B. Submitting Comments

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "Notices, Instructions, and Reports to Workers: Inspection and Investigations." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on November 13, 2023, 88 FR 77619.

1. *The title of the information collection:* Notices, Instructions, and Reports to Workers: Inspection and Investigations.

2. *OMB approval number:* 3150-0044.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* Not applicable.

5. *How often the collection is required or requested:* As necessary in order that adequate and timely reports of radiation exposure be made to individuals involved in applicable NRC-licensed activities.

6. *Who will be required or asked to respond:* Licensees authorized to receive, possess, use, or transfer material licensed by the NRC.

7. *The estimated number of annual responses:* 1,889,382 (7 Reporting + 18,200 Recordkeeping + 1,871,174.88 Third-party disclosures).

8. *The estimated number of annual respondents:* 18,200 (2,200 NRC + 16,000 Agreement States).

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 544,899 (3.5 Reporting + 18,200 Recordkeeping + 521,337.9 Third-party disclosures + 5,358 One-time burden).

10. *Abstract:* Part 19 of title 10 of the *Code of Federal Regulations* establishes requirements for notices, instructions, and reports by licensees and regulated entities to individuals participating in NRC-licensed and regulated activities and options available to these individuals in connection with Commission inspections of licensees and regulated entities, and to ascertain compliance with the provisions of the Atomic Energy Act of 1954, as amended, titles II and IV of the Energy Reorganization Act of 1974, and regulations, orders, and licenses thereunder. The regulations in this part also establish the rights and responsibilities of the Commission and individuals during interviews compelled by subpoena as part of the agency's inspections or investigations under section 161c of the Atomic Energy Act of 1954, as amended, on any matter within the Commission's jurisdiction.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–99690; File No. SR–NYSEAMER–2024–14]

Self-Regulatory Organizations; NYSE American LLC; Notice of Filing and Immediate Effectiveness of Proposed Change To Establish the NYSE American Aggregated Lite Market Data Feed

March 7, 2024.

Pursuant to section 19(b)(1)¹ of the Securities Exchange Act of 1934 (“Act”)² and Rule 19b–4 thereunder,³ notice is hereby given that, on February 27, 2024, NYSE American LLC (“NYSE American” or the “Exchange”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to establish the NYSE American Aggregated Lite (“NYSE American Agg Lite”) market data feed. The proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to establish the NYSE American Agg Lite market data feed. The NYSE American Agg Lite is a NYSE American-only frequency-based depth of book market data feed of the NYSE American’s limit order book for up to ten (10) price levels on both the bid and offer sides of the order book for securities traded on the Exchange and for which the Exchange reports quotes and trades under the Consolidated Tape Association (“CTA”) Plan or the Nasdaq/UTP Plan. NYSE American Agg Lite would be a compilation of limit order data that the Exchange would provide to vendors and subscribers. As proposed, the NYSE American Agg Lite data feed would be updated no less frequently than once per second. The NYSE American Agg Lite would include depth of book order data as well as security status messages. The security status message would inform subscribers of changes in the status of a specific security, such as trading halts, short sale restriction, etc. In addition, the NYSE American Agg Lite would also include order imbalance information prior to the opening and closing of trading.

The Exchange proposes to offer NYSE American Agg Lite after receiving requests from vendors and subscribers that would like to receive the data

described above in an integrated fashion at a pre-defined publication interval, in this case updates no less than once per second. An aggregated data feed may provide greater efficiencies and reduce errors for vendors and subscribers that currently choose to integrate the above data into a single offering after receiving it from the Exchange through existing products and adjust the publication frequency based on a subscriber’s needs. The Exchange believes that providing vendors and subscribers with the option to subscribe to a market data product that integrates a subset of data from existing products and where such aggregated data is published at a pre-defined interval, thus lowering bandwidth, infrastructure and operational requirements, would allow vendors and subscribers to choose the best solution for their specific business needs. The Exchange notes that publishing only the top ten price levels on both the bid and offer sides of the order book where such data is communicated to subscribers at a pre-defined interval would reduce the overall volume of messages required to be consumed by subscribers when compared to a full order-by-order data feed or a full depth of book data feed. Providing data in this format and publication frequency would make NYSE American Agg Lite more easily consumable by vendors and subscribers, especially for display purposes.

The Exchange proposes to offer NYSE American Agg Lite through the Exchange’s Liquidity Center Network (“LCN”), a local area network in the Exchange’s Mahwah, New Jersey data center that is available to users of the Exchange’s co-location services. The Exchange would also offer NYSE American Agg Lite through the ICE Global Network (“IGN”), through which all other users and members access the Exchange’s trading and execution systems and other proprietary market data products.

The Exchange will file a separate rule filing to establish fees for NYSE American Agg Lite. The Exchange will announce the implementation date of this proposed rule change by Trader Update, which, subject to the effectiveness of this proposed rule change, will be no later than the second quarter of 2024.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6(b)⁴ of the Act (“Act”), in general, and furthers the objectives of

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b–4.

⁴ 15 U.S.C. 78f(b).
