

line subject to any existing agreement that imposes such a restriction.<sup>3</sup>

The verified notice states that following the proposed transaction, CKIN will continue to operate the 27.52-mile NIRC line in the same manner as it does today and that the transaction will not result in adverse changes in service levels, significant operational changes, or a change in the competitive balance with carriers outside the corporate family. Therefore, the transaction is exempt from the prior approval requirements of 49 U.S.C. 1123. *See* 49 CFR 1180.2(d)(3).

Unless stayed, the exemption will be effective on March 21, 2024 (30 days after the verified notice was filed). The verified notice states that G&A, CKIN, and NIRC intend to consummate the proposed transaction as soon as practicable after the effective date of the exemption.

Under 49 U.S.C. 10502(g), the Board may not use its exemption authority to relieve a rail carrier of its statutory obligation to protect the interests of its employees. However, 49 U.S.C. 11326(c) does not provide for labor protection for transactions under 49 U.S.C. 11324 and 11325 that involve only Class III rail carriers. Accordingly, the Board may not impose labor protective conditions here because all the carriers involved are Class III rail carriers.

If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions for stay must be filed no later than March 14, 2024 (at least seven days before the exemption becomes effective).

All pleadings, referring to Docket No. FD 36760, must be filed with the Surface Transportation Board via e-filing on the Board's website or in writing addressed to 395 E Street SW, Washington, DC 20423-0001. In addition, one copy of each pleading must be served on G&A's representative, Terrance M. Hynes, Sidley Austin LLP, 1501 K Street NW, Washington, DC 20005.

According to G&A, this action is categorically excluded from environmental review under 49 CFR 1105.6(c) and historic reporting under 49 CFR 1105.8(b).

Board decisions and notices are available at [www.stb.gov](http://www.stb.gov).

Decided: February 26, 2024.

By the Board, Mai T. Dinh, Director, Office of Proceedings.

#### Noise Exposure Maps; Martha's Vineyard Airport

**ACTION:** Notice of acceptance of a noise exposure map.

**SUMMARY:** The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps submitted by Martha's Vineyard Airport Commission for Martha's Vineyard Airport under the provisions of the Aviation Safety and Noise Abatement Act are in compliance with applicable requirements.

**DATES:** The FAA's determination on the noise exposure maps is effective February 26, 2024.

**FOR FURTHER INFORMATION CONTACT:**

Cheryl Quaine, Federal Aviation Administration, New England Regional Office Environmental Protection Specialist, Airports Division, Federal Aviation Administration, 1200 District Avenue, Burlington, Massachusetts 01803. Phone number: 781-238-7613.

**SUPPLEMENTARY INFORMATION:** This notice announces that the FAA finds that the noise exposure maps submitted for Martha's Vineyard Airport are in compliance with applicable requirements of 14 CFR part 150, effective (Note 1). Under the Aviation Safety and Noise Abatement Act (hereinafter referred to as "the Act") (49 U.S.C. 47503), an airport operator may submit to the FAA noise exposure maps which meet applicable regulations and which depict non-compatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. The Act requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport. An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to take to reduce existing non-

compatible uses and prevent the introduction of additional noncompatible uses.

The FAA has completed its review of the noise exposure maps and accompanying documentation submitted by Martha's Vineyard Airport Commission. The specific maps under consideration were "Figure 6-1 Existing Conditions (2023) NEM page 6-3 and Figure 6-2 Forecast Conditions (2028) NEM page 6-5 in the submission. The FAA has determined that these noise exposure maps and accompanying documentation are in compliance with applicable requirements. This determination is effective on February 26, 2024.

FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in appendix A of FAR part 150. Such determination does not constitute approval of the applicant's data, information or plans, or a commitment to approve a noise compatibility program or to fund the implementation of that program. If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under section 47503 of the Act, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of section 47506 of the Act. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under part 150 or through FAA's review of noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator that submitted those maps, or with those public agencies and planning agencies with which consultation is required under section 47503 of the Act. The FAA has relied on the certification by the airport operator, under section 150.21 of FAR part 150, that the statutorily required consultation has been accomplished. Copies of the full noise exposure map documentation and of the FAA's evaluation of the maps are available for examination at the following locations:
