

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Occupational Exposure to Beryllium and Beryllium Compounds in the Construction Industry. The agency is requesting an adjustment decrease in burden hours from 18,075 hours to 7,047 hours, a difference of 11,028 hours. This decrease is due to the removal of the collection of information requirements for rule familiarization, and a decrease in the non-compliance rate by 60 percent, since the standard has been in effect for the past three years.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved collection.

Title: Occupational Exposure to Beryllium and Beryllium Compounds Standard in the Construction Industry.

OMB Control Number: 1218-0275.

Affected Public: Business or other for-profits.

Number of Respondents: 2,100.

Number of Responses: 12,642.

Frequency of Responses: On occasion.

Average Time per Response: Varies.

Estimated Total Burden Hours: 7,407.

Estimated Cost (Operation and Maintenance): \$2,249,246.

IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions
