Animal and Plant Health Inspection Service

Title: U.S. Origin Health Certificate.

OMB Control Number: 0579–0020.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The AHPA is contained in title X, subtitle E, sections 10401–18 of Public Law 107–171, May 13, 2002, the Farm Security and Rural Investment Act of 2002. As part of its mission to facilitate the export of U.S. animals and products, the U.S. Department of Agriculture, Animal and Plant Health Inspection Service (APHIS), Veterinary Services (VS), maintains information regarding the import health requirements of other countries for animals and animal products exported from the United States. Most countries require a certification that the animals are disease free.

To ensure a favorable balance of trade and compliance with export health requirements, APHIS uses information collection activities such as U.S. Origin Health Certificates and Export Health Certificates for Poultry or Hatching Eggs for Export; U.S. Interstate and International Certificates of Health Examinations for Small Animals; U.S. Origin Health Certificates for the Export of Horses from the United States to Canada; Health Certificates for the Export of Live Finfish, Mollusks, and Crustaceans (and their Gametes); Inspection and Certification of Animal Products; Undue Hardship Explanations—Animals; Applications for Approval of Inspection Facility—Environmental Certification; Annual Inspections of Inspection Facilities; Opportunities to Present Views Concerning Withdrawal of Facility Approval; Certifications to Carry Livestock; Inspections of Vessel Prior to Voyage; Operator Reports; Aircraft Cleaning and Disinfection; Country-Specific Health Certificates; and Travel Time.

Need and Use of the Information: The collection of this information prevents unhealthy animals from being exported from the United States. The information collected is used to: (1) establish that the animals are moved in compliance with USDA regulations, (2) verify that the animals destined for export are

listed on the health certificate by means of an official identification, (3) verify to the consignor and consignee that the animals are healthy, (4) prevent unhealthy animals from being exported and (5) satisfy the import requirements of receiving countries. If these certifications were not provided, other countries would not accept animals from the United States.

Description of Respondents: Farms; Business or other for profit.

Number of Respondents: 1,320.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 516,556.

Rachelle Ragland-Greene,
