In limited circumstances, information is collected from members of the public for vendors based in the continental United States (CONUS) doing business with the Navy and Foreign National Employees at locations outside of the continental United States (OCONUS). Per DoD policy contained in DoD Instruction 8510.01 "Risk Management Framework for DoD Systems" and Navy policy from DON Chief Information Officer Memorandum of 20 May, 2014 "Implementation of the Risk Management Framework for DoD Information Technology," NAVSUP is required to implement standard cybersecurity requirements and cyberspace operational risk management functions based on the National Institute of Standard Technology security controls. Access Control and Identification and Authorization controls require NAVSUP to collect information needed to identify users of NAVSUP Enterprise Web applications and ensure appropriate roles for use. The WorkFlow Pro Vendor application allows DON vendors, under a contract agreement, to submit their post award modification requests to NAVSUP Civilian or Military contracting officers. Foreign National employees OCONUS access the portal via their DoD standard Common Access Card (CAC) or by a User Token card. They must first register their CAC or User Token Card via an online form linked to a master repository maintained by NAVSUP and provide their name, work email address and phone number, Country of Citizenship, and organizational affiliation.
