lands managed by the BLM and proposed recreational shooting closures. The BLM is leading the NEPA process in partnership with the USDA Forest Service, which will sign a decision for the USDA Forest Service-managed lands based on the analysis in the EIS. The Agencies have and will continue to meaningfully engage the Bears Ears Commission in the development of the RMP and EIS, as required by Proclamation 10285.

DATES: This notice announces the opening of a 90-day comment period for the Draft RMP/EIS beginning with the date following the Environmental Protection Agency’s (EPA) publication of its Notice of Availability (NOA) of the Draft RMP/EIS in the **Federal Register**. The EPA usually publishes its NOAs on Fridays.

To afford the Agencies the opportunity to consider comments in the Proposed RMP/Final EIS, please ensure the Agencies receive your comments prior to the close of the 90-day public comment period or 15 days after the last public meeting, whichever is later.

In addition, this notice announces the opening of a 90-day comment period for proposed recreational shooting closures and a 90-day comment period for proposed ACECs on lands managed by the BLM. The Agencies must receive your comments by June 11, 2024.

The Agencies will hold a total of seven public meetings. Two meetings will be held virtually, and five meetings will be conducted in-person. The specific times and locations of the public meetings will be announced at least 15 days in advance through local media, social media, newspapers, and the ePlanning website (see **ADDRESSES**).

SUPPLEMENTARY INFORMATION: This document provides notice that the BLM Utah State Director and Manti-La Sal Forest Supervisor have prepared a Draft RMP/EIS, provides information announcing the opening of the comment period on the Draft RMP/EIS, and announces the comment period on the proposed ACECs and proposed recreational shooting closures. The planning area is located in San Juan County, Utah, and encompasses approximately 1.36 million acres of Federal land.

Management of BENM is currently guided by the 2020 BENM Approved Monument Management Plans, 2008 Monticello Approved RMP, 2008 Moab Approved RMP, and 1986 Manti-La Sal National Forest Land and Resource Management Plan (LRMP), to the extent the management actions in these plans are consistent with Presidential Proclamation 10285 (October 8, 2021).

Purpose and Need for the Planning Effort

The purpose and need serve to frame the identification of issues, alternatives development, and effects analysis. Proclamation 10285 directs the Agencies to “prepare and maintain a new management plan for the entire monument” for the specific purposes of “protecting and restoring the objects identified [in Proclamation 10285] and in Proclamation 9558.”

The RMP’s underlying purpose (40 CFR 1502.13) is to provide a management framework—including goals, objectives, and management direction—to guide BENM management consistent with the protection of monument objects and the management direction provided in Proclamation 10285.

The purpose and need for the BENM RMP is aligned with the purpose and need to amend the plan direction and management allocation for the BENM in the Manti-La Sal National Forest LRMP. The proposed programmatic amendment would incorporate the proposed BENM RMP and boundary
