

investment must be after the date of the loan commitment letter and prior to two (2) years from the date of the first COOL advance, or other contract covenant deadline approved by the RUS Administrator given the unique circumstances of the Borrower. The investment must be in an amount equal to at least 10 percent of the COOL financing, be additional new carbon pollution-free electricity and/or energy efficiency measures and result in quantifiable, greenhouse gas emissions reductions as evidenced in documentation submitted to the Agency in form and substance acceptable to the RUS Administrator. In all other respects, COOL financing will be subject to the same eligibility, underwriting, loan security and repayment criteria as the core RUS electric infrastructure loan program.

COOL financing will only be made available if the Administrator determines that the loan is feasible and sufficient collateral exists to provide the RUS with adequate security pursuant to a first-priority lien or shared first-priority lien on system assets to ensure full repayment of RUS debt. COOL loans will generally follow the RUS regulations, bulletins and standard policies and procedures for the type of funding (*i.e.*, direct or guaranteed) approved for the COOL loan and will be at terms not to exceed 20 years.

The Electric Program will update existing regulations and bulletins and promulgate new regulations as necessary to implement this new COOL loan policy.

*Background:* Historically the RUS has prioritized infrastructure construction and sparingly utilized its authority to finance operations and has only

approved loans funding operations where a borrower faced a unique hardship affecting the borrower's liquidity or consumer rates. The COVID pandemic and severe weather events are recent examples of such events.

The RUS, on a trial basis, approved COOL financing to several generation and transmission system borrowers and distribution system borrowers who sought operating loans to address hardship circumstances. Under the previously approved COOL financing, the Agency made operating loans whereas a condition of receiving the COOL financing, the borrowers committed that the COOL financing would benefit the end users/consumers and the borrowers also committed that an amount equal to 10 percent of the principal amount of the COOL financing would be invested in new energy efficiency measures or carbon pollution-free electricity technologies. Based on its experience with COOL financing with these trial cases and the application of the agency's rigorous underwriting standards, the agency is announcing that COOL financing is available to current RUS borrowers that encounter the hardship circumstances described in this notice.

Upon publication of this notice in the **Federal Register** and until further notice, the RUS will, in hardship situations, consider new requests for COOL financing in addition to its existing authorities and programs. Infrastructure financing will continue to be the RUS Electric Program's highest priority and COOL financing will only be made available in hardship cases when funds are available and there is no negative impact on RUS ability to meet

the infrastructure financing needs in the core RUS Electric Program.

## DEPARTMENT OF COMMERCE

### Economic Development Administration

#### Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Indigenous Communities Survey

**AGENCY:** Economic Development  
Administration, Department of  
Commerce.

**ACTION:** Notice of information collection,  
request for comment.

**SUMMARY:** The Department of  
Commerce, in accordance with the  
Paperwork Reduction Act of 1995  
(PRA), invites the general public and  
other Federal agencies to comment on  
proposed, and continuing information  
collections, which helps us assess the  
impact of our information collection  
requirements and minimize the public's  
reporting burden. The purpose of this  
notice is to allow for 60 days of public  
comment preceding submission of the  
collection to OMB.

**DATES:** To ensure consideration,  
comments regarding this proposed  
information collection must be received  
on or before May 28, 2024.

**ADDRESSES:** Interested persons are  
invited to submit written comments via  
email to the Networks Team, Economic  
Development Administration,

Department of Commerce, at [networks@  
eda.gov](mailto:networks@eda.gov) or [PRAComments@doc.gov](mailto:PRAComments@doc.gov).  
Please reference "Indigenous  
Community Survey" in the subject line  
of your comments. Do not submit  
Confidential Business Information or  
otherwise sensitive or protected  
information.

#### FOR FURTHER INFORMATION CONTACT:

Requests for additional information or  
specific questions related to collection  
activities should be directed to the  
Bryan Borlik, Economic Development  
Administration, Department of  
Commerce, at [bborlik@eda.gov](mailto:bborlik@eda.gov) or 202-  
482-3901.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Economic Development  
Administration (EDA) leads the Federal  
economic development agenda by  
promoting innovation and  
competitiveness, preparing American  
regions for growth and success in the  
worldwide economy. Guided by the  
basic principle that sustainable  
economic development should be  
driven locally, EDA works directly with  
communities and regions to help them  
build the capacity for economic  
development based on local business  
conditions and needs. The Public Works  
and Economic Development Act of 1965  
(PWEDA) (42 U.S.C. 3121 *et seq.*) is  
EDA's organic authority and is the  
primary legal authority under which  
EDA awards financial assistance. Under  
PWEDA, EDA provides financial  
assistance to both rural and urban  
distressed communities by fostering  
entrepreneurship, innovation, and  
productivity through investments in  
infrastructure development, workforce  
development, capacity building, and  
business development to attract private  
capital investments and new and better  
jobs to regions experiencing economic  
distress. Further information on EDA  
programs and financial assistance  
opportunities can be found at  
[www.eda.gov](http://www.eda.gov).

To effectively administer and monitor  
its economic development assistance  
programs, EDA collects certain  
information from applications for, and  
recipients of, EDA investment  
assistance. The purpose of this notice is  
to seek comments from the public and  
other Federal agencies on a request for  
a new information collection by an EDA  
grantee. This grantee will collect  
information about the economic  
development needs, planning, and  
priorities of Indigenous communities.  
Findings from the survey will inform  
EDA's work with Indigenous  
communities and will support other  
agencies, organizations, and  
communities in better planning,  
funding, and implementing economic  
development activities.

To that end, the grantee will conduct  
an electronic data collection survey. A  
subset of the recipients (20) will also be  
engaged in phone interviews to better  
understand the experiences and  
decision-making processes when  
evaluating opportunities for economic  
development funding. EDA is  
particularly interested in public  
comment on how the proposed data  
collection will support the assessment  
of program effectiveness, or if  
alternative information should be  
considered.

##### II. Method of Collection

Data will be collected electronically  
and via phone interviews.

##### III. Data

*OMB Control Number:* None: new  
information collection.

*Form Number(s):* None: new  
information collection.

*Type of Review:* Regular submission:  
new information collection.

*Affected Public:* This survey will  
specifically target EDA applicants for  
projects that are indigenous and  
indigenous serving. Entities may  
include (i) District Organization of an  
EDA-designated Economic Development  
District (EDD); (ii) Indian Tribe or a  
consortium of Indian Tribes; (iii) State,
