1. *The Victory Mills Project consists of:*

(1) a dam that includes: (a) an approximately 150-foot-long concrete spillway varying in height from 4 to 6 feet with a crest elevation of 187.5 feet National Geodetic Vertical Datum of 1929 (NGVD29), and (b) a sluice gate section approximately 19 feet high and 40 feet long with four gated spillway bays, each with a sill elevation of 181 feet NGVD29 and containing a 7-foot-high by 8-foot-wide wooden timber gate; (2) a 4.3-acre reservoir with a gross storage capacity of approximately 18 acre-feet at the normal surface elevation of 187.5 feet NGVD29; (3) an intake channel feeding a 51-foot-long, 25-foot-high concrete intake structure; (4) an 8-foot-diameter, 300-foot-long steel penstock; (5) a 27-foot by 46-foot concrete powerhouse containing a single turbine-generator unit with an installed capacity of 1,656 kilowatts; (6) an approximately 30-foot-wide by 530-foot-long tailrace channel; (7) a 90-foot-long generator lead extending through the powerhouse to a transformer and then a 100-foot-long underground and a 20-foot-long aerial, 4.16-kilovolt transmission line to the point of interconnection; and (8) appurtenant facilities. There are no recreation facilities at the project. An average of 6,073 MWh is generated at the project annually.

The Victory Mills Project operates as a run-of-river facility with no storage or flood control capacity. A continuous minimum bypassed reach flow of 36 cubic feet per second (cfs), or inflow, whichever is less, is maintained through operation of a sluice gate at the dam. The minimum hydraulic capacity for operating the turbine unit is 60 cfs, therefore, the minimum river flow needed for project operation is 96 cfs (36 cfs plus 60 cfs). When inflow at the project is less than 96 cfs, river flows are allowed to pass downstream through the bypassed reach. When the inflow exceeds the maximum hydraulic capacity of the project at 590 cfs, the

impoundment level is permitted to rise over the spillway.

n. *Scoping Process*

Pursuant to the National Environmental Policy Act (NEPA), Commission staff intends to prepare either an environmental assessment (EA) or an environmental impact statement (EIS) (collectively referred to as the "NEPA document") that describes and evaluates the probable effects, including an assessment of the site-specific and cumulative effects, if any, of the proposed action and alternatives. The Commission's scoping process will help determine the required level of analysis and satisfy the NEPA scoping requirements, irrespective of whether the Commission issues an EA or an EIS.

Scoping Meetings

Commission staff will hold two public scoping meetings and an environmental site review in the vicinity of the project to receive input on the scope of the NEPA document. An evening meeting will focus on receiving input from the public and a daytime meeting will focus on the concerns of resource agencies, non-governmental organizations (NGOs), and Indian Tribes. We invite all interested agencies, Indian Tribes, NGOs, and individuals to attend one or both meetings. The times and locations of these meetings are as follows:

Evening Scoping Meeting

Date: Monday, April 29, 2024

Time: 7:00 p.m. EDT

Place: Village of Victory Town Hall
Address: 23 Pine Street, Victory Mills,
NY 12884

Daytime Scoping Meeting

Date: Tuesday, April 30, 2024

Time: 9:00 a.m. EDT

Place: Village of Victory Town Hall
Address: 23 Pine Street, Victory Mills,
NY 12884

Copies of the Scoping Document (SD1) outlining the subject areas to be addressed in the NEPA document were distributed to the parties on the Commission's mailing list. Copies of the SD1 will be available at the scoping meeting or may be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link (see item m above).

Environmental Site Review

The applicant and Commission staff will conduct an environmental site review of the project. All interested individuals, agencies, Indian Tribes, and NGOs are invited to attend. All participants are responsible for their own transportation to the site. Please RSVP via email to Miley Kinney at Mkinney@patriohydro.com or by phone at (603) 732-8162 by April 19, 2024, if you plan to attend the environmental site review. The time and location of the environmental site review is as follows:

Date: Tuesday, April 30, 2024

Time: 1:00 p.m. EDT

Place: Village of Victory Town Hall
Address: 23 Pine Street, Victory Mills,
NY 12884

All persons attending the environmental site review must adhere to the following requirements: (1) all persons must wear sturdy, closed-toe shoes or boots; (2) persons with open-toed shoes/sandals/flip flops/high heels, etc. will not be allowed on the environmental site review; (3) persons must be 18 years or older; (4) no photography will be allowed inside the powerhouse; (5) no weapons are allowed on-site; (6) no alcohol/drugs are allowed on-site (or persons exhibiting the effects thereof); and (7) no animals (except for service animals) are allowed on the environmental site review.

Objectives

At the scoping meetings, Commission staff will: (1) summarize the environmental issues tentatively identified for analysis in the NEPA document; (2) solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the NEPA document, including viewpoints

in opposition to, or in support of, the staff's preliminary views; (4) determine the resource issues to be addressed in the NEPA document; and (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis.

Procedures

The meetings are recorded by a stenographer and become part of the formal record of the Commission proceeding on the project. Individuals, NGOs, Indian Tribes, and agencies with environmental expertise and concerns are encouraged to attend the meeting and to assist the staff in defining and clarifying the issues to be addressed in the NEPA document.
