

from mining operations would be completed in accordance with BLM and Nevada Division of Environmental Protection regulations. Concurrent reclamation would take place where practicable and safe.

The proposed Plan of Operations would result in approximately 4,234 acres of new surface disturbance, of which 179 acres would be on private land and 4,055 acres would be on public land administered by the BLM.

The proposed Plan of Operations boundary would encompass 5,990 acres. The total disturbance associated with the Proposed Action, including existing, reclassified, and exploration, would be 4,306 acres, with 4,127 acres on land administered by the BLM and 179 acres on private land. The proposed surface mining activities for the Robertson Mine would include:

- Three open pits (Gold Pan, Porphyry, and Altenburg Hill) and associated haul roads;
- A Waste Rock Facility;
- A Heap Leach Facility including a lined pad, process solution ponds and vaults, and carbon-in-column plant;
- Ancillary facilities including a three-stage crushing system with associated conveyors; ore stockpiles; growth media stockpiles; a gravel borrow source; secondary roads; stormwater controls and diversions; truck scale; power lines and electrical substations; water production, dewatering, and monitoring wells; water pipelines and loadouts; ready lines; fuel and reagent storage; fueling facilities; laydown yards; wildlife and range fencing; assay laboratory; trailers; buildings; and communications sites;
- Shared facilities with the Pipeline Complex at the Cortez Mine, including but not limited to haul roads, potable water well, water pipelines, warehousing and maintenance shops, hazardous waste storage, petroleum-contaminated soils facility, ore stockpiles, the Pipeline Mill, carbon handling, refinery, laboratory, and Pipeline Area 28 tailings storage facility; and

- Modifying the authorized Robertson Exploration Plan (NVN-067688) (Exploration Plan) boundary.

The Partial Backfill Alternative and No Action Alternative are described in the Draft EIS. Under the Partial Backfill Alternative, the Gold Pan Pit would be backfilled to prevent the establishment of a post-mining pit lake. All other aspects of the Partial Backfill Alternative are the same as those described for the Proposed Action. Under the No Action Alternative, the development of the Robertson Mine Project would not be authorized and

NGM would not construct, operate, and close a new surface mine. Modifications to the Exploration Plan boundary, the Cortez Mine Plan boundary, and the Pipeline-South Pipeline-Gold Acres Exploration Plan boundary would not occur.

Draft EIS Review Process

On August 18, 2023, a Notice of Intent to prepare an EIS was published in the **Federal Register**, announcing the beginning of the public scoping process. The BLM held virtual public scoping meetings for the Robertson Mine Project on August 31 and September 1, 2023. During the scoping period, 30 comment documents were received containing a total of 141 individual comments.

This Notice of Availability initiates the draft EIS review process. There will be a 45-day public comment period. Public meetings to discuss the draft EIS will be announced. The date and times of the meetings will be posted on the BLM's Robertson Mine Project website.

The purpose of public review of the draft EIS is to provide an opportunity for meaningful collaborative public engagement and for the public to provide substantive comments, such as identification of factual errors, data gaps, relevant methods, or scientific studies. The BLM will respond to substantive comments by making appropriate revisions to the EIS or explaining why a comment did not warrant a change.

The BLM has and will continue to use and coordinate the draft EIS review process to help fulfill the public involvement requirements under the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3). Information about historic and cultural resources within the area potentially affected by the Proposed Action will assist the BLM in identifying and evaluating impacts to such resources. The BLM will continue to consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM MS 1780, and other Departmental policies. Agencies will give due consideration to Tribal concerns, including impacts on Indian trust assets and treaty rights and potential impacts to cultural resources.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. BILLING CODE 4312–52–P

INTERNATIONAL TRADE COMMISSION

**[Investigation Nos. 701–TA–704–705 and
731–TA–1664–1666 (Preliminary)]**

Paper Plates From China, Thailand, and Vietnam; Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (“Commission”) determines, pursuant to the Tariff Act of 1930 (“the Act”), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports of paper plates from China, Thailand, and Vietnam, provided for in subheading 4823.69.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (“LTFV”) and to be subsidized by the governments of China and Vietnam.²

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission’s rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in § 207.21 of the Commission’s rules, upon notice from the U.S. Department of Commerce (“Commerce”) of affirmative preliminary determinations in the investigations under §§ 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under §§ 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Any other party may file an entry of appearance for the final phase of the investigations after publication of the final phase notice of scheduling. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations. As provided in

¹ The record is defined in § 207.2(f) of the Commission’s Rules of Practice and Procedure (19 CFR 207.2(f)).
