

limited acceptance of responsibility. RD, at 38; Tr. 503–04, 515, 590, 606–08.

While a respondent may present evidence of remedial measures taken to prevent reoccurrence of behavior inconsistent with registration, it is not necessary for the Agency to consider remedial measures when a respondent lacks unequivocal acceptance of responsibility. *Ajay S. Ahuja, M.D.*, 84 FR 5479, 5498 n.33 (2019); *Daniel A. Glick, D.D.S.*, 80 FR 74800, 74801, 74810 (2015). The Agency need not consider remedial measures given the lack of acceptance of responsibility, nevertheless Respondent did not present any evidence of remedial measures for consideration. *See* RD, at 39; *Ahuja*, 84 FR at 5498 n.33; *Glick*, 80 FR at 74801, 74810.

In addition to acceptance of responsibility, the Agency looks to the egregiousness and extent of the misconduct, *Garrett Howard Smith, M.D.*, 83 FR at 18910 (collecting cases), and considers both specific and general deterrence when determining an appropriate sanction. *Glick*, 80 FR at 74810. Here, Respondent's inappropriate and unlawful prescribing of controlled substances was egregious and warrants a sanction. *See* RD, at 39. The record contains substantial evidence that Respondent improperly issued an extensive number of prescriptions to four patients at two clinics over the course of nearly two years. RD, at 9, 17–30; Tr. 490–91; *see supra* Section I. Respondent prescribed controlled substances to patients without taking appropriate action to address clear and repeated signs of diversion and abuse. RD, at 39; *see supra* Section I. Even when patients arrived at their appointments with vital signs indicating a medical crisis or emergency, Respondent failed to address their dangerous medical situations and continued the same prescribing in violation of the applicable standard of care. RD, at 39; *see, e.g.*, Tr. 303, 345–46, 392. In this case, the Agency believes that revocation of Respondent's registration would deter Respondent and encourage the general registrant community to properly manage patients' treatment under the requirements of the CSA, including when faced with evidence of abuse and diversion. *See* RD, at 39.

In light of the above considerations, there is insufficient evidence that Respondent's behavior is unlikely to recur in the future such that the Agency can entrust him with a registration. In sum, Respondent has not offered sufficient mitigating evidence on the record to rebut the Government's case for revocation of his registration. RD, at

37–40. The public interest factors weigh in favor of revocation. RD, at 40. Accordingly, the Agency will order that Respondent's registration be revoked.

Abstract: The Census of State and Federal Adult Correctional Facilities (CCF) is part of the larger Bureau of Justice Statistics' (BJS) portfolio of establishment surveys that inform the nation on the characteristics of adult correctional facilities and persons sentenced to State and Federal prisons. The CCF collects data at the facility level. Data obtained are intended to describe the characteristics of confinement and community-based adult correctional facilities that are operated by (1) State correctional and BOP authorities or (2) private entities that primarily house inmates for State correctional or BOP authorities. The data collected inform issues related to

the operations of facilities and the conditions of confinement, including facility capacity and crowding, safety and security within prisons, staff workload, overall facility function, programming, work assignments, and special housing. All data are submitted on a voluntary basis. BJS plans to continue to use two instruments to collect data on each facility eligible for the CCF with the reference date of June 30, 2024.

Consistent with the most recent iteration of the CCF in 2019 the 2024 CJ-43A includes—

- Functions of the facility (e.g., general confinement, community corrections, reception/diagnostic, medical treatment confinement)
- Percentage of inmates regularly permitted to leave the facility unaccompanied
- Whether the facility is administratively linked (e.g., share budgets or staff) to other facilities and if they are, names of other facilities
- Type of authority operating the facility (e.g., Federal, State, local, joint State and local)
- Whether the facility is authorized to house males, females, or both males and females
- Physical-security level of the facility
- Whether the facility has a designated geriatric unit for inmates of advanced age
- Whether the facility has a housing unit specifically designated for veterans
- Rated or design capacity of the facility
- Whether the facility operated under a State or Federal court order or consent decree that limited the number of inmates it could house
- Whether the facility operated under a State or Federal court order or consent decree for specific conditions of confinement
- Year that State or Federal court order or consent decree took effect
- Number of inmates, by sex on the reference date
- Number of inmates under the age of 18 by sex on the reference date
- Number of inmates by racial category on the reference date
- Number of inmates by custody-security level on the reference date
- Number of inmates by maximum sentence length (more than 1 year and 1 year or less) on the reference date
- Number of inmates who were non-U.S. citizens on the reference date
- Number of inmates being held in restrictive housing on reference date
- Number of inmates housed in protective custody, administrative segregation, segregated for

disciplinary reasons, or other restrictive housing on the reference date

- Number of inmates held for Federal, State, local, and Tribal authorities on the reference date
- Number of staff (security and total), by sex on the reference date
- Number of security staff by racial category on the reference date
- Number of misconduct/disciplinary reports filed on inmates over a 1-year period
- Number of assaults against facility staff by inmates reported over a 1-year period
- Number of prisoner assaults by other inmates with and without serious injury reported over a 1-year period
- Number of disturbances that occurred at the facility over a 1-year period
- Whether the facility has a perimeter or barriers, or surveillance method to detect those attempting to escape
- Number of escapes by inmates that occurred at the facility over a 1-year period
- Number of walkaways by inmates that occurred at the facility over a 1-year period
- Types of work assignments available to inmates on the reference date
- Types of counseling or special programs available to inmates on the reference date
- Types of educational programs available to inmates on the reference date

BJS is proposing to add the following items to the 2024 CJ-43A, all of which are likely available from the same databases as existing data elements and should pose minimal additional burden to the respondents, while enhancing BJS's ability to characterize the corrections system and populations it serves:

- Number of vacant security staff positions
 - Accessibility of technology/internet by inmates
- Based on high burden, low utilization, and/or low response rates in the 2019 CCF, BJS is proposing to remove the following items from the CJ-43A:
- Number of payroll and nonpayroll staff by employment status (full-time and part-time)
 - Number of security staff on average at facility by day shift, night shift, and overnight shift
 - Number of shared security staff with other administratively linked facilities
- Consistent with the most recent iteration of the CCF in 2019 the 2024 CJ-43B includes—
- Functions of the facility (e.g., general confinement, community corrections,

reception/diagnostic, medical treatment confinement)

- Percentage of inmates regularly permitted to leave the facility unaccompanied
- Whether the facility is administratively linked to other facilities and if they are, names of other facilities
- Type of authority operating the facility (e.g., Federal, State, local, joint State and local)
- Whether the facility is authorized to house males, females, or both males and females
- Number of inmates by sex on the reference date
- Number of inmates under the age of 18 by sex on the reference date
- Number of inmates by racial category on the reference date
- Number of inmates who were non-U.S. citizens on the reference date
- Number of inmates held for Federal, State, local, and Tribal authorities on the reference date
- Number of walkaways by inmates that occurred at the facility over a 1-year period
- Types of counseling or special programs available to inmates on the reference date
- Types of educational programs available to inmates on the reference date

BJS uses the information gathered in CCF in published reports and statistics. The reports will be made available to the U.S. Congress, Executive Office of the President, practitioners, researchers, students, the media, others interested in criminal justice statistics, and the general public via the BJS website.
