

matrix to reduce inbreeding. The natural origin fish required to integrate the Fall Creek Hatchery coho salmon program will be obtained from Bogus Creek, the Iron Gate Hatchery auxiliary fish ladder, Fall Creek (e.g., via seine or dip net), and fish voluntarily entering the Fall Creek Hatchery as described in the broodstock collection document and the terms and conditions of NMFS' 2021 Biological Opinion for the "Surrender and Decommissioning of the Lower Klamath Hydroelectric Project No. 14803."

The secondary purpose of the Fall Creek Hatchery coho salmon program is to provide adult coho salmon that could disperse to newly accessible habitat (76 miles or 122 kilometers) made available following dam removal. The potential dispersal of adult coho salmon results from Fall Creek Hatchery origin coho salmon straying to other tributaries and by releasing surplus adult coho salmon back to the mainstem Klamath River near Fall Creek.

Take of adult and juvenile coho salmon associated with permit 15755–2M is described in the NMFS permit and particularly detailed in table 1 of the permit. Permit 15755–2M expires on December 31, 2031.

This notice is provided under National Environmental Policy Act regulations and NMFS ESA permit regulations to inform the public that the Final EA, HGMP, and associated documents are available for review.

Authority

Enhancement permits are issued in accordance with section 10(a)(1)(A) of the ESA (16 U.S.C. 1531 *et seq.*) and regulations governing listed fish and wildlife permits (50 CFR part 222). NMFS issues permits based on findings that such permits: (1) are applied for in good faith; (2) if granted and exercised, would not operate to the disadvantage of the listed species that are the subject of the permit; (3) are consistent with the purposes and policies of section 2 of the ESA; (4) whether the permit would further a bona fide and necessary or desirable scientific purpose or enhance the propagation or survival of the endangered species, taking into account the benefits anticipated to be derived on behalf of the endangered species; and additional issuance criteria (as listed at 50 CFR 222.308(c)(5)–(12)). The authority to take listed species is subject to conditions set forth in the permit.

Dated: February 23, 2024.

Angela Somma,

Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

Patent and Trademark Office

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Substantive Submissions Made During the Prosecution of the Trademark Application

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comments on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 4, 2023 during a 60-day comment period (88 FR 84132). This notice allows for an additional 30 days for public comment.

Agency: United States Patent and Trademark Office, Department of Commerce.

Title: Substantive Submissions Made During the Prosecution of the Trademark Application.

OMB Control Number: 0651–0054.

Needs and Uses: This collection of information is required by the Trademark Act, 15 U.S.C. 1051 *et seq.*, which provides for the registration of trademarks, service marks, collective trademarks and collective service marks, collective membership marks, and certification marks. Individuals and businesses that use or intend to use such marks in commerce may file an application to register their marks with the United States Patent and Trademark Office (USPTO).

Such individuals and businesses may also submit various communications to the USPTO, including providing additional information needed to process a request to delete a particular filing basis from an application or to divide an application identifying multiple goods and/or services into two or more separate applications. Applicants may seek a six-month

extension of time to file a statement that the mark is in use in commerce or submit a petition to revive an application that was abandoned for failure to submit a timely response to an office action or a timely statement of use or extension request. In some circumstances, an applicant may expressly abandon an application by filing a request for withdrawal of the application.

The rules implementing the Trademark Act are set forth in 37 CFR part 2. These rules mandate that each register entry include the mark, the goods and/or services in connection with which the mark is used, ownership information, dates of use, and certain other information. The USPTO also provides similar information concerning pending applications. The register and pending application information may be accessed by an individual or by businesses to determine the availability of a mark. By accessing the USPTO's information, parties may reduce the possibility of initiating use of a mark previously adopted by another. As a result, the Federal trademark registration process is intended to reduce unnecessary litigation, and its accompanying costs and burdens.

The information in this collection is used to process the substantive submissions made during prosecution of the trademark application. The submissions in this information collection are a matter of public record and are used by the public for a variety of private business purposes related to establishing and enforcing trademark rights. The information is accessible online, through the USPTO website, as well as through various USPTO facilities.

Form Numbers:

- PTO 1553 (Allegation of Use (Statement of Use/Amendment to Allege Use))
- PTO 1554 (Request to Divide Application)
- PTO 1555 (Response to Intent-to-Use/ Divisional (ITU/Divisional) Unit Office Action)
- PTO 1556 (Response to Petition to Revive Deficiency Letter)
- PTO 1557 (Petition to Revive with Request to Delete Section 1(b) Basis or to Delete ITU Goods/Services/ Collective Membership Organization After NOA)

BILLING CODE 3510-16-P

DEPARTMENT OF COMMERCE

Patent and Trademark Office

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Patent and Trademark Resource Center Metrics

The United States Patent and Trademark Office (USPTO) will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. The USPTO invites comments on this information collection renewal, which helps the USPTO assess the impact of its information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on November 20, 2023 during a 60-day comment period (88 FR 80695). This notice allows for an additional 30 days for public comment.

Agency: United States Patent and Trademark Office, Department of Commerce.

Title: Patent and Trademark Resource Center Metrics.

OMB Control Number: 0651-0068.

Needs and Uses: The Patent and Trademark Resource Center (PTRC) is authorized under the provision of 35 U.S.C. 2(a)(2), which provides that the United States Patent and Trademark Office (USPTO) shall be responsible for disseminating information with respect to patents and trademarks to the public. The PTRC Program is made up of public, state, and academic libraries. Each participating library designated as a PTRC must fulfill the following requirements: Assist the public in the efficient use of patent and trademark resources; provide free access to patent and trademark resources provided by the USPTO; and send representatives to attend USPTO-hosted PTRC training seminars.

The USPTO seeks to collect information about the public's use of the PTRCs and training provided through the PTRC program. The PTRC Program requirements stipulate that all participating libraries must submit quarterly metrics on the public's use of PTRC services and public outreach efforts provided by the PTRCs. To facilitate that requirement, the USPTO electronically collects these metrics on a quarterly basis. This information collection enables the USPTO to see how customers are being served by the

PTRCs. It also allows USPTO to determine what changes may be needed in the types of services provided and what trainings the PTRC Program Office should offer to PTRC librarians.

Forms: None.

Type of Review: Extension and revision of a currently approved information collection.

Affected Public: State, local, and Tribal governments.

Respondent's Obligation: Required to obtain or retain benefits.

Frequency: Quarterly.

Estimated Number of Annual Respondents: 100 respondents.

Estimated Number of Annual Responses: 400 responses.

Estimated Time per Response: The USPTO estimates that the responses in this information collection will take the respondents approximately 30 minutes (0.50 hours) to complete. This includes the time to gather the necessary information, prepare the worksheet, and submit it to the USPTO.

Estimated Total Annual Respondent Burden Hours: 200 hours.

Estimated Total Annual Respondent Non-Hourly Cost Burden: \$0.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view Department of Commerce, USPTO information collections currently under review by OMB.

Written comments and recommendations for this information collection should be submitted within 30 days of the publication of this notice on the following website, www.reginfo.gov/public/do/PRAMain.
