SUPPLEMENTARY INFORMATION:

Title: Mink Survey.

OMB Number: 0535–0212.

Expiration Date of Approval: January 31, 2025.

Type of Request: Intent to seek approval to revise and extend an information collection for 3 years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition. The Mink Survey collects data on the number of mink pelts produced, the number of females bred, the value of pelts produced, and the number of mink farms. Mink estimates are used by the federal government to calculate total value of sales and total cash receipts, by State governments to administer fur farm programs and health regulations, and by universities in research projects. States included in this survey are California, Idaho, Illinois, Iowa, Michigan, Minnesota, Montana, New Hampshire, New York, North Carolina, Ohio, Oregon, Pennsylvania, South Dakota, Utah, Virginia, Washington, and Wisconsin.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3501, *et seq.*), and Office of Management and Budget regulations at 5 CFR part 1320.

All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2018, title III of Public Law 115–435, codified in 44 U.S.C. ch. 35. CIPSEA supports NASS's pledge of confidentiality to all respondents and facilitates the agency's efforts to reduce burden by supporting statistical activities of collaborative agencies through designation of NASS agents, subject to the limitations and penalties described in CIPSEA. NASS uses the information only for statistical purposes and publishes only tabulated total data.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 10 minutes per

response for the producers and approximately 30 minutes per response for the buyers. NASS plans to mail out publicity materials with the questionnaires to inform operators of the importance of these surveys. NASS will also use multiple mailings, followed up with phone and personal enumeration to increase response rates and to minimize data collection costs.

Respondents: Farmers and ranchers.

Estimated Number of Respondents: 160.

Estimated Total Annual Burden on Respondents: 50 hours.

Comments: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological, or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, DC, March 22, 2024.

Joseph L. Parsons,

Associate Administrator.

SUPPLEMENTARY INFORMATION:

Title: Egg, Chicken, and Turkey Surveys.

OMB Number: 0535–0004.

Expiration Date of Approval: January 31, 2025.

Type of Request: Intent to seek approval to revise and extend an information collection for 3 years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, prices, and disposition. The Egg, Chicken, and Turkey Surveys obtain basic poultry statistics from voluntary cooperators throughout the Nation. Statistics are published on placement of pullet chicks for hatchery supply flocks; hatching reports for broiler-type, egg-type, and turkey eggs; number of layers on hand; total table egg production; and production and value estimates for eggs, chickens, and turkeys. The frequencies of the surveys being conducted include weekly, monthly, and annually. This information is used by producers, processors, feed dealers, and others in marketing and supply channels as a basis for production and marketing decisions. Government agencies use these estimates to evaluate poultry

product supplies. The information is an important consideration in government purchases for the National School Lunch Program and in formulation of export-import policy.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This notice is submitted in accordance with the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501, *et seq.*), and Office of Management and Budget regulations at 5 CFR part 1320.

All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2018, title III of Public Law 115-435, codified in 44 U.S.C. ch. 35. CIPSEA supports NASS's pledge of confidentiality to all respondents and facilitates the agency's efforts to reduce burden by supporting statistical activities of collaborative agencies through designation of NASS agents, subject to the limitations and penalties described in CIPSEA. NASS uses the information only for statistical purposes and publishes only tabulated total data.

Estimate of Burden: Public reporting burden for this collection of information is estimated between 8 and 35 minutes per respondent per survey. Additional burden is allowed for the inclusion of publicity materials and instructions on how to respond to the surveys via the internet.

Respondents: Farmers, ranchers, farm managers, and farm contractors.

Estimated Number of Respondents: 2,700.

Estimated Total Annual Burden on Respondents: 4,050 hours. This will include burden for both the initial mailing and phone follow-up to non-respondents, as well as publicity and instruction materials mailed out with questionnaires.

Comments: Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the

burden of the collection of information on those who are to respond, through the use of appropriate automated, electronic, mechanical, technological, or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.
