

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701–TA–685 and 731–TA–1599–1601 and 1603 (Final)]

Tin Mill Products From Canada, China, Germany, and South Korea; Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that an industry in the United States is not materially injured or threatened with material injury, and the establishment of an industry in the United States is not materially retarded by reason of imports of tin mill products from Canada, China, and Germany, provided for in subheadings 7210.11.00, 7210.12.00, 7210.50.00, 7212.10.00, 7212.50.00, 7225.99.00, and 7226.99.01 of the Harmonized Tariff Schedule of the United States, that have been found by the U.S. Department of Commerce (“Commerce”) to be sold in the United States at less than fair value (“LTFV”), and imports of the subject merchandise from China that have been found to be subsidized by the government of China.² The Commission further finds that imports of these products from South Korea that Commerce has determined are sold in the United States at LTFV are negligible and terminates the antidumping duty investigation concerning South Korea.

Background

The Commission instituted these investigations effective January 18, 2023, following receipt of petitions filed with the Commission and Commerce by Cleveland-Cliffs Inc. (“Cleveland-Cliffs”), Cleveland, Ohio, and the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union (“USW”), Pittsburgh, Pennsylvania. The final phase of the investigations was scheduled by the Commission following notification of preliminary determinations by Commerce that imports of tin mill products from China were subsidized within the meaning of section 703(b) of the Act (19 U.S.C. 1671b(b)) and imports from Canada, China, and Germany, were sold at LTFV within the meaning of 733(b) of the Act
