#### Proposed Collection; Comment Request; Extension: Credit Risk Retention—Regulation RR

*Upon Written Request Copies Available From:* Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549-2736

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (“Commission”) is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Credit Risk Retention (“Regulation RR”) (17 CFR 246.1 through 246.22) recordkeeping and disclosure

requirements implement Section 15G of the Securities Exchange Act of 1934 (15 U.S.C. 78o–11) Section 15G clarifies the scope and application of Section 306(a) of the Sarbanes-Oxley Act of 2002 (15 U.S.C. 7244(a)). Section 306(a) of the Sarbanes-Oxley Act requires, among other things, an issuer to provide timely notice to its directors and executive officers and to the Commission of the imposition of a blackout period that would trigger a trading prohibition under Section 306(a)(1) of the Sarbanes-Oxley Act. Section 306(a)(1) prohibits any director or executive officer of an issuer of any equity security, from directly or indirectly, purchasing, selling, or otherwise acquiring or transferring any equity security of that issuer during the blackout period with respect to such equity security if the director or executive officer acquired the equity security in connection with his or her service or employment. Approximately 1,647 issuers file using Regulation RR responses and it takes approximately 14,389 hours per response. We estimate that 75% of the 14,389 hours per response (10,792 per response hours) is prepared by the registrant for a total annual reporting burden of 17,774 hours (10,792 hours per response × 1,647 responses).

Written comments are invited on: (a) whether this proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of the burden imposed by the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication by June 17, 2024.
