

this notice. Commerce intends to issue the final results of this administrative review, including the results of our analysis of the issues raised in any the written briefs, no later than 120 days after the date of publication of this notice, unless otherwise extended.⁸

Assessment Rates

Upon completion of the administrative review, Commerce shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries. If the weighted-average dumping margin for Citribel (*i.e.*, the sole individually-examined respondent in this review) is not zero or *de minimis* (*i.e.*, greater than or equal to 0.5 percent) in the final results of this review, we will calculate importer-specific *ad valorem* assessment rates for the merchandise based on the ratio of the total amount of dumping calculated for the examined sales made during the POR to each importer and the total entered value of those same sales, in accordance with 19 CFR 351.212(b)(1). Where an importer-specific *ad valorem* assessment rate is zero or *de minimis* in the final results of the review, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.⁹ If Citribel's weighted-average dumping margin is zero or *de minimis* in the final results of the review, we will instruct CBP not to assess duties on any of its entries in accordance with the *Final Modification for Reviews*, *i.e.*, “{w}here the weighted-average margin of dumping for the exporter is determined to be zero or *de minimis*, no antidumping duties will be assessed.”¹⁰

For entries of subject merchandise during the POR produced by Citribel for which the producer did not know its merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company (or companies) involved in the transaction.¹¹

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the final results of this review in the **Federal Register**. If a timely summons is filed at the U.S.

⁸ See section 751(a)(3)(A) of the Act and 19 CFR 351.213(h).

Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for a statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for Citribel will be equal to the weighted-average dumping margin established in the final results of this administrative review, except if the rate is less than 0.50 percent, and therefore *de minimis* within the meaning of 19 CFR 351.106(c)(1), in which case the cash deposit rate will be zero; (2) for previously reviewed or investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding in which the company participated; (3) if the exporter is not a firm covered in this review, a prior review, or in the investigation but the producer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the merchandise; and (4) the cash deposit rate for all other producers or exporters will continue to be the all-others rate of 19.30 percent, the rate established in the less-than-fair-value investigation of this proceeding.¹² These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Notification to Interested Parties

We are issuing and publishing these preliminary results in accordance with

¹² See *Order*, 83 FR at 35215.

sections 751(a)(1) and 777(i) of the Act, and 19 CFR 351.213(h)(1).

SUPPLEMENTARY INFORMATION:

I. Abstract

This request would extend an approved information collection regarding Greater Atlantic Region fishing gear marking requirements. There are no changes to the gear marking requirements in this collection.

Under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), the Secretary of Commerce (Secretary) is responsible for the conservation and management of marine fishery resources. The Secretary has delegated much of this responsibility to the National Oceanic and Atmospheric Administration (NOAA)/National Marine Fisheries Service (NMFS). The Magnuson-Stevens Act gives the Secretary and NOAA certain regulatory authorities to ensure the most beneficial uses of marine fishery resources. One of the regulatory steps taken to carry out the conservation and management objectives is to collect data from users of the resource.

Regulations at 50 CFR 648.84(a),(b), and (d), 648.125(b)(3), 648.144(b)(1), 648.264(a)(5), and 697.21(a) and (b) require Federal permit holders using certain types of fishing gear to mark the gear with information necessary to identify the vessel and gear (e.g., hull identification number, Federal fishing permit number). The regulations also specify gear marking requirements for visibility (e.g., buoys, radar reflectors). These gear marking requirements aid in fishery law enforcement, support safe navigation by increasing gear visibility, and help prevent gear conflicts by providing gear type information to other fisherman.

The number of end lines associated with each string of hooks, pots, or traps determine the quantity of gear in this collection. A single Federal permit holder may be responsible for marking several strings of a given gear type and may use multiple gear types that require marking.

II. Method of Collection

The regulations require Federal permit holders to affix the identifying information to the buoy or another part of the gear. No information is submitted to NMFS as a result of this collection.
