

study also uses administrative data from the child welfare system, homelessness management information system, and program providers. Administrative data is being used in its existing format and does not impose any new information collection or recordkeeping requirements on respondents.

The purpose of the requested extension is to continue the ongoing data collection, which will provide information on focal youth outcomes

and program implementation. We are also requesting revisions to the interview and focus group protocols, as well as an additional round of interviews and focus groups. The purpose of the proposed revision is to better understand their experiences in delivering and receiving services and gather information on topics not previously covered in the protocols.

Respondents: The baseline and follow-up surveys and contact update

requests are administered to youth in the treatment group (youth receiving the Pathways program) and youth in the control group who consent to participate in the study. Interviews are conducted with program leadership and staff. Focus groups are conducted with a subset of youth who are participating in the study. Check-ins are conducted with program directors.

Administration for Children and Families

Submission for Office of Management and Budget Review; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery (Office of Management and Budget #: 0970–0401)

AGENCY: Administration for Children and Families, Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Administration for Children and Families (ACF) proposes to extend data collection under the existing overarching Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery (Office of Management and Budget (OMB) #0970–0401). There are no changes to the proposed types of information collection or uses of data, but ACF is requesting an increase to the estimated number responses per respondent.

DATES: *Comments due within 30 days of publication.* OMB must make a decision about the collection of information between 30 and 60 days after

publication of this document in the **Federal Register**. Therefore, a comment is best assured of having its full effect if OMB receives it within 30 days of publication.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. You can also obtain copies of the proposed collection of information by emailing OPREinfocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: Executive Order 12862 directs federal agencies to provide service to the public that matches or exceeds the best service available in the private sector. As outlined in Memorandum M–11–26, OMB worked with agencies to create a Fast Track Process to allow agencies to obtain timely feedback on service delivery while ensuring that the information collected is useful and minimally burdensome for the public, as required by the Paperwork Reduction Act of

1995. ACF created this generic clearance in response to this effort by OMB.

To work continuously to ensure that the ACF programs are effective and meet our customers' needs, we use this Fast Track generic clearance process to collect qualitative feedback on our service delivery. This collection of information is necessary to enable ACF to garner customer and stakeholder feedback in an efficient, timely manner in accord with our commitment to improving service delivery. The information collected from our customers and stakeholders helps ensure that users have an effective, efficient, and satisfying experience with the programs. This feedback provides insights into customer or stakeholder perceptions, experiences, and expectations; provides an early warning

of issues with service; or focus attention on areas where communication, training, or changes in operations might improve delivery of products or services. These collections allow for ongoing, collaborative, and actionable communications between ACF and its customers and stakeholders. They also allow feedback to contribute directly to the improvement of program management.

Per Memorandum M-11-26, information collection requests submitted under this Fast Track generic will be considered approved unless OMB notifies ACF otherwise within 5 days.

Respondents: ACF program participants, potential program participants, stakeholders, and other customers.

Annual Burden Estimates

Burden Estimates—Approved Information Collection

The request to OMB will include an extension request for 98 approved information collections that are planned to continue beyond May 2024. The total burden associated with these collections is 15,196 hours.

Burden Estimates—New Requests

The following table includes burden estimates for new requests under this generic over the next 3 years. Based on the use of this generic clearance over the past 3 years, ACF is requesting an increase to the estimated number of responses per respondent from 1 to 2.

SUPPLEMENTARY INFORMATION:

Information Collection Request Title: The National Health Service Corps Loan Repayment Programs, OMB No. 0915-0127—Revision

Abstract: The National Health Service Corps (NHSC) Loan Repayment Program (LRP) was established to assure an adequate supply of trained primary care health professionals to provide services in Health Professional Shortage Areas (HPSAs) of the United States with the greatest need. The NHSC Substance Use

Disorder Workforce LRP and the NHSC Rural Community LRP were established to recruit and retain a health professional workforce with specific training and credentials to provide evidence-based substance use disorder treatment in HPSAs. Under these programs, HHS agrees to repay the qualifying educational loans of selected primary care health professionals. In return, the health professionals agree to serve for a specified period of time in an NHSC-approved site located in a federally-designated HPSA approved by the Secretary of HHS for LRP participants.

The forms used by each LRP include the following: (1) the NHSC LRP Application; (2) the Authorization for Disclosure of Loan Information Form; (3) the Privacy Act Release Authorization Form, and, if applicable; (4) the Verification of Disadvantaged Background Form; (5) the Private Practice Option Form; (6) the NHSC Comprehensive Behavioral Health Services Checklist; (7) the NHSC Spanish Language Assessment Proficiency Test Form; and (8) the NHSC Site Application. The first four of these NHSC LRP forms collect information that is needed for selecting participants and repaying qualifying educational loans. The Private Practice Option and Spanish Language Assessment forms are needed to collect
