

(1) If your voyage time to CIP 2 is 96 hours or more, you must submit an ENOA 96 hours before entering the Seaway at CIP 2.

(2) If your voyage time to CIP 2 is less than 96 hours, you must submit an ENOA before departure, but at least 24 hours before entering the Seaway at CIP 2.

(3) If there are changes to the ENOA, submit them as soon as practicable but at least 12 hours before entering the Seaway at CIP 2.

(4) The NOA must be provided electronically following the USCG National Vessel Movement Center's (NVMC) procedures (<http://www.nvmc.uscg.gov>).

(5) To complete the ENOA correctly for Seaway entry, select the following:

- (i) "CIP 2" as the Arrival Port,
- (ii) "Foreign to Saint Lawrence Seaway" as the Voyage Type, and
- (iii) "Saint Lawrence Seaway Transit" as the Arrival State, City and Receiving Facility.

(b) Foreign Vessel Inspection program:

(1) Enhanced Ship Inspections (ESI)—physical vessel inspection: Foreign flagged vessels are subject to a Seaway inspection once every two navigation seasons. Agents must provide an initial notice of inspection 120 hours prior to the ship's arrival at CIP2. (to: inspecteursvm@seaway.ca and to vtc@dot.gov).

(2) Subject to satisfactory performance, a Self-Inspection may be permitted in the interim season. Vessel to complete a Foreign Self Inspection report and submit electronically to inspecteursvm@seaway.ca and to vtc@dot.gov.

(3) The ESI or self-inspection is required on the first transit of the navigation season.

(4) Inland self-inspection: Inland domestic vessels which are approved by the Seaway and are ISM certified and have a company quality management system, must submit the "Self-Inspection Report", every 2 navigation seasons and not later than 30 days after "fit out".

(5) Inland domestic vessels not participating in the "Self-Inspection Program" are subject to Seaway inspection prior to every transit of the Seaway.

(6) Tug/barge combinations not on the "Seaway Approved Tow" list are subject to Seaway inspection prior to every transit of the Seaway unless provided with a valid Inspection Report for a round trip transit.

(7) A tall vessel, passenger vessel, or vessel of an unusual design is subject to Seaway yearly inspection.

■ 12. Amend § 401.84 by redesignating paragraphs (d) through (g) as paragraphs (e) through (h) and add new paragraph (d) to read as follows:

* * * * *

(d) any malfunction on the vessel of equipment and machinery that is noted as operational in the current "Enhanced Ship Inspection" or "Self Inspection" of the vessel;

* * * * *

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R09-OAR-2023-0588; FRL-11585-02-R9]

Air Plan Revisions; California; Sacramento Air Quality Management District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve a revision to the Sacramento Metropolitan Air Quality Management

District (SMAQMD) portion of the California State Implementation Plan (SIP). This revision concerns a rule submitted to address section 185 of the Clean Air Act (CAA or the Act).

DATES: This rule is effective April 5, 2024.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R09-OAR-2023-0588. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. I. Proposed Action

On December 15, 2023 (88 FR 86870), the EPA proposed to approve the following rule into the California SIP.

Local agency	Rule No.	Rule title	Amended	Submitted
SMAQMD	307	Clean Air Act Penalty Fees	03/23/2023	5/11/2023

We proposed to approve this rule because we determined that it complies with the relevant CAA requirements. Our proposed action contains more information on the rule and our evaluation.

II. Public Comments and EPA Responses

The EPA's proposed action provided a 30-day public comment period. During this period, we received no comments.

III. EPA Action

No comments were submitted. Therefore, as authorized in section 110(k)(3) of the Act, the EPA is approving SMAQMD Rule 307 into the California SIP. The March 23, 2023 version of Rule 307 will replace the

previously approved version of this rule in the SIP. This final approval action also removes the EPA's obligation to promulgate a Federal Implementation Plan (FIP) for the SMAQMD portion of the Sacramento Metro ozone nonattainment area by permanently stopping the FIP clock associated with the January 17, 2023 (88 FR 2541) finding of failure to submit.¹

IV. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of SMAQMD Rule 307, "Clean Air Act Penalty Fees," amended on March 23, 2023, which addresses the CAA section 185 fee program requirements. The EPA has made, and will continue to make, these documents available through www.regulations.gov and at the EPA Region IX Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 14094 (88 FR 21879, April 11, 2023);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.S. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely

affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a state program;
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Executive Order 12898 (Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, February 16, 1994) directs Federal agencies to identify and address "disproportionately high and adverse human health or environmental effects" of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. The EPA defines environmental justice (EJ) as "the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies." The EPA further defines the term fair treatment to mean that "no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies."

The State did not evaluate environmental justice considerations as part of its SIP submittal; the CAA and applicable implementing regulations neither prohibit nor require such an evaluation. The EPA did not perform an EJ analysis and did not consider EJ in this action. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of

Executive Order 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

This action is subject to the Congressional Review Act, and the EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by May 6, 2024. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2).)
