Revisions to ATF F 8620.56 include removing the declination statement and signature/date fields and inserting a field for the candidate’s personal email addresses, which will allow ATF to conduct searches of social media websites. field for the respondent’s personal email addresses, which will allow ATF to conduct searches of social media websites.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA-2024-018]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of a request for comments regarding an information collection.

SUMMARY: We are renewing a generic information collection request (generic ICR) entitled Generic Clearance for NARA Public and Education Program Registration. This notice announces that we plan to submit this generic ICR plan to OMB for approval under the Paperwork Reduction Act and solicits comments on specific aspects of the collection plan. We will use this to collect information from individuals registering for an education or other program at NARA.

DATES: We must receive written comments on or before April 29, 2024.

ADDRESSES: Send comments to Paperwork Reduction Act Comments (MP), Room 4100; National Archives and Records Administration; 8601

Adelphi Road; College Park, MD 20740-6001, or by email to tamee.fechhelm@nara.gov.

FOR FURTHER INFORMATION CONTACT:

Contact Tamee Fechhelm by telephone at 301-837-1694 with requests for additional information or copies of the proposed information collection and supporting statement.

SUPPLEMENTARY INFORMATION: Pursuant to the Paperwork Reduction Act of 1995 (Pub. L. 104-13), we invite comments on: (a) whether collecting this information is necessary for proper performance of the agency's functions, including whether the information will have practical utility; (b) the accuracy of our estimate of the information collection's burden on respondents; (c) ways to enhance the quality, utility, and clarity of the information we propose to collect; (d) ways to minimize the burden on respondents of collecting the information, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information. Burden means the total time, effort, or financial resources people need to provide the information, including time to review instructions, process and maintain the information, search data sources, and respond.

Explanation of Generic ICRs

A generic ICR is a request for OMB to approve a plan for conducting more than one information collection using very similar methods when (1) we can evaluate the need for and the overall practical utility of the data in advance, as part of the review of the proposed plan, but (2) we cannot determine the details of the specific individual collections until a later time. Most generic clearances cover collections that are voluntary, low burden (based on a consideration of total burden, total respondents, or burden per respondent), and uncontroversial. This notice, for example, describes a general plan to gather registration information from members of the public who wish to participate in programs at NARA, through a series of registration forms used for a variety of current and future education programs at different facilities. As part of this plan, we construct, distribute, and use the registration forms in a similar manner, but customize each one for the type and location of the program involved.

Because we seek public comment on the plan, we do not need to seek public comment on each specific information
