

action, which will be documented in staff evaluation reports for each site. The NRC staff's review will determine whether there is reasonable assurance that the SNC Fleet maintains adequate protection with the current physical barriers in accordance with the requirements in 10 CFR part 73.

Environmental Impacts of the Proposed Action

The NRC has completed its environmental evaluation of the proposed action. The proposed action would grant the licensee partial exemption from the design criteria specified in 10 CFR 73.2, "Physical barrier," paragraph 1, as it applies to the angular specification for brackets used to support the required barbed wire (or similar material) topper. This will allow the licensee to continue using vertical, rather than angled, barbed wire fence toppings in certain limited protected area sections at the SNC Fleet sites.

The proposed action would have no direct impacts on land use or water resources. Impacts to terrestrial and aquatic biota would be negligible as the proposed action involves no new construction or modification of plant operational systems. There would be no changes to the quality or quantity of non-radiological effluents. No changes to the plant's National Pollutant Discharge Elimination System permit are needed. In addition, there would be no noticeable effect on air pollutant emissions, socio-economic conditions in the region, no environment justice impacts, and no impacts to historic and cultural resources. Therefore, there would be no significant non-radiological impacts associated with the proposed action.

The NRC has concluded that the proposed action would not have a significant adverse effect on the probability of an accident occurring. There would be no change to radioactive effluents that affect radiation exposures to plant workers and members of the public. No changes would be made to plant buildings or the site property. Therefore, implementing the proposed action would not result in a change to the radiation exposures to the public or radiation exposure to plant workers.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the NRC considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the exemption request would result in the licensee having to replace the vertical barbed wire fence toppings with angled barbed

wire that meets the definition of "Physical barrier" in 10 CFR 73.2. This could result in temporary, minor changes in vehicular traffic and associated air pollutant emissions due to any construction-related impacts of performing the necessary modifications, but no significant changes in ambient air quality would be expected.

Alternative Use of Resources

There are no unresolved conflicts concerning alternative uses of available resources under the proposed action.

Agencies and Persons Consulted

The NRC staff did not enter into consultation with any other Federal agency or with the States of Georgia and Alabama regarding the environmental impact of the proposed action.

III. Finding of No Significant Impact

The licensee has requested exemptions from the physical barrier requirement of 10 CFR 73.2, specifically with respect to the design criteria specified in 10 CFR 73.2, "Physical barrier," paragraph 1, to allow the licensee to continue using vertical, rather than angled, barbed wire fence toppings in limited protected area sections on site. The NRC is considering issuing the requested exemption. The proposed action would not have a significant adverse effect on the probability of an accident occurring and would not have any significant radiological and non-radiological impacts. This FONSI incorporates by reference the EA in Section II of this notice. Based on the EA, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or

removal of a negotiated service agreement from the Market Dominant or the Competitive product list, or the modification of an existing product currently appearing on the Market Dominant or the Competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance with the requirements of 39 CFR 3011.301.¹

The Commission invites comments on whether the Postal Service's request(s) in the captioned docket(s) are consistent with the policies of title 39. For request(s) that the Postal Service states concern Market Dominant product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3622, 39 U.S.C. 3642, 39 CFR part 3030, and 39 CFR part 3040, subpart B. For request(s) that the Postal Service states concern Competitive product(s), applicable statutory and regulatory requirements include 39 U.S.C. 3632, 39 U.S.C. 3633, 39 U.S.C. 3642, 39 CFR part 3035, and 39 CFR part 3040, subpart B. Comment deadline(s) for each request appear in section II.

II. Docketed Proceeding(s)
