

Impacts on the Office of Workers' Compensation Programs (OWCP)

Due to the safety concerns surrounding compounded drugs, the Department of Labor has deemed it necessary to scrutinize the medical necessity of these medications in OWCP claims more closely by instituting a pre-authorization process. The OWCP believes that using a form to monitor compounded medications will improve the quality of medical management, increase patient safety, assist our stakeholders in controlling costs due to medically unnecessary treatments, and lessen the potential for fraud, waste, and abuse in the compensation programs administered by the OWCP. Requiring justification before payment will assist the OWCP in determining whether the prescribed medication will assist in curing, giving relief, and lessening the degree of disability.

OWCP's authority to require use of the OWCP-26 is derived from the following sources:

- *FECA*: 5 U.S.C. 8103; 20 CFR 10.310, 10.800 and 10.809.
- *EEOICPA*: 42 U.S.C. 7384t; 20 CFR 30.700(b).
- *BLBA*: 33 U.S.C. 907, as incorporate by 30 U.S.C. 932(a); 20 CFR part 725, subpart J.
- *LHWCA*: 33 U.S.C. 907, 939; 20 CFR part 702, subpart D.

II. Desired Focus of Comments

OWCP is soliciting comments concerning the proposed information collection (ICR) titled, "Authorization Request Form and Certification/Letter of Medical Necessity for Compounded Drugs", OWCP-26.

OWCP is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information has practical utility;
- Evaluate the accuracy of OWCP's estimate of the burden related to the information collection, including the validity of the methodology and assumptions used in the estimate;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the information collection on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Background documents related to this information collection request are

available at <https://regulations.gov> and at DOL-OWCP located at 200 Constitution Avenue NW, Room S-3524, Washington, DC 20210. Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION** section of this notice.

SUPPLEMENTARY INFORMATION:

I. Introduction

During the period from February 1, 2024, to February 29, 2024, the NRC granted 13 exemptions in response to requests submitted by the following licensees: Dominion Energy South Carolina, Inc.; DTE Electric Company; Duke Energy Progress, LLC/Duke Energy Carolinas, LLC; Entergy Operations, Inc.; Florida Power & Light Company; Nebraska Public Power District; Union Electric Company, doing business as Ameren Missouri; Virginia Electric and Power Company; and Wolf Creek Nuclear Operating Corporation.

These exemptions temporarily allow the licensee to deviate from certain requirements of part 73 of title 10 of the *Code of Federal Regulations* (10 CFR), "Physical Protection of Plants and Materials," subpart T, "Security Notifications, Reports, and Recordkeeping." In support of its exemption requests, the licensees agreed to effect site-specific administrative controls that maintain the approach to complying with 10 CFR part 73 in effect prior to the NRC's issuance of a final rule, "Enhanced Weapons, Firearms Background Checks, and Security Event Notifications," which was published in the **Federal Register** on March 14, 2023, and became effective on April 13, 2023 (88 FR 15864).
