SUPPLEMENTARY INFORMATION:

Title: FERC-716, Good Faith Requests for Transmission Service and Good Faith Responses by Transmitting Utilities.

OMB Control No.: 1902-0170.

Type of Request: Three-year extension of the FERC-716 information collection requirements with no changes to the current reporting requirements.

Abstract: This information collection pertains to negotiations between a generator of electricity and a

transmitting utility under sections 211 through section 213¹ of the Federal Power Act (FPA).

Section 211 of the FPA authorizes any electric utility, Federal power marketing agency, or any other person generating electric energy for sale or resale to apply to the Commission for an order requiring a transmitting utility to provide transmission services (including any enlargement of transmission capacity necessary to provide such services) to the applicant. The Commission may issue such order if it finds that such an order meets the requirements of section 212,² and would otherwise be in the public interest.

Section 213 provides that whenever an application for such an order constitutes a “good faith request” for service, the transmitting utility must provide the applicant with a “detailed written explanation, with specific reference to the facts and circumstances of the request, stating (1) the transmitting utility’s basis for the proposed rates, charges, terms, and conditions for such services, and (2) its analysis of any physical or other constraints affecting the provision of such services.”

The Commission’s regulation at 18 CFR 2.20 identifies 12 components of a good faith request for transmission and 5 components of a reply to a good faith request. The regulation at 18 CFR 2.20(a)(2) provides that the Commission may issue an order requiring a transmitting utility to provide transmission services (including any enlargement of transmission capacity necessary to provide such services) only if: (1) an applicant has made a request for transmission services to the transmitting utility that would be the subject of such order at least 60 days prior to its filing of an application for such order, and (2) the applicant has, pursuant to section 213(a) of the FPA, made a good faith request to a transmitting utility to provide wholesale transmission services and requests specific rates and charges, and other terms and conditions.

Type of Respondents: Transmission Requestors and Transmitting Utilities.

Estimate of Annual Burden: The Commission estimates the average annual burden³ and cost⁴ for this information collection as follows.

Types of responses	Number of respondents	Annual number of responses per respondent	Total number of responses	Average burden hrs. & cost (\$) per response	Total annual burden hrs. & total annual cost	Cost per respondent (\$)
	(1)	(2)	(1) * (2) = (3)	(4)	(3) * (4) = (5)	(5) ÷ (1)
Information exchange between parties.	6	1	6	100 hrs.; \$10,000	600 hrs.; \$60,000	\$10,000
Application submitted to FERC if parties’ negotiations are unsuccessful.	6	1	6	2.5 hrs.; \$250.00	15 hrs.; \$1,500	250
Totals	615 hrs.; \$61,500

Comments: Comments are invited on: (1) whether the collections of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden and cost of the collections of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collections; and (4) ways to minimize the burden of the collections of information on those who are to respond, including the use of automated

collection techniques or other forms of information technology.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER24-1366-000]

Tumbleweed Energy, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Tumbleweed Energy, LLC’s application for market-based rate authority, with an

¹ 16 U.S.C. 824j, 824k, and 824l.

² Section 212 requires that, subject to appropriate terms and conditions and just and reasonable rates, access to the electric transmission system for the purposes of wholesale transactions is made widely available.

³ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collections burden, reference 5 CFR 1320.3.

⁴ The Commission staff estimates that the average respondent for FERC-576 is similarly situated to the Commission, in terms of salary plus benefits. Based on FERC’s current annual average of \$207,786 (for salary plus benefits), the average hourly cost is \$100/hour.
