AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Request for applicants for appointment to the Board of Visitors for the National Fire Academy.

SUMMARY: The National Fire Academy (Academy) is requesting individuals who are interested in serving on the Board of Visitors for the National Fire Academy (Board) to apply for

appointments as identified in this notice. Pursuant to the Federal Fire Prevention and Control Act of 1974, the Board shall review annually the programs of the Academy and shall make recommendations to the Federal Emergency Management Agency (FEMA) Administrator, through the United States Fire Administrator, regarding the operation of the Academy and any improvements that the Board deems appropriate. The Board is composed of eight members, all of whom have national or regional leadership experience in the fields of fire safety, fire prevention (such as community risk reduction to include wildland urban interface), fire control, research and development in fire protection, treatment and rehabilitation of fire victims, or local government services management, which includes emergency medical services. The Academy seeks to appoint one individual to a position on the Board

that will be open due to term expiration. If other positions are vacated during the application process, candidates may be selected from the pool of applicants to fill the vacated positions.

DATES: Resumes will be accepted until 11:59 p.m. Eastern Daylight Time (EDT) April 15, 2024.

ADDRESSES: The preferred method of submission is via email. However, resumes may also be submitted by mail. Please choose one submission method only:

SUPPLEMENTARY INFORMATION: The Board is an advisory committee established in accordance with the provision of the Federal Advisory Committee Act (FACA), 5 U.S.C. ch. 10. The purpose of the Board is to review annually the programs of the Academy and advise the FEMA Administrator on the operation of the Academy and any improvements therein that the Board deems appropriate. In carrying out its responsibilities, the Board examines Academy programs to determine whether these programs further the basic missions approved by the FEMA Administrator, examines the physical plant of the Academy to determine the adequacy of the Academy's facilities, and examines funding levels for Academy programs. The Board submits a written report through the United States Fire Administrator to the FEMA Administrator annually. The report provides detailed comments and recommendations regarding the Academy's operations.

**[Docket ID FEMA-2024-0002; Internal
Agency Docket No. FEMA-B-2416]**

**Proposed Flood Hazard
Determinations**

AGENCY: Federal Emergency
Management Agency, Department of
Homeland Security.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before June 12, 2024.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS

report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

You may submit comments, identified by Docket No. FEMA-B-2416, to Rick Sacbbit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbbit@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Rick Sacbbit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbbit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution process. SRPs are independent panels of experts in hydrology, hydraulics, and other pertinent sciences established to review conflicting scientific and technical data and provide recommendations for resolution. Use of the SRP only may be exercised after
