prevention and Toxics (OPPT) collaborated with the Office of Pesticide Programs (OPP) to develop hazard assessments for human and ecological health. EPA expects to ask the SACC to consider and review these joint hazard assessments in addition to the OPPT exposure and risk characterizations. This SACC peer review is in addition to prior external peer reviews by the National Academies of Science, Engineering, and Medicine (NASEM), the EPA's Human Studies Review Board (HSRB) and SACC peer reviews of related scientific issues. The Agency is leveraging these peer reviews to support further development of the risk evaluation of formaldehyde. For additional information, please see the Agency's request for nominations of *ad hoc* expert reviewers that appeared in the **Federal Register** of December 26, 2023 (88 FR 88910 (FRL-11608-01-OCSPF)).

##### B. What is the Agency's authority for taking this action?

EPA established the SACC in 2016 in accordance with TSCA, 15 U.S.C. 2625(o), to provide independent advice and expert consultation with respect to the scientific and technical aspects of issues relating to the implementation of TSCA. The SACC operates in accordance with the Federal Advisory Committee Act (FACA), 5 U.S.C. 10, and supports activities under TSCA, 15 U.S.C. 2601 *et seq.*, the Pollution Prevention Act (PPA), 42 U.S.C. 13101 *et seq.*, and other applicable statutes.

##### C. Does this action apply to me?

This action is directed to the public in general and may be of particular interest to those involved in the manufacture, processing, distribution, and disposal of the subject chemical substance, and/or those interested in the assessment of risks involving chemical substances and mixtures regulated under TSCA.
