BILLING CODE 6570-01-P

FEDERAL ELECTION COMMISSION

Sunshine Act Meetings

TIME AND DATE: Wednesday, March 27, 2024, at 10 a.m.

PLACE: Hybrid meeting: 1050 First Street NE, Washington, DC (12th Floor) and virtual.

Note: For those attending the meeting in person, current Covid-19 safety protocols for visitors, which are based on the CDC Covid-19 hospital admission level in Washington, DC, will be updated on the commission's contact page by the Monday before the meeting. See the contact page at <https://www.fec.gov/contact/>. If you would like to virtually access the meeting, see the instructions below.

STATUS: This meeting will be open to the public, subject to the above-referenced guidance regarding the Covid-19 hospital admission level and corresponding health and safety procedures. To access the meeting virtually, go to the commission's website www.fec.gov and click on the banner to be taken to the meeting page.

MATTERS TO BE CONSIDERED:

Draft Advisory Opinion 2024-03:

PoliticalMeetings.com LLC

REG 2024-01 (Candidate Security)—

Draft Notice of Proposed Rulemaking Management and Administrative Matters

Additional Information: This meeting will be cancelled if the Commission is not open due to a funding lapse.

CONTACT PERSON FOR MORE INFORMATION: Judith Ingram, Press Officer, Telephone: (202) 694-1220.

Individuals who plan to attend in person and who require special assistance, such as sign language interpretation or other reasonable accommodations, should contact Laura E. Sinram, Secretary and Clerk, at (202) 694-1040 or secretary@fec.gov, at least 72 hours prior to the meeting date.

(Authority: Government in the Sunshine Act, 5 U.S.C. 552b)

Laura E. Sinram,

Secretary and Clerk of the Commission.

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-24-24DU; Docket No. CDC-2024-0021]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal

agencies the opportunity to comment on a proposed information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Generic Clearance for the Collection of Minimal Data Necessary for Case Data During an Emergency Response. This information collection will allow CDC to collect the minimum data necessary for confirmed, probable, and suspected cases of any disease or condition that is the subject of an emergency response.

DATES: CDC must receive written comments on or before May 21, 2024.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2024-0021 by either of the following methods:

- *Federal eRulemaking Portal:* www.regulations.gov. Follow the instructions for submitting comments.
- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to www.regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
5. Assess information collection costs.

Proposed Project

Generic Clearance for the Collection of Minimal Data Necessary for Case Data During an Emergency Response—New—Office of Public Health Data, Surveillance, and Technology (OPHDST), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

During a public health emergency response, state, tribal, local, and territorial (STLT) health departments and CDC need to exchange data on confirmed, probable, and suspected cases rapidly. Timely notifications of cases from STLT to CDC are critical to provide situational awareness at the federal level to support decision making, particularly for public health threats that escalate quickly and cross jurisdictions. To this end, collecting the minimum data necessary will provide standardization and consistency among technical approaches and Agency-wide processes. The harmonization across CDC programs and STLTs will reduce the burden on STLTs and healthcare providers from ad hoc requests for case data from CDC programs.

Section 319D of the Public Health Service Act (as amended Through Pub. L. 118-35, enacted January 19, 2024) states that CDC shall define the minimum data necessary as the Agency collaborates with STLTs and other partners to improve the appropriate near real-time electronic transmission of interoperable public health data for situational awareness and response to public health emergencies. In addition, the CDC Advisory Committee to the
