

For the reasons discussed in the preamble, the Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 46 U.S.C 70034, 70051; 70124; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 00170.1, Revision No. 01.3.

■ 2. Add § 165.T08–0314 to read as follows:

§ 165.T08–0314 Safety Zone; Corpus Christi Ship Channel, Corpus Christi, TX

(a) *Location.* The safety zone will be within the following area: All navigable waters of the Corpus Christi Ship Channel, from the surface to bottom, encompassed by a line connecting the following points beginning at Point 1: 27°48′47.41″ N, 97°16′49.55″ W, thence to Point 2: 27°48′46.55″ N, 97°16′54.8″ W, thence to Point 3: 27°48′28.48″ N, 97°16′58.94″ W, thence to Point 4: 27°48′28.04″ N, 97°16′51.42″ W. These coordinates are based on World Geodetic System (WGS) 84.

(b) *Definitions.* As used in this section, designated representative means a Coast Guard Patrol officer, petty officer, or other officer operating a Coast Guard vessel and a Federal, State, and local officer designated by or assisting the Captain of the Port, Port Arthur, TX (COTP), in the enforcement of the safety zone.

(c) *Enforcement period.* This section will be subject to enforcement from 8 p.m. to 6 a.m. of the next day, on each day, from April 22, 2024 through May 31, 2024.

(d) *Regulations.* (1) In accordance with the general regulations in § 165.23 of this part, entry into the temporary safety zones described in paragraph (a) of this section are prohibited unless authorized by the Captain of the Port Sector Corpus Christi (COTP) or a designated representative. They may be contacted on Channel 16 VHF–FM (156.8 MHz) or by telephone at 1–800–874–2143.

(2) If permission is granted, all persons and vessels shall comply with the instructions of the COTP or designated representative.

(e) *Information broadcasts.* The COTP or a designated representative will inform the public of the enforcement times and date for this safety zone through Broadcast Notices to Mariners, Local Notices to Mariners, and/or Safety Marine Information Broadcasts as appropriate.

Dated: April 15, 2024.

Jason Gunning,

Captain, U.S. Coast Guard, Captain of the Port, Sector Corpus Christi.

BILLING CODE 9110–04–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 52 and 70

[EPA–R07–OAR–2024–0064; FRL–11722–02–R7]

Air Plan Approval; Iowa; State Implementation Plan and State Operating Permits Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve revisions to the Iowa State Implementation Plan (SIP) and the Operating Permit Program for the State of Iowa. The revisions update incorporations by reference to EPA methods for performance testing (stack testing), update the definitions, and adopt the most recent National Ambient Air Quality Standards (NAAQS) for ozone. These revisions do not impact the stringency of the SIP or have an adverse effect on air quality. The EPA’s approval of this rule revision is being done in accordance with the requirements of the Clean Air Act (CAA).

DATES: This final rule is effective on May 20, 2024.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R07–OAR–2024–0064. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through <https://www.regulations.gov> or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional information.

FOR FURTHER INFORMATION CONTACT: Bethany Olson, Environmental Protection Agency, Region 7 Office, Air Quality Planning Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219;

telephone number: (913) 551–7905; email address: olson.bethany@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document “we,” “us,” and “our” refer to EPA.

Table of Contents

- I. What is being addressed in this document?
- II. Have the requirements for approval of a SIP and the operating permit plan revisions been met?
- III. The EPA’s Response to Comments
- IV. What action is the EPA taking?
- V. Incorporation by Reference
- VI. Statutory and Executive Order Reviews

I. What is being addressed in this document?

The EPA is approving revisions to the Iowa SIP and the Operating Permits Program received on March 29, 2023. The revisions incorporate recent changes to Iowa Administrative Code. The following chapters are impacted:

- Chapter 20, “Scope of Title—Definitions;”
- Chapter 22, “Controlling Pollution;”
- Chapter 25, “Measurement of Emissions;” and
- Chapter 28, “Ambient Air Quality Standards.”

The revisions update incorporations by reference to EPA methods for performance testing (stack testing) and adopt the most recent National Ambient Air Quality Standards (NAAQS) for ozone. As explained in detail in the EPA’s proposed rule, EPA finds these revisions meet the requirements of the Clean Air Act, do not impact the stringency of the SIP, and do not adversely impact air quality (89 FR 12291, February 16, 2024). The full text of these changes can be found in the State’s submission, which is included in the docket for this action.

Sections 111 and 112 of the Clean Air Act (CAA) allow EPA to delegate authority to states for New Source Performance Standards (NSPS) and National Emission Standards for Hazardous Air Pollutants (NESHAPs). EPA has delegated authority to Iowa for approved portions of these sections of the CAA. Changes made to Iowa’s Chapter 23 pertaining to new and revised NSPS and NESHAPs are not directly approved into the SIP, but rather, are adopted by reference. Thus, EPA is not approving the changes to Chapter 23 of the Iowa Administrative Code into the state’s SIP.

II. Have the requirements for approval of a SIP and the operating permit plan revisions been met?

The State submission has met the public notice requirements for SIP

submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The State provided public notice on this SIP revision from November 2, 2022, to December 5, 2022, and held a public hearing on December 5, 2022. The State received no comments. In addition, as explained above, the revision meets the substantive SIP requirements of the CAA, including section 110 and implementing regulations.

III. The EPA's Response to Comments

The public comment period on the EPA's proposed rule opened February 16, 2024, the date of its publication in the **Federal Register** and closed on March 18, 2024. During this period, EPA received one comment. The comment is available for review in the docket for this action.

Comment 1: The commenter stated the date the state public comment period opened was incorrect in section V. of the proposed rule. The proposed rule incorrectly stated that the state provided public notice on the SIP revision from November 22, 2022, to December 5, 2022. The correct date the state public comment period opened is November 2, 2022.

Response 1: The EPA acknowledges that the proposed rule used an incorrect date for the opening of the state public comment period. While the error does not have a substantive impact on EPA's proposed action, EPA has changed the date the state public comment period opened in the final rulemaking.

IV. What action is the EPA taking?

The EPA is finalizing its proposal to approve revisions to the Iowa SIP and the Operating Permits Program at IAC 567–20.2, 567–25.1, 567–28.1, and 567–22.100.

V. Incorporation by Reference

In this document, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Iowa rules 567–20.2, Definitions, which provides definitions for air quality regulations; 567–25.1, Testing and Sampling of New and Existing Equipment, which regulates testing and sampling of equipment; 567–28.1, State-wide Standards, which regulates ambient air quality standards; and 22.100, Definitions for Title V Operating Permits, which provides definitions for state operating permits. The state effective date of these rules is March 15, 2023. The EPA has made, and will

continue to make, these materials generally available through <https://www.regulations.gov> and at the EPA Region 7 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

Therefore, these materials have been approved by the EPA for inclusion in the State Implementation Plan, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of the EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.¹

VI. Statutory and Executive Order

Under the Clean Air Act, the Administrator is required to approve a SIP submission that complies with the provisions of the Clean Air Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Clean Air Act. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 14094 (88 FR 21879, April 11, 2023);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997) because it approves a state program;
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001); and
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement

Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

Executive Order 12898 (Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations, 59 FR 7629, February 16, 1994) directs Federal agencies to identify and address “disproportionately high and adverse human health or environmental effects” of their actions on minority populations and low-income populations to the greatest extent practicable and permitted by law. EPA defines environmental justice (EJ) as “the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.” EPA further defines the term fair treatment to mean that “no group of people should bear a disproportionate burden of environmental harms and risks, including those resulting from the negative environmental consequences of industrial, governmental, and commercial operations or programs and policies.”

The Iowa Department of Natural Resources did not evaluate environmental justice considerations as part of its SIP submittal; the CAA and applicable implementing regulations neither prohibit nor require such an evaluation. EPA did not perform an EJ analysis and did not consider EJ in this action. Due to the nature of the action being taken here, this action is expected to have a neutral to positive impact on the air quality of the affected area. Consideration of EJ is not required as part of this action, and there is no information in the record inconsistent with the stated goal of E.O. 12898 of achieving environmental justice for people of color, low-income populations, and Indigenous peoples.

This action is subject to the Congressional Review Act, and EPA will submit a rule report to each House of the Congress and to the Comptroller General of the United States. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

¹ 62 FR 27968, May 22, 1997.

Under section 307(b)(1) of the Clean Air Act, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by June 18, 2024. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements (see section 307(b)(2)).

List of Subjects

40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by

reference, Intergovernmental relations, Particulate matter, Reporting and recordkeeping requirements, Volatile organic compounds.

40 CFR Part 70

Environmental protection, Administrative practice and procedure, Air pollution control, Intergovernmental relations, Operating permits, Reporting and recordkeeping requirements.

Dated: April 11, 2024.

Meghan A. McCollister, Regional Administrator, Region 7.

For the reasons stated in the preamble, the EPA amends 40 CFR parts 52 and 70 as set forth below:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 et seq.

Subpart Q—Iowa

2. In § 52.820, the table in paragraph (c) is amended by revising the entries “567–20.2,” “567–25.1,” and “567–28.1” to read as follows:

§ 52.820 Identification of plan.

* * * * *
(c) * * *

EPA-APPROVED IOWA REGULATIONS

Table with 5 columns: Iowa citation, Title, State effective date, EPA approval date, Explanation. Includes sections for Chapter 20 (Definitions), Chapter 25 (Measurement of Emissions), and Chapter 28 (Ambient Air Quality Standards).

* * * * *

PART 70—STATE OPERATING PERMIT PROGRAMS

3. The authority citation for part 70 continues to read as follows:

Authority: 42 U.S.C. 7401, et seq.

4. Appendix A to part 70 is amended by adding paragraph (z) under “Iowa” to read as follows:

Appendix A to Part 70—Approval Status of State and Local Operating Permits Programs

* * * * *
Iowa
* * * * *

(z) The Iowa Department of Natural Resources submitted for program approval revisions to rule 567–22.100 on March 29, 2023. The state effective date is March 15, 2023. This revision is effective May 20, 2024.
