

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments submitted in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: Land-management agencies within the Department of the Interior seek information to comply with the Federal Cave Resources Protection Act (FCRPA), 16 U.S.C. 4301 through 4310 and the Department's regulations at 43 CFR part 37. The FRCPA requires these agencies to identify and protect "significant" caves on Federal lands within their respective jurisdictions and allows agencies to disclose to the public the location of significant caves only in limited circumstances. However, the FRCPA and BLM regulations also authorize certain individuals, organizations and governmental agencies to request confidential cave information. OMB Control Number 1004-0165 is currently scheduled to expire on September 30, 2024. The BLM plans to request that OMB renew this OMB control number for an additional three (3) years.

Title of Collection: Cave Management: Cave Nominations and Requests for Confidential Information (43 CFR part 37).

OMB Control Number: 1004-0165.

Form Number: None.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public:

Governmental agencies and the public may submit cave nominations pursuant to section 4 of the FCRPA (16 U.S.C. 4303) and 43 CFR 37.11. Requests for confidential information may be submitted pursuant to 16 U.S.C. 4304 and 43 CFR 37.12 by:

- Federal and state governmental agencies;
- Bona fide educational and research institutions; and

- Individuals and organizations assisting a land management agency with cave management activities.

Total Estimated Number of Annual Respondents: 28.

Total Estimated Number of Annual Responses: 28.

Estimated Completion Time per Response: Varies from 1 hour to 11 hours, depending on activity.

Total Estimated Number of Annual Burden Hours: 278.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Total Estimated Annual Non-hour Burden Cost: None.

An agency may not conduct or sponsor and, notwithstanding any other provision of law, a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Darrin King,

Information Collection Clearance Officer.

BILLING CODE 4310-84-P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[Docket No. BOEM-2024-0019]

Notice of Availability of a Joint Record of Decision for the Proposed New England Wind Project and New England Wind Offshore Export Cable Project

AGENCY: Bureau of Ocean Energy Management, Interior; National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Commerce; U.S. Army Corps of Engineers, Department of the Army.

ACTION: Notice of availability; record of decision.

SUMMARY: The Bureau of Ocean Energy Management (BOEM) announces the availability of the joint record of decision (ROD) on the final Environmental Impact Statement (EIS) for the construction and operations plan (COP) submitted by Park City Wind LLC (Park City Wind) for its proposed New England Wind Project and New England Wind Offshore Export Cable Project (Project) offshore Massachusetts. The joint ROD includes the Department of the Interior's (DOI) decision regarding the New England Wind COP, the National Marine Fisheries Service's (NMFS) decision regarding Park City

Wind's request for Incidental Take Regulations (ITR) and an associated Letter of Authorization (LOA) under the Marine Mammal Protection Act (MMPA), and the Department of the Army's (DA) decision regarding authorizations under section 10 of the Rivers and Harbors Act of 1899 (RHA) and section 404 of the Clean Water Act (CWA). NMFS has adopted the final EIS to support its decision of whether or not to promulgate the requested ITR and issue a LOA to Park City Wind under the MMPA. The U.S. Army Corps of Engineers (USACE) has adopted the final EIS to support its decision to issue a DA permit under section 10 of the RHA and section 404 of the CWA. The joint ROD concludes the National Environmental Policy Act (NEPA) process for each agency.

ADDRESSES: The joint ROD and associated information are available on BOEM's website at: <https://www.boem.gov/renewable-energy/state-activities/new-england-wind-formerly-vineyard-wind-south>.

FOR FURTHER INFORMATION CONTACT: For information related to BOEM's action, please contact Jessica Stromberg, BOEM Office of Renewable Energy Programs, 45600 Woodland Road, VAM-OREP, Sterling, Virginia 20166, (703) 787-1730 or jessica.stromberg@boem.gov. For information related to NMFS' action, contact Katherine Renshaw, National Oceanic and Atmospheric Administration (NOAA) Office of General Counsel, Environmental Review and Coordination Section, (302) 515-0324, katherine.renshaw@noaa.gov. For information related to USACE's action, contact Ruth Brien, New England District Regulatory Division, (978) 318-8054 or ruthann.a.brien@usace.army.mil.

SUPPLEMENTARY INFORMATION:

Park City Wind seeks approval to construct, operate, and maintain a wind energy facility and its associated export cables on the Outer Continental Shelf (OCS) offshore Massachusetts, Rhode Island, and New York. The Project would be developed within the range of design parameters outlined in the New England Wind COP, subject to the applicable mitigation measures.

The Project as proposed in the COP would be developed in two phases. The entire Project would include up to a combined maximum 130 positions for wind turbine generators (WTGs) and electrical service platforms (ESPs), inter-array and inter-link cables connecting the individual WTGs and ESPs, five offshore export cables (two for phase I and three for phase II), onshore substations, and interconnection cables

connecting to the existing electrical grid in Massachusetts.

The WTGs, offshore substation, and inter-array cables would be located on the OCS approximately 32 kilometers (km) (20 miles (mi)) south of Martha's Vineyard and approximately 38 km (24 mi) southwest of Nantucket, within the area defined by Renewable Energy Lease OCS-A 0534. The Project would be adjacent to the Vineyard Wind 1 (VW1) project (OCS-A 0501). The EIS evaluates the potential to utilize currently unused positions of the VW1 project that VW1 could assign to the Project. The offshore export cables would be buried below the seabed surface on the OCS and State of Massachusetts-owned submerged lands. The onshore export cables, substations, and grid connections would be located in Barnstable County, MA, with the possibility of a landing site in Bristol County, MA.

BOEM considered 15 alternatives when preparing the draft EIS and carried forward three alternatives for further analysis in the final EIS. These three alternatives include the proposed action, one action alternative, and the no action alternative. After carefully considering public comments on the draft EIS and the alternatives described and analyzed in the final EIS, DOI selected a combination of the Habitat Minimization Alternative (Alternative C-1) and the Proposed Action (Alternative B). This combination would limit the installation of export cables to the Eastern Muskeget route or minimize installation of export cables to only one in the Western Muskeget route, as described in the Preferred Alternative in the final EIS.

The anticipated mitigation, monitoring, and reporting requirements, which will be included in BOEM's COP approval as terms and conditions, are included in the ROD, which is available on BOEM's website at: <https://www.boem.gov/renewable-energy/state-activities/new-england-wind-formerly-vineyard-wind-south>.

NMFS has adopted BOEM's final EIS to support its decision of whether or not to promulgate the requested ITR and issue the associated LOA to Park City Wind. NMFS' final decision of whether or not to promulgate the requested ITR and issue the LOA will be documented in a separate Decision Memorandum prepared in accordance with internal NMFS policy and procedures. The final ITR and a notice of issuance of the LOA, if issued, will be published in the **Federal Register**. The LOA would authorize Park City Wind to take a small number of marine mammals incidental to Project construction and would set

forth permissible methods of incidental taking; means of effecting the least practicable adverse impact on the species and its habitat; and requirements for monitoring and reporting. Pursuant to section 7 of the Endangered Species Act, NMFS issued a final Biological Opinion to BOEM on February 16, 2024, evaluating the effects of the proposed action on ESA-listed species. The proposed action in the opinion includes the associated permits, approvals, and authorizations that may be issued.

USACE has decided to adopt BOEM's final EIS and issue permits to Park City Wind pursuant to section 10 of the RHA and section 404 of the CWA. The USACE permits may authorize Park City Wind to discharge fill below the high tide line of waters of the United States. They may also authorize Park City Wind to perform work and place structures below the mean high water mark of navigable waters of the United States and to affix structures to the seabed on the OCS.

Authority: National Environmental Policy Act of 1969, as amended, (42 U.S.C. 4321 *et seq.*); 40 CFR 1505.2.

Karen Baker,

Chief, Office of Renewable Energy Programs, Bureau of Ocean Energy Management.

BILLING CODE 4340-98-P

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-716-719 and 731-TA-1683-1687 (Preliminary)]

Epoxy Resins From China, India, South Korea, Taiwan, and Thailand; Institution of Antidumping and Countervailing Duty Investigations and Scheduling of Preliminary Phase Investigations

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of the institution of investigations and commencement of preliminary phase antidumping and countervailing duty investigation Nos. 701-TA-716-719 and 731-TA-1683-1687 (Preliminary) pursuant to the Tariff Act of 1930 ("the Act") to determine whether there is a reasonable indication that an industry in the United States is materially injured or threatened with material injury, or the establishment of an industry in the United States is materially retarded, by reason of imports of epoxy resins from China,

India, South Korea, Taiwan, and Thailand, provided for in subheading 3907.30.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value and alleged to be subsidized by the Governments of China, India, South Korea, and Taiwan. Unless the Department of Commerce ("Commerce") extends the time for initiation, the Commission must reach a preliminary determination in antidumping and countervailing duty investigations in 45 days, or in this case by May 20, 2024. The Commission's views must be transmitted to Commerce within five business days thereafter, or by May 28, 2024.

DATES: April 3, 2024.

FOR FURTHER INFORMATION CONTACT:

Alejandro Orozco (202-205-3177), Office of Investigations, U.S. International Trade Commission, 500 E Street SW, Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its internet server (<https://www.usitc.gov>). The public record for these investigations may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—These investigations are being instituted, pursuant to sections 703(a) and 733(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a) and 1673b(a)), in response to petitions filed on April 3, 2024, by the U.S. Epoxy Resin Producers Ad Hoc Coalition, which is comprised of Olin Corporation, Clayton, Missouri, and Westlake Corporation, Houston, Texas.

For further information concerning the conduct of these investigations and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A and B (19 CFR part 207).

Participation in the investigations and public service list.—Persons (other than petitioners) wishing to participate in the investigations as parties must file an entry of appearance with the Secretary to the Commission, as provided in §§ 201.11 and 207.10 of the Commission's rules, not later than seven days after publication of this notice in the **Federal Register**. Industrial users and (if the merchandise under
