

Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (PRA). Public comments on the ICR are invited.

DATES: The OMB will consider all written comments that the agency receives on or before May 16, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Michael Howell by telephone at 202-693-6782, or by email at DOL_PRA_PUBLIC@dol.gov.

SUPPLEMENTARY INFORMATION: Federal Mine Safety and Health Act of 1977 (Mine Act) Public Law 95-164, as amended, recognizes that education and training is an important element of Federal efforts to make the nation's mines safe. Section 115(a) of the Mine Act states that "each operator of a coal or other mine shall have a health and safety training program which shall be approved by the Secretary." 30 CFR 48.3 and 48.23 require training plans for underground and surface mines, respectively. Training plans are required to be submitted for approval to the MSHA District Manager for the area in which the mine is located. These standards are intended to ensure that miners will be effectively trained in matters affecting their health and safety, with the goal of reducing the occurrence of injury and illness in the nation's mines. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on September 18, 2023 (88 FR 63978).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency's estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally

cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

Agency: DOL-MSHA.

Title of Collection: Training Plans and Records of Training, for Underground Miners and Miners Working at Surface Mines and Surface Areas of Underground Mines.

OMB Control Number: 1219-0009.

Affected Public: Businesses or other for-profits.

Number of Respondents: 65,494.

Frequency: On occasion.

Number of Responses: 130,055.

Annual Burden Hours: 12,434 hours.

Total Estimated Annual Other Costs Burden: \$394,856.

(Authority: 44 U.S.C. 3507(a)(1)(D))

[Docket No. OSHA-2009-0025]

UL LLC: Grant of Expansion of Recognition and Modification to the NRTL Program's List of Appropriate Test Standards

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces the final decision to expand the scope of recognition for UL LLC, as a Nationally Recognized Testing Laboratory (NRTL). Additionally, OSHA announces the final decision to add two test standards to the NRTL Program's List of Appropriate Test Standards.

DATES: The expansion of the scope of recognition becomes effective on April 16, 2024.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

Press inquiries: Contact Mr. Frank Meilinger, Director, OSHA Office of Communications, U.S. Department of Labor; telephone (202) 693-1999 or email meilinger.francis2@dol.gov.

General and technical information: Contact Mr. Kevin Robinson, Director, Office of Technical Programs and Coordination Activities, Directorate of Technical Support and Emergency Management, Occupational Safety and Health Administration, U.S. Department of Labor; telephone (202) 693-1911 or email robinson.kevin@dol.gov.

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of UL LLC, (UL) as a NRTL. UL's expansion covers the addition of three test standards to the NRTL scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified in 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition. Each NRTL's scope of recognition includes (1) the type of products the NRTL may test, with each type specified by the applicable test standard; and (2) the recognized site(s) that has/have the technical capability to perform the product-testing and product-certification activities for test standards within the NRTL's scope. Recognition is not a delegation or grant of government authority; however, recognition enables employers to use products approved by the NRTL to meet OSHA standards that require product testing and certification.

The agency processes applications by NRTLs or applicant organizations for initial recognition, as well as for expansion or renewal of recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides a preliminary finding. In the second notice, the agency provides the final decision on the application. These notices set forth the NRTL's scope of recognition or modifications of that scope. OSHA maintains an informational web page for each NRTL, including UL, which details that NRTL's scope of recognition. These pages are available from the OSHA website at <https://www.osha.gov/dts/otpc/nrtl/index.html>.

UL submitted an application, dated July 26, 2022 (OSHA-2009-0025-0059) to expand the NRTL scope of recognition to include three additional test standards. OSHA staff performed a detailed analysis of the application packet and other pertinent information.

OSHA did not perform any on-site reviews in relation to these applications.

OSHA published the preliminary notice announcing UL's expansion application in the **Federal Register** on February 9, 2024 (89 FR 9179). The agency requested comments by February 26, 2024, but it received no comments in response to this notice.

To obtain or review copies of all public documents pertaining to the UL application, go to <http://www.regulations.gov> or contact the Docket Office, Occupational Safety and

Health Administration, U.S. Department of Labor. Docket No. OSHA-2009-0025 contains all materials in the record concerning UL's recognition. Contact the OSHA Docket Office at (202) 693-2350 (TTY (877) 889-5627) for assistance in locating docket submissions.

II. Final Decision and Order

OSHA staff examined UL's expansion application, its capability to meet the requirements of the test standards, and other pertinent information. Based on

its review of this evidence, OSHA finds that UL meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitations and conditions listed in this notice. OSHA, therefore, is proceeding with this final notice to grant UL's expanded scope of recognition. OSHA limits the expansion of UL's recognition to testing and certification of products for demonstration of conformance to the test standards listed below in Table 1.

TABLE 1—TEST STANDARDS FOR INCLUSION IN UL'S NRTL SCOPE OF RECOGNITION

Test standard	Test standard title
UL 6420	Equipment Use for System Isolation and Rated as a Single Unit.
UL 6200 *	Controllers for Use in Power Production.
UL 62091 *	Low-Voltage Switchgear and Controlgear—Controllers for Drivers of Stationary Fire Pump.

* Represents the standards that OSHA will add to the NRTL Program's List of Appropriate Test Standards.

In this notice, OSHA also announces the final decision to add two new test standards to the NRTL Program's List of Appropriate Test Standards. Table 2

below lists the standards that are new to the NRTL Program. OSHA has determined that these test standards are appropriate test standards and will add

them to the NRTL Program's List of Appropriate Test Standards.

TABLE 2—STANDARDS OSHA WILL ADD TO THE NRTL PROGRAM'S LIST OF APPROPRIATE TEST STANDARDS

Test standard	Test standard title
UL 6200	Controllers for Use in Power Production.
UL 62091	Low-Voltage Switchgear and Controlgear—Controllers for Drivers of Stationary Fire Pump.

The American National Standards Institute (ANSI) may approve the test standards listed above as American National Standards. However, for convenience, we may use the designation of the standards-developing organization for the standard as opposed to the ANSI designation. Under the NRTL Program's policy (see OSHA Instruction CPL 01-00-004, Chapter 2, Section VIII), any NRTL recognized for a particular test standard may use either the proprietary version of the test standard or the ANSI version of that standard. Contact ANSI to determine whether a test standard is currently ANSI-approved.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, UL must abide by the following conditions of the recognition:

1. UL must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in its operations as a NRTL, and provide details of the change(s);

2. UL must meet all the terms of its recognition and comply with all OSHA

policies pertaining to this recognition; and

3. UL must continue to meet the requirements for recognition, including all previously published conditions on UL's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby expands the scope of recognition of UL as a NRTL, subject to the limitations and conditions specified above. Additionally, OSHA will add two standards to the NRTL List of Appropriate Test Standards.

III. Authority and Signature

James S. Frederick, Deputy Assistant Secretary of Labor for Occupational Safety and Health, authorized the preparation of this notice. Accordingly, the agency is issuing this notice pursuant to 29 U.S.C. 657(g)(2), Secretary of Labor's Order No. 8-2020 (85 FR 58393, Sept. 18, 2020)), and 29 CFR 1910.7.

Signed in Washington, DC.

James S. Frederick,
Deputy Assistant Secretary of Labor for Occupational Safety and Health.
