General Description of Collection: The Prompt Corrective Action (PCA) provisions of section 38 of the Federal Deposit Insurance Act requires or permits the FDIC and other federal banking agencies to take certain supervisory actions when FDIC-insured institutions fall within certain capital categories. They also restrict or prohibit certain activities and require the submission of a capital restoration plan when an insured institution becomes undercapitalized. Various provisions of the statute and the FDIC’s implementing regulations require the prior approval of the FDIC before an FDIC-supervised institution, or certain insured depository institutions, can engage in certain activities, or allow the FDIC to make exceptions to restrictions that would otherwise be imposed. This collection of information consists of the applications that are required to obtain the FDIC’s prior approval to engage in these activities. There is no change in the methodology or substance of this information collection. The estimated burden remains unchanged from 2021.
