Kram Hydro 2, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On February 13, 2024, Kram Hydro 2, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project proposed to be located at the Kentucky River lock and dam 8 on the Kentucky River, in Jessamine and Garrard counties, Kentucky. The sole purpose of a preliminary permit, if issued, is to grant

the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Kentucky River Lock and Dam 8 Hydroelectric Project would consist of the following: (1) an existing 309-foot-long, 31-foot-high concrete lock and dam; (2) an existing 17.6-mile-long, 573-acre reservoir with a storage capacity of 8,700-acre-feet; (3) a proposed 50-foot-wide, 150-foot-long intake channel, upstream of the powerhouse; (4) a proposed 150-foot-long, 50-foot-wide concrete powerhouse, designed to fit within the abandoned lock, containing two identical pit turbine-generator units, with a combined generating capacity of 10 megawatts; (5) a proposed 160-foot-long, 60-foot wide unlined tailrace; (6) a proposed 60-foot-long, 60-foot-wide substation adjacent to the powerhouse; and (7) a proposed 2-mile-long, 138-kilovolt transmission line. The project is estimated to generate an average of 50 gigawatt-hours annually. The existing lock and dam are owned and operated by the Commonwealth of Kentucky.
