ACTION: Notice and request for comments.

SUMMARY: This notice advises the public that the National Institute of Standards and Technology (NIST) is seeking comments for the proposed revision of Voluntary Product Standard (PS) 20-20, "American Softwood Lumber Standard." This standard, prepared by the American Lumber Standard Committee, serves the procurement and regulatory needs of numerous Federal, State, and local government agencies by providing for uniform, industry-wide grade-marking and inspection requirements for softwood lumber. The implementation of the standard also allows for uniform labeling and auditing of treated wood and, through a Memorandum of Understanding with the U.S. Department of Agriculture, labeling and auditing of wood packaging materials for international trade. As part of a five-year review process, NIST is seeking public comment and invites interested parties to review the revised standard and submit comments.

DATES: Written comments regarding the proposed revision, PS 20-25, should be submitted to the Standards Coordination Office, NIST, no later than April 22, 2024.

ADDRESSES: An electronic copy (in PDF) of the current standard, PS 20-20, can

be obtained at the following website <https://www.nist.gov/standardsgov/voluntary-product-standards-program>. Written comments on the standard should be submitted to Nathalie Rioux via email to standards@nist.gov or via mail to Standards Coordination Office, NIST, 100 Bureau Drive, Stop 2150, Gaithersburg, MD 20899-2150.

The Committee is comprised of producers, distributors, users, and others with an interest in the standard.

Voluntary Product Standard (PS) 20-20 establishes standard sizes and requirements for developing and coordinating the lumber grades of the various species of lumber, the assignment of design values, and the preparation of grading rules applicable to each species. Its provisions include implementation of the standard through an accreditation and certification program; establishment of principal trade classifications and lumber sizes for yard, structural, and factory/shop use; classification, measurement, grading, and grade-marking of lumber; definitions of terms and procedures to provide a basis for the use of uniform methods in the grading inspection, measurement, and description of softwood lumber; commercial names of the principal softwood species; definitions of terms used in describing standard grades of lumber; and commonly used industry abbreviations. The standard also includes the organization and functions of the American Lumber Standard Committee, the Board of Review, and the National Grading Rule Committee.

All public comments will be reviewed and considered. All comments, including attachments will be accepted in Microsoft word, or Adobe PDF formats. Comments containing references, studies, research, and other empirical data that are not widely published should include copies or electronic links of the referenced materials.
