

assessment within all DoD organizations for purposes of preventing sexual assaults. A subsequent November 2015 memo from the Acting Under Secretary of Defense for Personnel and Readiness (USD P&R) designated the DEOCS as the survey tool to support the NDAA requirement for a DoD command climate assessment program. A May 2019 memo from the Acting Secretary of Defense directed that the goals of the DEOCS include developing and providing leaders with assessment tools to “help them with developing an appropriate course of action from a suite of interventions and provide them with feedback on their impact of their efforts.” The DoD Instruction (DoDI) 6400.11 further specified the requirements for DEOCS fielding.

The DEOCS will be administered to Active Duty and Reserve component members, DoD Civilians, and Military Service Academy (MSA) and MSA Preparatory School members (hereafter, MSA Prep School) in order to meet this statutory requirement for the DoD. The universe of the DoD community also includes foreign nationals who are employed by the DoD. Additionally, the DEOCS will also include Active, Reserve, and MSA components of the United States Coast Guard and students/staff at the United States Merchant Marine Academy. The DEOCS includes a module fielded to a subset of Active Duty and Reserve component members to collect information on their attitudes and experiences related to racial/ethnic relations in the military.

The statutory and policy requirements for the DEOCS, including the module, can be found in the following:

- FY13 NDAA, Section 572
- FY14 NDAA, Section 1721
- DoD Instruction (DoDI) 6400.11, “DoD Integrated Primary Prevention Policy for Prevention Workforce and Leaders”
- DoD Instruction (DoDI) 1350.2, “DoD Military Equal Opportunity Program”
- Immediate Actions to Improve Diversity & Inclusion (Esper, 2020)

Affected Public: Individuals and Households.

Frequency: As required.

Unit commanders and organizational leaders must administer a DEOCS yearly, within the annual fielding window, unless they are unable to do so as a result of mission requirements. The annual fielding window for the DEOCS 5.1 is from August 1 to November 30, however, the DEOCS is available for fielding continuously throughout the year for units or organizations that cannot field during the survey window. Currently, there is not a standardized

method for defining at which level in the hierarchy units are required to take the DEOCS, how to define a unit, or how to define unit membership. As a result, there may be overlap between DEOCS units resulting in individuals taking more than one DEOCS. DoDI 6400.11 was established in 2022 and reduces occurrences of overlapping DEOCS. The DEOCS module is fielded in response to a 2020 Secretary of Defense action memorandum (Esper, 2020) requiring the biennial survey of Active Duty and Reserve component members regarding their attitudes and experiences related to racial/ethnic relations in the military and replaces (OMB Control Number 0704–0659) to reduce cost and survey burden.

Respondent's Obligation: Voluntary.

Type of Request: New.
Number of Respondents: 50.

Annual Responses: 50.
Average Burden per Response: 30 minutes.

Annual Burden Hours: 25.
Needs and Uses: As part of 59th Medical Wing’s Science & Technology, Technology Transfer and Transition (59 MDW/ST–T3) Office’s continuous process improvement effort, this proposed information collection will gather feedback from companies which have successfully developed and marketed commercially-available medical products to the DoD over the last five (5) years. The questionnaire elicits information about (a) funding streams, processes, ideas, partnerships, and pathways, (b) Food & Drug Administration (FDA) approval/clearance, (c) teaming arrangements, management strategies, and leadership approaches, and (d) barriers and enablers to marketing to the DoD. By performing this market analysis, we aim to develop actionable, data-driven recommendations for improving acquisition of innovative medical solutions. An analysis of responses permits a clear understanding how the DoD can influence, emulate, and facilitate successful production and provisioning of new/novel medical products (capabilities) to address existing requirements or enhance existing medical/health capabilities.
