*Abstract of patent application(s):*

The present invention relates to resin compositions, fiber reinforced polymeric structures and electromagnetic induction processes for making same. Such magnetic induction processes are pulsed processes that can

be optionally coupled with cooling steps between pulses. The aforementioned fiber reinforced polymeric structures can take forms that include, but are not limited to, pipes; pressure vessels, including rocket motor cases and fire extinguishers; golf club shafts; tennis and badminton racquets; skis; snowboards; hockey sticks; fishing rods; bicycle frames; boat masts; oars; paddles; baseball bats; and softball bats. In addition, such fiber reinforced polymeric structures can be supplemented with other materials, such as a rocket propellant, to form articles, for example, a rocket motor.

*Intellectual property:*

EP Application No. 20892987, entitled FIBER REINFORCED POLYMER COMPOSITE STRUCTURES AND ELECTROMAGNETIC INDUCTION PROCESS FOR MAKING SAME, and filed on 19 November 2020.

JP Application No. 2022530177A, entitled FIBER REINFORCED POLYMER COMPOSITE STRUCTURES AND ELECTROMAGNETIC INDUCTION PROCESS FOR MAKING SAME, and filed on 19 November 2020.

The Department of the Air Force may assign these foreign patent rights unless a timely objection is received that sufficiently shows that such assignment would be inconsistent with the Bayh-Dole Act or implementing regulations. A competing application for a patent license agreement, completed in compliance with 37 CFR 404.8 and received by the Air Force within the period for timely objections, will be treated as an objection and may be considered as an alternative to the proposed license.

#### Project-Area Wage Standards in the Labor Cost Component of Cost-of-Service Rates

**AGENCY:** Federal Energy Regulatory Commission, Department of Energy.

**ACTION:** Policy statement.

**SUMMARY:** The Federal Energy Regulatory Commission (Commission) clarifies how the Commission will treat the use of project-area wage standards in calculating the labor cost component of jurisdictional cost-of-service rates.

**DATES:** This policy statement is effective June 26, 2024.

**SUPPLEMENTARY INFORMATION:** 1. On October 19, 2023, the Commission issued a proposed policy statement,<sup>1</sup> proposing to clarify how it will treat the use of project-area wage standards in calculating the labor cost component of cost-of-service rates, including under Natural Gas Act (NGA) sections 4, 5, and 7, 15 U.S.C. 717c–d, 717f; the Interstate Commerce Act (ICA), 49 U.S.C. app. 1(5)(a); and Federal Power Act (FPA) sections 205 and 206, 16 U.S.C. 824d–e.<sup>2</sup> In this Policy Statement, we adopt the proposals in the Proposed Policy Statement, as discussed below.

### I. Background

#### A. Current Commission Precedent

2. Project-area wage standards are the prevailing wages set by labor markets in the locale where the associated project work (e.g., construction, capital repairs, decommissioning) is performed. Those prevailing wages can be found in data sources that indicate the basic hourly wage rates and fringe benefit rates for labor, direct employees, and/or contract personnel that prevail in a particular geographic area. For example, under the Davis-Bacon Act, the U.S. Department of Labor issues prevailing wage determinations based on periodic surveys of union and non-union wages paid in a particular location. These determinations serve as the minimum wage that must be paid by contractors and subcontractors performing under certain federally funded or assisted construction contracts.<sup>3</sup> A number of states have enacted their own prevailing wage laws, sometimes referred to as “Little Davis-Bacon” laws.<sup>4</sup>

3. The Commission addressed the treatment of project-area wages in natural gas pipeline cost-of-service rates in Opinion Nos. 510 and 524.<sup>5</sup> In

<sup>1</sup> *Project-Area Wage Standards in the Labor Cost Component of Cost-of-Service Rates*, 185 FERC ¶ 61,049 (2023) (Proposed Policy Statement).

<sup>2</sup> While most interstate oil pipelines have market-based or indexed rates, some jurisdictional pipelines have cost-of-service rates on file with the Commission.

<sup>3</sup> “By requiring the payment of minimum prevailing wages, Congress sought to ‘ensure that Government construction and federally assisted construction would not be conducted at the expense of depressing local wage standards.’” Dep’t of Labor, *Updating the Davis-Bacon & Related Acts Reguls.*, 88 FR 57526, 57526 (Aug. 23, 2023) (citing Determination of Wage Rates Under the Davis-Bacon & Serv. Cont. Acts 5 Op. O.L.C. 174, 176 (1981)) (Final Rule).
