Title: Representations for Commodity Credit Corporation or Farm Service Agency Loans and Authorization to File a Financing Statement and Related Documents.

OMB Control Number: 0560–0215.

Expiration Date of Approval: August 31, 2024.

Type of Request: Extension with a revision.

Abstract: The CCC and FSA are requesting comments from all interested individuals and organizations on an extension with revision of a currently approved information collection that supports CCC and FSA loan programs. We are requesting a 3-year extension for the collection.

Form CCC–10, “Representations for Commodity Credit Corporation or Farm Service Agency Loans and Authorization to File a Financing Statement and Related Documents” is necessary to:

(a) Gather or verify basic data, provided by a CCC or FSA loan applicant, that is required on a financing statement filed by CCC or FSA to perfect a security interest in collateral used to secure a loan; and

(b) Obtain applicant permission to file a financing statement prior to the execution of a security agreement.

The number of burden hours is being revised in this request. The number of burden hours decreased from 385 hours to 298 hours due to fewer producers who are new to FSA loan programs who had not previously provided applicable data and less time spent by producers who review the data on the form each time they apply for a FSA loan.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hours is the estimated average time per response multiplied by the estimated total annual of responses.

Estimated Annual Burden: The public reporting burden for this information

collection is estimated to average 5 minutes per response (0.08 hours).

Respondents: Individual producers and farming entities.

Estimated Number of Respondents: 3,734.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Response: 3,734.

Estimated Average Time per response: 0.08 (average 5 minutes).

Estimated Total Annual Burden on Respondents: 298.

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Evaluate the quality, ability and clarity of the information technology; and

(4) Minimize the burden of the information collection on those who respond through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information.

All responses to this notice, including names and addresses when provided, will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
