I. Abstract

This collection of information is necessary under the Defense Production Act of 1950 (DPA), as amended, and related Executive Order 13603. Under the Competitive Enhancement Needs Assessment Survey Program (The Program), the Bureau of Industry and Security's Office of Technology Evaluation (OTE) distributes surveys nationwide to businesses in order to determine which government competitive enhancement, procurement opportunity and business diversification programs would benefit their competitive position in the marketplace. The results of the mandatory surveys allow The Program to align industry stakeholders with the Federal and State resources best suited to meet their individual needs. The expertise of 70+ Federal and State government organizations is made available to The Program, in addition to the excess equipment and facilities resident in closed Federal installations plus the excess government equipment at government contractor facilities. The companies respond to the OTE program surveys on a mandatory basis.

SUPPLEMENTARY INFORMATION:

I. Abstract

Sections 4812(b)(7) and 4814(b)(1)(B) of the Export Control Reform Act (ECRA), authorizes the President and the Secretary of Commerce to issue regulations to implement the ECRA including those provisions authorizing the control of exports of U.S. goods and technology to all foreign destinations, as necessary for the purpose of national security, foreign policy and short supply, and the provision prohibiting U.S. persons from participating in certain foreign boycotts.

Export control authority has been assigned directly to the Secretary of Commerce by the ECRA and delegated by the President to the Secretary of Commerce. This authority is administered by the Bureau of Industry and Security through the Export Administration Regulations (EAR). The ECRA is not permanent legislation, and when it has lapsed due to the failure to enact a timely extension, Presidential executive orders under the International Emergency Economic Powers Act (IEEPA) have directed and authorized the continuation in force of the EAR.

The collection is necessary under § 748.11 of the EAR. This section states that the Form BIS-711, Statement by Ultimate Consignee and Purchaser, or a statement on company letterhead (in accordance with § 748.11(b)(1), unless one or more of the exemptions set forth in Section 748.11(a) exists. The BIS-711 or letter provides information on the foreign importer receiving the U.S. technology and how the technology will be utilized. The BIS-711 or letter provides assurances from the importer that the technology will not be misused, transferred or re-exported in violation of the EAR. The form is also required for certain reexport authorizations specified in § 748.12(b) of the EAR.
