

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****14 CFR Part 97**

[Docket No. 31532; Amdt. No. 4101]

Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments**AGENCY:** Federal Aviation Administration (FAA), DOT.**ACTION:** Final rule.

SUMMARY: This rule establishes, amends, suspends, or removes Standard Instrument Approach Procedures (SIAPs) and associated Takeoff Minimums and Obstacle Departure Procedures (ODPs) for operations at certain airports. These regulatory actions are needed because of the adoption of new or revised criteria, or because of changes occurring in the National Airspace System, such as the commissioning of new navigational facilities, adding new obstacles, or changing air traffic requirements. These changes are designed to provide safe and efficient use of the navigable airspace and to promote safe flight operations under instrument flight rules at the affected airports.

DATES: This rule is effective March 4, 2024. The compliance date for each SIAP, associated Takeoff Minimums, and ODP is specified in the amendatory provisions.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of March 4, 2024.

ADDRESSES: Availability of matters incorporated by reference in the amendment is as follows:

Availability

All SIAPs and Takeoff Minimums and ODPs are available online free of charge. Visit the National Flight Data Center at nfdc.faa.gov to register. Additionally, individual SIAP and Takeoff Minimums and ODP copies may be obtained from the FAA Air Traffic Organization Service Area in which the affected airport is located.

SUPPLEMENTARY INFORMATION: This rule amends 14 CFR part 97 by establishing, amending, suspending, or removes SIAPs, Takeoff Minimums and/or ODPs. The complete regulatory description of each SIAP and its associated Takeoff Minimums or ODP for an identified airport is listed on FAA form documents which are incorporated by reference in this amendment under 5 U.S.C. 552(a), 1 CFR part 51, and 14 CFR 97.20. The applicable FAA Forms 8260–3, 8260–4, 8260–5, 8260–15A, 8260–15B, when required by an entry on 8260–15A, and 8260–15C.

The large number of SIAPs, Takeoff Minimums and ODPs, their complex nature, and the need for a special format make publication in the **Federal Register** expensive and impractical. Further, pilots do not use the regulatory text of the SIAPs, Takeoff Minimums or ODPs, but instead refer to their graphic depiction on charts printed by publishers or aeronautical materials. Thus, the advantages of incorporation by reference are realized and publication of the complete description of each SIAP, Takeoff Minimums and ODP listed on FAA form documents is unnecessary. This amendment provides the affected CFR sections and specifies the types of SIAPs, Takeoff Minimums and ODPs with their applicable effective dates. This amendment also identifies the airport and its location, the procedure, and the amendment number.

Availability and Summary of Material Incorporated by Reference

The material incorporated by reference is publicly available as listed in the **ADDRESSES** section.

The material incorporated by reference describes SIAPs, Takeoff Minimums and/or ODPs as identified in the amendatory language for part 97 of this final rule.

The Rule

This amendment to 14 CFR part 97 is effective upon publication of each separate SIAP, Takeoff Minimums and ODP as amended in the transmittal. Some SIAP and Takeoff Minimums and textual ODP amendments may have been issued previously by the FAA in a Flight Data Center (FDC) Notice to Air Missions (NOTAM) as an emergency action of immediate flights safety relating directly to published aeronautical charts.

The circumstances that created the need for some SIAP and Takeoff Minimums and ODP amendments may require making them effective in less than 30 days. For the remaining SIAPs and Takeoff Minimums and ODPs, an effective date at least 30 days after publication is provided.

Further, the SIAPs and Takeoff Minimums and ODPs contained in this amendment are based on the criteria contained in the U.S. Standard for Terminal Instrument Procedures (TERPS). In developing these SIAPs and Takeoff Minimums and ODPs, the TERPS criteria were applied to the conditions existing or anticipated at the affected airports. Because of the close and immediate relationship between these SIAPs, Takeoff Minimums and ODPs, and safety in air commerce, I find that notice and public procedure under 5 U.S.C. 553(b) are impracticable and contrary to the public interest and, where applicable, under 5 U.S.C. 553(d), good cause exists for making some SIAPs effective in less than 30 days.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. For the same reason, the FAA certifies that this amendment will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

U.S. Treasury Securities—State and Local Government Series

AGENCY: Bureau of the Fiscal Service, Fiscal Service, Treasury.

ACTION: Final rule.

SUMMARY: The Department of the Treasury (Treasury) is issuing this final rule to amend the regulations governing State and Local Government Series (SLGS) securities. SLGS securities are non-marketable Treasury securities that are available for purchase only by issuers of tax-advantaged securities. The final rule amends the SLGS regulations to prevent impermissible uses of the SLGS program, most notably the use of program flexibilities by tax-advantaged entities, usually a state or local government, investing in SLGS securities to create impermissible cost-free options. The final rule amends the existing regulations to prevent such activity. In addition, the final rule

makes administrative changes to increase efficiencies in the program.

DATES: This final rule is effective August 26, 2024.

FOR FURTHER INFORMATION CONTACT: Mike Goodwin, Division Director, Jared Waters, Program Manager, Brian Metz, Senior Counsel, or Elizabeth Spears, Senior Counsel, via email at SLGS@fiscal.treasury.gov, by telephone at (304) 480–5299, or via U.S. Mail at Bureau of the Fiscal Service, P.O. Box 396, Parkersburg, WV 26106–1328.

SUPPLEMENTARY INFORMATION:**I. Overview of Rulemaking**

On September 30, 2022, Treasury published a notice of proposed rulemaking (NPRM) with request for comments (87 FR 59353, September 30, 2022), proposing amendments to the regulations governing U.S. Treasury securities of the State and Local Government Series (SLGS). The proposed amendments addressed certain practices of investors in SLGS securities that Treasury considers to be an inappropriate use of the SLGS securities program. The comment period ended on November 29, 2022, and Treasury received two comment letters. After careful consideration of the comments, Treasury is now issuing a final rule.

The NPRM proposed amendments to the SLGS regulations to address impermissible uses of the SLGS program, most notably the misuse of program flexibilities by tax-advantaged entities, usually a state or local government, investing in SLGS securities to create impermissible cost-free options. The NPRM proposed amendments designed to stop such activity. Additionally, the NPRM proposed administrative changes to increase efficiencies in the program.

In the final rule, Treasury is adopting all but one of the proposed amendments. In response to the public comments, Treasury is providing additional detail and clarification herein.

The following discussion provides background on previous related rulemakings, explains the NPRM's proposed amendments, addresses the public comments on those proposed amendments, and describes the final rule.

II. Background

SLGS securities are a type of non-marketable Treasury security that is available for purchase by state and local governments and other issuers (as defined in 31 CFR 344.1) of tax-advantaged bonds (Issuers). SLGS
