

In 2012, the Commission adopted a mandatory rule for infant swings under section 104(b)(1) of the CPSIA, which was codified in 16 CFR part 1223. The rule incorporated by reference ASTM F2088–12a, *Standard Consumer Safety Specification for Infant Swings*, with modifications to the labeling and test method requirements.¹ 77 FR 66703 (Nov. 7, 2012). At the time the Commission published the final rule, ASTM F2088–12a was the current version of the voluntary standard. ASTM subsequently revised the voluntary standard six times. ASTM F2088–22 is the current mandatory standard incorporated by reference in 16 CFR part 1223. ASTM F2088 applies to infant and cradle swings, which it describes as products with powered mechanisms that provide swinging or gliding seats for children who cannot climb out of the products. The ASTM standard includes performance requirements, test methods, and requirements for warning labels and instructional literature to address hazards to infants associated with infant and cradle swings.

In April 2013, ASTM notified CPSC that it had issued a revised standard for infant swings, ASTM F2088–13. In accordance with the procedures set out in section 104(b)(4)(B) of the CPSIA, the revised standard became the new mandatory standard for infant swings. The Commission published a direct final rule to update 16 CFR part 1223, incorporating by reference ASTM F2088–13, without modification. 78 FR 37706 (June 24, 2013).

After the Commission issued the revised mandatory standard in 2013, ASTM approved two more revisions: ASTM F2088–15 and ASTM F2088–19. However, ASTM did not notify CPSC of these revisions under CPSIA section 104(b)(4)(B). Consequently, these revised standards did not become the mandatory standards by operation of law, and the Commission did not update the mandatory standard to incorporate by reference these revised ASTM standards. On October 5, 2020, ASTM notified CPSC that it had revised the voluntary standard for infant swings, issuing ASTM F2088–20. In accordance with the procedures set out in section 104(b)(4)(B) of the CPSIA, the revised standard became the new mandatory standard for infant swings. The Commission published a direct final rule to update 16 CFR part 1223, incorporating by reference ASTM

F2088–20, without modification. 86 FR 4961 (Jan. 19, 2021).

On October 2, 2021, ASTM notified CPSC that it had revised the voluntary standard for infant swings, issuing ASTM F2088–21. In accordance with the procedures set out in section 104(b)(4)(B) of the CPSIA, the revised standard became the new mandatory standard for infant swings. The Commission published a direct final rule to update 16 CFR part 1223, incorporating by reference ASTM F2088–21, without modification. 86 FR 59609 (Oct. 28, 2021).

On July 5, 2022, ASTM notified CPSC that it had revised the voluntary standard for infant swings, issuing ASTM F2088–22. In accordance with the procedures set out in section 104(b)(4)(B) of the CPSIA, the revised standard became the new mandatory standard for infant swings. The Commission published a direct final rule to update 16 CFR part 1223, incorporating by reference ASTM F2088–22, without modification. 87 FR 57390 (Sep. 20, 2022).

On March 18, 2024, ASTM notified CPSC that it had approved and published ASTM F2088–24. CPSC staff is assessing the revised voluntary standard to determine, consistent with section 104(b)(4)(B) of the CPSIA, its effect on the safety of consumer products covered by the standard. The Commission invites public comment on that question, to inform staff's assessment and any subsequent Commission consideration of the revisions in ASTM F2088–24.²

The currently incorporated voluntary standard (ASTM F2088–22) and the revised voluntary standard (ASTM F2088–24) are available for review in several ways. A read-only copy of the existing, incorporated standard (ASTM F2088–22) is available for viewing, at no cost, on the ASTM website at: <https://www.astm.org/READINGLIBRARY/>. A read-only copy of the revised standard (ASTM F2088–2024), including red-lined versions that identify the changes from the 2022 version to the 2024 version, are available, at no cost, on ASTM's website at: <https://www.astm.org/CPSC.htm>. Interested parties can also download copies of the standards by purchasing them from ASTM International, 100 Barr Harbor Drive, P.O. Box C700, West Conshohocken, PA 19428–2959; phone: 610–832–9585; <https://www.astm.org>. Alternatively, interested parties can schedule an appointment to inspect copies of the standards at CPSC's Office

of the Secretary, U.S. Consumer Product Safety Commission, 4330 East West Highway, Bethesda, MD 20814, telephone: 301–504–7479.

Comments must be received by April 11, 2024. Because of the short statutory time frame Congress established for the Commission to consider revised voluntary standards under section 104(b)(4) of the CPSIA, CPSC will not consider comments received after this date.

Alberta E. Mills,

Secretary, Consumer Product Safety Commission.
