SUPPLEMENTARY INFORMATION:

Background

On September 8, 2023, Commerce published the *Preliminary Results* of the 2021–2022 administrative review of the antidumping duty order on ripe olives from Spain and invited comments from interested parties.¹ On December 14, 2023, Commerce extended the deadline for issuing the final results until March

5, 2024.² For a complete description of the events that occurred since the *Preliminary Results*, see the Issues and Decision Memorandum.³ Commerce conducted this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act).

Scope of the Order⁴

The products covered by the *Order* are ripe olives from Spain. For a full description of the scope of the *Order*, see the Issues and Decision Memorandum.⁵

Analysis of Comments Received

The issue raised by the interested parties in their case and rebuttal briefs is addressed in the Issues and Decision Memorandum. The topics discussed and the issue raised by parties to which we responded in the Issues and Decision Memorandum is listed in the appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Changes Since the Preliminary Results

Based on the comments received from interested parties, we made no changes to the *Preliminary Results*. For a more detailed discussion of the issue raised by parties, see the Issues and Decision Memorandum.

Rate for Non-Examined Companies

The statute and our regulations do not address the establishment of a rate to be assigned to respondents not selected for individual examination when we limit our examination of companies subject to the administrative review pursuant to section 777A(c)(2)(B) of the Act.

Generally, we look to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when

³ See Memorandum, “Decision Memorandum for the Final Results of Antidumping Duty Administrative Review: Ripe Olives from Spain; 2021–2022,” dated concurrently with, and hereby adopted by this notice (Issues and Decision Memorandum).

calculating the rate for respondents not individually examined in an administrative review. Under section 735(c)(5)(A) of the Act, the all-others rate is normally “an amount equal to the weighted average of the estimated weighted average dumping margins established for exporters and producers individually investigated, excluding any zero and *de minimis* margins, and any margins determined entirely {on the basis of facts available}.” Accordingly, in the final results of review, we are assigning to the companies not individually examined, listed in the chart below, an estimated weighted-average dumping margin based on the average of Agro Sevilla Aceitunas, S. Coop. And.’s (Agro Sevilla), and Angel Camacho Alimentación, S.L.’s (Camacho) rates weighted by their publicly available ranged U.S. sales values.

Final Results of Review

Commerce determines that the following estimated weighted-average dumping margins exist for the period August 1, 2021, through July 31, 2022:

Producer/exporter	Weighted-average dumping margin (percent)
Agro Sevilla Aceitunas, S. Coop. And	2.42
Angel Camacho Alimentación, S.L	2.35
Aceitunas Guadalquivir, S.L	2.39
Aceitunera del Norte de Cáceres, S. Coop. Ltda. de 2 Grado	2.39
Alimentary Group DCOOP, S.COOP. And	2.39
Internacional Olivarera, S.A	2.39

Disclosure

Because we have not modified our analysis to the *Preliminary Results*, we are adopting the *Preliminary Results* as the final results of this review. Consequently, there are no new calculations to disclose in accordance with 19 CFR 351.224(b) for the final results of review.

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b), Commerce will determine, and CBP shall assess, antidumping duties on all appropriate entries of subject merchandise in accordance with the final results of this review. Because the weighted-average dumping margins for Agro Sevilla and Camacho are not zero or *de minimis* (*i.e.*, less than 0.5 percent) in the final results of this review, we calculated an

importer-specific assessment rate based on the ratio of the total amount of dumping calculated for each importer’s examined sales and the total entered value of those same sales in accordance with 19 CFR 351.212(b)(1).⁶ Where an importer-specific assessment rate is *de minimis* (*i.e.*, less than 0.5 percent), the entries by that importer will be liquidated without regard to antidumping duties. The final results of this administrative review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by the final results of this review and for future deposits of estimated duties, where applicable.⁷

For all non-selected separate rate applicants subject to this review, we will instruct CBP to liquidate all entries of subject merchandise that entered the United States during the POR at the average of the rates calculated for Agro Sevilla and Camacho as listed above. For entries of subject merchandise during the POR produced by either of the individually examined respondents for which they did not know that the merchandise was destined for the United States, we will instruct CBP to liquidate these entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.⁸

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

Upon publication of this notice in the **Federal Register**, the following cash deposit requirements will be effective for all shipments of ripe olives from Spain entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section 751(a)(2) of the Act: (1) the cash deposit rate for companies subject to this review will be equal to the

weighted-average dumping margins established in the final results of the review; (2) for merchandise exported by companies not covered in this review but covered in a prior segment of this proceeding, the cash deposit rate will continue to be the company-specific rate published in the completed segment for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the original less-than-fair-value (LTFV) investigation but the producer is, then the cash deposit rate will be the rate established in the completed segment for the most recent period for the producer of the merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be 19.98 percent,⁹ the all-others rate established in the LTFV investigation. These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent assessment of double antidumping duties, and/or an increase in the amount of antidumping duties by the amount of the countervailing duties.

Administrative Protective Order

This notice also serves as a final reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely written notification of the return or destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a violation subject to sanction.

Notification to Interested Parties

Commerce is issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(5).

⁹ See *Ripe Olives from Spain: Final Affirmative Determination of Sales at Less Than Fair Value*, 83 FR 28193 (June 18, 2018).

⁶ In these final results, Commerce applied the assessment rate calculation method adopted in *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Duty Proceedings; Final Modification*, 77 FR 8101 (February 14, 2012).

⁷ See section 751(a)(2)(C) of the Act.

Aluminum Extrusions From the People's Republic of China: Preliminary Affirmative Countervailing Duty Determination, and Alignment of Final Determination With Final Antidumping Duty Determination

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) preliminarily determines that countervailable subsidies are being provided to producers and exporters of aluminum extrusions from the People's Republic of China (China). The period of investigation (POI) is January 1, 2022, through December 31, 2022. Interested parties are invited to comment on this preliminary determination.

DATES: Applicable March 11, 2024.

FOR FURTHER INFORMATION CONTACT: Eliza DeLong, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3878.

SUPPLEMENTARY INFORMATION:

Background

This preliminary determination is made in accordance with section 703(b) of the Tariff Act of 1930, as amended (the Act). Commerce published the notice of initiation of this countervailing duty (CVD) investigation on October 31,

2023.¹ On December 6, 2023, Commerce postponed the preliminary determination until March 4, 2024.²

For a complete description of events that followed the initiation of this investigation, see the Preliminary Decision Memorandum.³ A list of topics discussed in the Preliminary Decision Memorandum is included as Appendix II to this notice. The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Scope of the Investigation

The products covered by this investigation are aluminum extrusions from China. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments

In accordance with the *Preamble* to Commerce's regulations,⁴ the *Initiation Notice* set aside a period of time for parties to raise issues regarding product coverage (*i.e.*, scope).⁵ To date, numerous interested parties have commented on the scope of the investigation as it appeared in the *Initiation Notice*. (Separately, on February 20, 2024, the petitioners⁶ proposed that Commerce modify the

⁶ The petitioners are the U.S. Aluminum Extruders Coalition (the members of which are Alexandria Extrusion Company; APEL Extrusions; Bonnell Aluminum; Brazeway; Custom Aluminum Products; Extrudex Aluminum; International Extrusions; Jordan Aluminum Company; M-D Building Products, Inc.; Merit Aluminum Corporation; MI Metals; Pennex Aluminum; Tower Extrusions; and Western Extrusions) and the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union.

scope of the investigation.⁷ For further discussion of this latter submission, see below.) All parties agree that a number of products are excluded from the scope of this investigation, and, after analyzing the comments from these parties, Commerce preliminarily finds that these products are not subject merchandise.⁸ As a result, Commerce has preliminarily determined to modify the scope of this investigation to add two examples of excluded products (*i.e.*, solar panels and off-grid solar modules), as well as to exclude precision non-electrically conductive coated buss bars and precision drawn aluminum tubing. See the scope in Appendix I to this notice. For further discussion, see the Preliminary Scope Decision Memorandum.⁹

Additionally, Commerce preliminarily determines that the scope language in paragraph eight of the scope as it appeared in the *Initiation Notice*, "so long as they remain subject to the scope of such orders," has the potential to result in the future expansion of the scope of this order, if it is put in place. We have removed this language from the scope for the preliminary determination for this reason, and Commerce is preliminarily modifying the scope language as it appeared in the *Initiation Notice* accordingly. See the scope in Appendix I to this notice.

Finally, as noted above, in comments dated February 20, 2024, the petitioners proposed several substantive modifications to the scope of this investigation, as well as the scope in the companion antidumping duty (AD) and CVD investigations.¹⁰ In particular, the
