

will also assess how teachers implement the toolkit to provide context for the efficacy findings and guidance to improve the toolkit and its future use. The evaluation will take place in 50 schools across approximately 10 school divisions in Virginia and focus on mathematics teaching practices and student mathematics knowledge and skills in preschool classrooms. The purpose of this study will be to measure the efficacy and implementation of the REL AP-developed toolkit designed to improve teacher practice and preschool students' math learning outcomes. The toolkit evaluation will produce a report for district and school leaders who are considering strategies to improve math learning in preschool. The report will be designed to help them decide whether and how to use the toolkit to help them implement the practice guide recommendations.

DEPARTMENT OF EDUCATION

[Docket No.: ED-2024-SCC-0019]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Vocational Rehabilitation Program Corrective Action Plan (CAP)

AGENCY: Office of Special Education and Rehabilitative Services (OSERS), Department of Education (ED).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act (PRA) of 1995, the Department is proposing a reinstatement without change of a previously approved information collection request (ICR).

DATES: Interested persons are invited to submit comments on or before May 13, 2024.

ADDRESSES: Written comments and recommendations for proposed information collection requests should be submitted within 30 days of publication of this notice. Click on this link www.reginfo.gov/public/do/PRAMain to access the site. Find this information collection request (ICR) by selecting "Department of Education" under "Currently Under Review," then

check the "Only Show ICR for Public Comment" checkbox. *Reginfo.gov* provides two links to view documents related to this information collection request. Information collection forms and instructions may be found by clicking on the "View Information Collection (IC) List" link. Supporting statements and other supporting documentation may be found by clicking on the "View Supporting Statement and Other Documents" link. **FOR FURTHER INFORMATION CONTACT:** For specific questions related to collection activities, please contact Ed Vitelli, 202-987-1923.

SUPPLEMENTARY INFORMATION: The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Vocational Rehabilitation Program Corrective Action Plan (CAP).

OMB Control Number: 1820-0694.

Type of Review: A reinstatement without change of a previously approved ICR.

Respondents/Affected Public: State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 60.

Total Estimated Number of Annual Burden Hours: 975.

Abstract: Section 107(a)(1) of the Rehabilitation Act of 1973 (Rehabilitation Act) requires the Commissioner of the Rehabilitation Services Administration (RSA) to conduct annual reviews and periodic on-site monitoring of the vocational rehabilitation (VR) program to determine whether a state agency is complying substantially with the provisions of its State Plan under section 101 of the Rehabilitation Act and with the evaluation standards and performance indicators established under section 106 of the Rehabilitation Act subject to the performance accountability provisions described in Section 116(b) of the Workforce Innovation and Opportunity Act (WIOA). To fulfill its monitoring responsibility, RSA reviews a maximum

of 15 VR agencies in each Federal fiscal year. When, based on its monitoring, RSA determines that a state agency has not administered and operated the VR program in compliance with its State Plan, the Rehabilitation Act, and implementing regulations at 34 CFR part 361, the agency must develop a corrective action plan (CAP), established by RSA in accordance with the requirement of section 107(b)(2) of the Rehabilitation Act, for RSA approval within 45 days from the issuance of the final monitoring report.

[Docket No. CP23-544-000]

Northern Border Pipeline Company; Notice of Availability of the Environmental Assessment for the Proposed Bison Xpress Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Bison Xpress Project proposed by Northern Border Pipeline Company (Northern Border) in the above-referenced docket. Northern Border requests authorization to replace and expand compression facilities at Northern Border's existing Arnegard, Manning, and Glen Ullin Compressor Stations in McKenzie, Dunn, and Morton Counties, North Dakota, respectively. The project purpose is to improve system reliability and provide 300,000 dekatherms per day of incremental capacity, which Northern Border would lease to Wyoming Interstate Company, LLC.

The EA assesses the potential environmental effects of the construction and operation of Northern Border's Bison Xpress Project in accordance with the requirements of the National Environmental Policy Act. The FERC staff concludes that approval of the proposed project would not constitute a major federal action significantly affecting the quality of the human environment.

The Bison Xpress Project includes the following components:

- abandoning by removal the existing 20,000 HP Rolls Royce Avon gas-fired, turbine compressor, installing two new 23,470 HP Solar Turbine Titan 130 gas-fired, turbine compressors, and installing associated piping, six new gas cooling bays and appurtenances at the existing Arnegard (No. 4) Compressor Station;
- placing the existing 38,000 HP Rolls Royce RB211 gas-fired, turbine compressor on standby for planned and unplanned outages up to 500 hours annually, installing two new 31,900 HP Solar Turbine Titan 250 gas-fired, turbine compressors, and installing associated piping and appurtenances at the existing Manning (No. 5) Compressor Station; and
- placing the existing 38,000 HP Rolls Royce RB211 gas-fired, turbine compressor on standby for planned and unplanned outages up to 500 hours annually, installing two new 31,900 HP Solar Turbine Titan 250 gas-fired,

turbine compressors, and installing associated piping, four new gas cooling bays and appurtenances at the existing Glen Ullin (No. 6) Compressor Station.

The Commission mailed a copy of the *Notice of Availability* to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American tribes; potentially affected landowners, religious organizations and other interested individuals and groups; and newspapers and libraries in the project area. The EA is only available in electronic format. It may be viewed and downloaded from the FERC's website (www.ferc.gov), on the natural gas environmental documents page (<https://www.ferc.gov/industries-data/natural-gas/environment/environmental-documents>). In addition, the EA may be accessed by using the eLibrary link on the FERC's website. Click on the eLibrary link (<https://elibrary.ferc.gov/eLibrary/search>), select "General Search" and enter the docket number in the "Docket Number" field, excluding the last three digits (*i.e.* CP23-544). Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

The EA is not a decision document. It presents Commission staff's independent analysis of the environmental issues for the Commission to consider when addressing the merits of all issues in this proceeding. Any person wishing to comment on the EA may do so. Your comments should focus on the EA's disclosure and discussion of potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before 5:00pm Eastern Time on May 8, 2024.

For your convenience, there are three methods you can use to file your comments to the Commission. The Commission encourages electronic filing of comments and has staff available to assist you at (866) 208-3676 or FercOnlineSupport@ferc.gov. Please carefully follow these instructions so that your comments are properly recorded.

(1) You can file your comments electronically using the eComment
