

- Valley of the Gods ACEC—approximately 22,716 acres. Designation proposed to protect scenic resources. Identified special management would include preserving the natural visual character of the landscape (VRM Class I) (except on 57 acres of highway access portals); excluding ROWs; prohibiting permitted/personal use of woodland products; and prohibiting campfires.

- Indian Creek ACEC—approximately 3,936 acres. Designation proposed to protect scenic resources. Identified special management would include preserving the natural visual character of the landscape (VRM Class I); avoiding ROWs; closing the area to OHV use; prohibiting permitted/personal use of woodland products, except for limited on-site collection of dead wood for campfires; and revegetating with native species where feasible.

- John's Canyon Paleontological ACEC—approximately 11,465 acres. Designation proposed to protect paleontological, cultural, and scenic resources; fish and wildlife; and threatened species. Identified special management would include retaining the existing visual character of the landscape in a manner where authorized changes do not attract the attention of the casual observer (VRM Class II); excluding ROWs; and limiting discretionary actions to those necessary to protect BENM objects.

- Aquifer Protection Area ACEC—approximately 85,856 acres. Designation proposed to protect natural systems/aquifer recharge areas, and scenic, cultural, and paleontological resources. Identified special management would include managing discretionary uses to avoid adversely impacting vegetation communities and ground-water dependent ecosystems; preserving the natural visual character of the landscape in some portions of the ACEC (VRM Class I) and retaining the existing visual character of the landscape in other portions of the ACEC in a manner where authorized changes do not attract the attention of the casual observer (VRM Class II); and requiring hydrologic studies for groundwater withdrawals.

All nominated ACECs are proposed for designation in the preferred alternative.

#### Dingell Act Proposed Recreational Shooting Closures

In accordance with the John D. Dingell, Jr. Conservation, Management, and Recreation Act of 2019 (Dingell Act, Pub. L. 116–9, Section 4103), the Agencies are announcing the opening of a 90-day public comment period on the proposed recreational shooting closures within the Monument. The preferred

alternative would close the entire Monument—approximately 1.36 million acres—to recreational shooting to protect BENM objects, whereas the other alternatives would close portions of the Monument to recreational shooting. Comments may be submitted using any of the methods listed in the **ADDRESSES** section earlier.

#### Schedule for the Decision-Making Process

Following this comment period, the Agencies will provide additional opportunities for public participation consistent with the NEPA and land use planning processes, including a 30-day public protest period and a 60-day Governor's consistency review on the Proposed RMP. The Proposed RMP/Final EIS is anticipated to be available for public protest in October 2024 with an Approved RMP and Records of Decision in January 2025. In accordance with 36 CFR 219.59(a), the USDA Forest Service will waive its objections procedures and adopt the BLM's protest procedures.

The Agencies will continue to consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM Manual Section 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. The Agencies will also continue to meaningfully engage with the Bears Ears Commission, as required by Proclamation 10285.

You may submit comments on the Draft RMP/EIS in writing to the Agencies at any public meetings or to the Agencies using one of the methods listed in the **ADDRESSES** section. To be considered, comments must be received by the end of the 90-day comment period. The ePlanning website (see **ADDRESSES**) includes background information on BENM and the planning process.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
